The First Ms Reader:

Controlling Readers Deborah L. McGrady, 2012-12-17 Guillaume de Machaut 1300-1377 was the master poet of fourteenth century France. He established models for much of the vernacular poetry written by subsequent generations and he was instrumental in institutionalizing the lay reader. In particular, his longest and most important work, the *Voir dit*, calls attention to the coexistence of public and private reading practices through its intensely hybrid form: sixty-three poems and ten songs invite an oral performance while forty-six private prose letters, as well as elaborate illustration and references to its own materiality, promote a physical encounter with the book. In *Controlling Readers*, Deborah McGrady uses Machaut's corpus as a case study to explore the impact of lay literacy on the culture of late medieval Europe. Arguing that Machaut and his bookmakers were responding to contemporary debates surrounding literacy, McGrady first accounts for the formal invention of the lay reader in medieval art and literature, then analyses Machaut and his bookmakers' innovative use of both narrative and bibliographical devices to try to control the responses of his readers and promote intimate and sensual reading practices in place of the more common public performances of court culture. McGrady's erudite and exhaustive study is key to understanding Machaut, his works, and his influence on the history of reading in the fourteenth century and beyond. *The Christian Science Journal*, 1920

Research Methods in Second Language Psycholinguistics Jill Jegerski, Bill VanPatten, 2013-12-17 Addressing a rapidly growing interest in second language research, this hands-on text provides students and researchers with the means to understand and use current methods in psycholinguistics. With a focus on the actual methods, designs, and techniques used in psycholinguistics research as they are applied to second language learners, this book offers the practical guidance readers need to determine which method is the best for what they wish to investigate, as well as the tools that will enhance their research. Each methods chapter is written by a leading expert who describes, discusses, and comments on how a method is used and what its strengths and limitations are for second language research. These chapters follow a specific format to ensure cohesion and a predictable structure across all chapters. The chapters also inform the novice researcher on such key issues as ease of use, costs, potential pitfalls, and other related matters, each of which impact decisions that researchers make about the paths they take. With the most reliable information available from experienced researchers, *Research Methods in Second Language Psycholinguistics* is an essential resource for anyone interested in conducting second language research using psycholinguistic methods. *The Digital Reader* Terence W. Contemporary American Women Writers Catherine Rainwater, William J. Scheick, 2021-05-11 Ann Beattie Annie Dillard Maxine Hong Kingston Toni Morrison Cynthia Ozick Grace Paley Marge Piercy Anne Redmon Anne Tyler and Alice Walker all seem to be especially concerned with narrative management The ten essays in this book raise new and intriguing questions about the ways these leading women writers appropriate and transform generic norms and ultimately revise literary tradition to make it more inclusive of female experience vision and expression The contributors to this volume discover diverse narrative strategies Beattie Dillard Paley and Redmon in divergent ways rely heavily upon narrative gaps surfaces and silences often suggesting depths which are lamentably absent from modern experience or which mysteriously elude language For Kingston and Walker verbal assertiveness is the focus of narratives depicting the gradual empowerment of female protagonists who learn to speak themselves into existence Ozick and Tyler disrupt conventional reader expectations of the anti novel and the family novel respectively Finally Morrison s and Piercy s works reveal how traditional narrative forms such as the Bildungsroman and the soap opera are adaptable to feminist purposes In examining the writings of these ten important women authors this book illuminates a significant moment in literary history when women s voices are profoundly reshaping American literary tradition

The Dublin Review , 1903 [The Dublin Review](#) Nicholas Patrick Wiseman, 1903 *Franciscan Books and their Readers* René Hernández, 2025-10-01 Franciscan Books and their Readers explores the manuscripts written read and studied by Franciscan friars from the thirteenth to the fifteenth centuries in northern Italy and specifically Padua assessing four key aspects ideal space form and readership The ideal is studied through the regulations that determined what manuscripts should aim for Space refers to the development and role of Franciscan libraries The form is revealed by the

assessment of the physical configuration of a set of representative manuscripts read written and manufactured by the friars Finally the study of the readership shows how Franciscans were skilled readers who employed certain forms of the manuscript as a portable personal library and as a tool for learning and pastoral care By comparing the book collections of Padua s reformed and unreformed medieval Franciscan libraries for the first time this study reveals new features of the ground breaking cultural agency of medieval friars

Precursors of Functional Literacy Ludo Verhoeven, Carsten Elbro, Pieter Reitsma, 2002-11-18 The purpose of this volume is to present recent research in the field of the acquisition of functional literacy and its precursors The volume aims to capture the state of the art in this rapidly expanding field An attempt is made to clarify the vague and often inconsistent definitions of functional literacy from the perspective of development Cognitive linguistic educational and social factors of literacy development are all taken into account The volume consists of three subsequent parts The first part goes into phonological precursors of literacy development In this part the focus is on the development of early language precursors of reading and writing The cultural foundations of these precursors are explored and their links with reading development are dealt with in detail Different psycholinguistic approaches are also proposed to explain the occurrence of literacy problems In the second part the scope is on the constraints of reading and writing efficiency at the word level and beyond The acquisition of reading and writing is seen as a result from the interaction between phonological orthographic and semantic processes A crosslinguistic perspective is taken on the role of writing system factors in the acquisition of literacy skills The final part deals with the role of social and educational factors in literacy acquisition Starting from a crosscultural perspective the central issue is how the attainment of functional literacy is dependent on sociocultural variation The predictors of more advanced levels of literacy development are considered including foreign language literacy and adult literacy
