Living with Disfigurement in Early Medieval Europe Patricia Skinner, 2016-12-21 This book is open access under a CC BY 4 0 license This book examines social and medical responses to the disfigured face in early medieval Europe arguing that the study of head and facial injuries can offer a new contribution to the history of early

medieval medicine and culture as well as exploring the language of violence and social interactions Despite the prevalence of warfare and conflict in early medieval society and a veritable industry of medieval historians studying it there has in fact been very little attention paid to the subject of head wounds and facial damage in the course of war and or punitive justice The impact of acquired disfigurement for the individual and for her or his family and community is barely registered and only recently has there been any attempt to explore the question of how damaged tissue and bone might be treated medically or surgically In the wake of new work on disability and the emotions in the medieval period this study documents how acquired disfigurement is recorded across different geographical and chronological contexts in the period *Staging History*

,2021-02-08 *Staging History* unites essays by nine specialists in the field of late medieval and early Renaissance drama Their focus is on English Dutch and Humanist German drama as well as on a modern Swiss adaptation of Shakespeare's *Henry V* Featuring prominently in this book are plays by among others John Bale Jacob Schoepper Johannes Agricola and Jacob Duym Special attention is also paid to the Croxton Play of the Sacrament and the Dutch *abele spelen* So far this topic has not received wide attention within the world of medieval and early Renaissance studies This exploration aims at arousing more interest in this field by scholars working on European drama from the late Middle Ages and the early Renaissance

Gender and Power in Medieval Exegesis T. Tinkle,2010-10-18 After establishing a feminist historicist perspective on the tradition of biblical commentary Tinkle develops in depth case studies that situate scholars reading the bible in three distinct historical moments and in so doing she exposes the cultural pressures that medieval scholars felt as they interpreted the bible **From Criminal to Courtier** David Kunzle,2021-10-11 The art of the Netherlands Dutch and Flemish is unique in Early Modern Europe in its concern for military cruelty against civilians principally the peasantry Decimated by time and changes in taste this popular iconography proves varied and extensive stretching from Bruegel to and past Rubens Massacres of the Innocents continue to be a favourite subject through the Eighty Years War in contrast to ruling class glorifications of war Dutch patriotic siege prints lay claim to scientific precision in landscapes free of military terror while the idea of military conquest is presented as generous rather than cruel in the ever popular figure of Scipio Africanus Most of the pictorial material is unfamiliar some of it even to specialists and never before published new light is shed on the more familiar phenomena of the civic guard groups and Ter Borch courtier officers good soldiers overcoming a bad image

Difference and Identity in Francia and Medieval France Meredith Cohen,Justine Firnhaber-Baker,2016-12-05 Difference in medieval France was not solely a marker for social exclusion provoking feelings of disgust and disaffection but it could also create solidarity and sympathy among groups Contributors to this volume address inclusion and exclusion from a variety of perspectives ranging from ethnic and linguistic difference in Charlemagne's court to lewd sculpture in B arn to prostitution and destitution in Paris Arranged thematically the sections progress from the discussion of tolerance and intolerance through the clearly defined notion of foreignness to the complex study of stranger identity in the medieval period

As a whole the volume presents a fresh intriguing perspective on questions of exclusion and belonging in the medieval world

The Cambridge Companion to Medieval Music Mark Everist, 2011-03-03 From the emergence of plainsong to the end of the fourteenth century this Companion covers all the key aspects of medieval music Divided into three main sections the book first of all discusses repertory styles and techniques the key areas of traditional music histories next taking a topographical view of the subject from Italy German speaking lands and the Iberian Peninsula and concludes with chapters on such issues as liturgy vernacular poetry and reception Rather than presenting merely a chronological view of the history of medieval music the volume instead focuses on technical and cultural aspects of the subject Over nineteen informative chapters fifteen world leading scholars give a perspective on the music of the Middle Ages that will serve as a point of orientation for the informed listener and reader and is a must have guide for anyone with an interest in listening to and understanding medieval music
