even to buddhahood Katherine Rogers has enriched the translation with commentary by several eminent scholars of the Gelukpa order revealing a marvelous path that draws one into the heart of the Tibetan approach to knowledge and self transformation It is fundamental to Tibetan thought that true knowledge is practical useful and ultimately transforming and liberating Such knowledge is far from obvious but it can be attained through correct reasoning Thus logic is an important tool a part of the spiritual path leading ultimately to complete self transformation *The Architect and Contract Reporter* ,1897

Critique of Judgment Immanuel Kant,Werner S. Pluhar,1987-01-01 In THE CRITIQUE OF JUDGMENT 1790 Immanuel Kant 1724 1804 seeks to establish the a priori principles underlying the faculty of judgement just as he did in his previous critiques of pure and practical reason The first part deals with the subject of our aesthetic sensibility we respond to certain natural phenomena as beautiful says Kant when we recognise in nature a harmonious order that satisfies the mind's own need for order The second half of the critique concentrates on the apparent teleology in nature's design of organisms Kant argues that our minds are inclined to see purpose and order in nature and this is the main principle underlying all of our judgements Although this might imply a super sensible Designer Kant insists that we cannot prove a supernatural dimension or the existence of God Such considerations are beyond reason and are solely the province of faith Inland Printer, American Lithographer ,1890
