The Feudal Transformation 900 1200:

The Feudal Transformation Jean-Pierre Poly, Eric Bournazel, 1991 **Lordship in the County of Maine, C. 890-1160** Richard Ewing Barton, 2004 The vision and chronology of tenth and eleventh century lordship on offer here departs from the model of feudal mutation and emphasizes two major themes the centrality of intangible charismatic elements of honor prestige and acclamation and the lack of foundation for any notion of feudal transformation while acknowledging changes in the geography of power across the tenth and eleventh centuries the argument insists that the practicalities of the practice of lordship remained essentially the same between 890 and 1160 **BOOK JACKET** **Western Warfare In The Age Of The Crusades, 1000-1300** John France, 2020-09-16 In 1095 the First Crusade was launched establishing a great military endeavour which was a central preoccupation of Europeans until the end of the thirteenth century In Western warfare in the age of the Crusades 1000 1300 John France offers a wide ranging and challenging survey of war and warfare and its place in the development of European Society culture and economy in the period of the Crusades Placing the crusades in a wider context this book brings together the wealth of recent scholarly research on such issues as knighthood siege warfare chivalry and fortifications into an accessible form Western warfare in the age of the Crusades 1000 1300 examines the nature of war in the period 1000 1300 and argues that it was primarily shaped by the people who conducted war the landowners John France illuminates the role of property concerns in producing the characteristic instruments of war the castle and the knight This authoritative study details the way in which war was fought and the reasons for it as well as reflecting on the society which produced the crusades *The Cambridge World History of Slavery: Volume 2, AD 500-AD 1420* Craig Perry, David Eltis, Stanley L. Engerman, David Richardson, 2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people Negotiation and Resistance Constance Brittain Bouchard, 2022-12-15 In Negotiation and Resistance Constance Brittain Bouchard challenges familiar depictions of the peasantry as an undifferentiated mass of impoverished and powerless workers Peasants in eleventh and twelfth century France had far more scope for action self determination and resistance to oppressive treatment that is for agency than they are usually credited with having Through innovative readings of documents collected in medieval

cartularies Bouchard finds that while peasants lived hard impoverished lives they were able to negotiate individually or collectively to better their position present cases in court and make their own decisions about such fundamental issues as inheritance or choice of marriage partner Negotiation and Resistance upends the received view of this period in French history as one in which lords dealt harshly and without opposition toward subservient peasants offering numerous examples of peasants standing up for themselves

War and Chivalry Matthew Strickland,1996-12-12 This is the first large scale study of conduct in warfare and the nature of chivalry in the Anglo Norman period The extent to which the knighthood consciously sought to limit the extent of fatalities among its members is explored through a study of notions of a brotherhood in arms the actualities of combat and the effectiveness of armour the treatment of prisoners and the workings of ransom Were there laws of war in operation in the eleventh and twelfth centuries and if so were they binding How far did notions of honour affect knights actions in war itself Conduct in war against an opposing suzerain such as the Capetian king is contrasted to behaviour in situations of rebellion and of civil war An overall context is provided by an examination of the behaviour in war of the Scots and the mercenary routiers both accused of perpetrating atrocities

At the Dawn of Modernity David Levine,2001-02-19 This examination of the social history of modernization investigates the centuries that followed the year 1000 when a new kind of society emerged in Europe The text highlights both the top down and bottom up changes that characterized the social experience of early modernization

Anglo-Norman Studies Henry Bainton,Christopher Norton,C. P. Lewis,Martin Allen,Ann Williams,Nicholas Brooks,Marie-Agnès Lucas-Avenel,Stuart Harrison,Toivo Holopainen,Tom Licence,2012 Norman history is covered by chapters on the detailed account of Pope Alexander III s deeds as abbot of Mont Saint Michel that Robert of Torigni added to the monastic cartulary on religious life in Rouen in the late 11th century and on ducal involvement in dispute settlement

Friendship in Medieval Iberia Antonella Liuzzo Scorpo,2016-04-15 Private and public relationships frequently labelled as friendships have always played a crucial role in human societies Yet over the centuries ideas and meanings of friendship transformed adapting to the political and social climates of different periods Changing concepts and practices of friendship characterized the intellectual social political and cultural panorama of medieval Europe including that of thiteenth century Iberia Subject of conquests and Reconquest land of convivencia but also of political instability as well as of secular and

religious international power struggles the articulation of friendship within its borders is a particularly fraught subject to study Drawing on some of the encyclopaedic vernacular masterpieces produced in the scriptorium of The Wise King Alfonso X of Castile 1252-84 this study explores the political religious and social networks inter faith and gender relationships legal definitions as well as bonds of tutorship and companionship which were frequently defined through the vocabulary and rhetoric of friendship This study demonstrates how the values and meanings of amicitia often associated with classical Roman Visigothic and Eastern traditions were transformed to adapt to Alfonso X's cultural projects and political propaganda This book contributes to the study of the history of emotions and cultural histories of the Middle Ages while also emphasizing how Iberia was a peripheral but still vital ring in a chain which linked it to the rest of Europe while also occupying a central role in the historical and cultural developments of the Western Mediterranean
