The Poet Zheng Zhen 1806 1864 and the Rise of Chinese Modernity J D Schmidt provides the first detailed study in a Western language of one of China's greatest poets and explores the nineteenth century background to Chinese modernity challenging the widely held view that this is largely of Western origin The volume contains a study of Zheng's life and times an examination of his thought and literary theory and four chapters studying his highly original contributions to poetry on the human realm nature verse narrative poetry and the poetry of ideas including his writings on science and technology Over a hundred pages of translations of his verse conclude the work *Mountain Home* David Hinton, 2014-10-10 The earliest and most extensive literary engagement with wilderness in human history *Mountain Home* is vital poetry that feels utterly contemporary China's tradition of rivers and mountains poetry stretches across millennia This is a plain spoken poetry of immediate day to day experience and yet seems most akin to China's grand landscape paintings Although its wisdom is ancient rooted in Taoist and Zen thought the work feels utterly contemporary especially as rendered here in Hinton's rich

and accessible translations Mountain Home collects poems from 5th through 13th century China and includes the poets Li Po Po Chu i and Tu Fu The rivers and mountains tradition covers a remarkable range of topics comic domestic scenes social protest travel sage recluses and mountain landscapes shaped into forms of enlightenment And within this range the poems articulate the experience of living as an organic part of the natural world and its processes In an age of global ecological disruption and mass extinction this tradition grows more urgently important every day Mountain Home offers poems that will charm and inform not just readers of poetry but also the large community of readers who are interested in environmental awareness

The Poetry Demon Jason Protass, 2021-07-31 Chinese Buddhist monks of the Song dynasty 960 1279 called the irresistible urge to compose poetry the poetry demon In this ambitious study Jason Protass seeks to bridge the fields of Buddhist studies and Chinese literature to examine the place of poetry in the lives of Song monks Although much has been written about verses in the gong'an Jpn k'an tradition very little is known about the large corpora roughly 30 000 extant poems composed by these monastics Protass addresses the oversight by using strategies associated with religious studies literary studies and sociology He weaves together poetry with a wide range of monastic sources and in doing so argues against positing a literary Chan movement that wrote poetry as a path to awakening he instead presents an understanding of monks poetry grounded in the Song discourse of monks themselves The work begins by examining how monks fashioned new genres created their own books and fueled a monastic audience for monks poetry It traces the evolution of g'th from hymns found in Buddhist scripture to an independent genre for poems associated with Chan masters as living buddhas While Song monastic culture produced a prodigious amount of verse at the same time it promoted prohibitions against monks participation in poetry as a worldly or Confucian art This constructive tension was an animating force The Poetry Demon highlights this and other intersections of Buddhist doctrine with literary sociality and charts productive pathways through numerous materials including collections of Chan recorded sayings monastic rulebooks eminent monk and flame record hagiographies manuscripts of poetry Buddhist encyclopedia primers and s'tra commentary Two chapter length case studies illustrate how Song monks participated in two

of the most prominent and conservative modes of poetry of the time those of parting and mourning Protass reveals how monks used Chan humor with reference to emptiness to transform acts of separation into Buddhist teachings In another chapter monks in mourning expressed their grief and dharma through poetry The Poetry Demon impressively uncovers new and creative ways to study Chinese Buddhist monks poetry while contributing to the broader study of Chinese religion and literature

The Social Circulation of Poetry in the Mid-Northern Song Colin S. C. Hawes, 2012-02-01 Observing that the vast majority of surviving Northern Song poems are directly addressed to other people Colin S C Hawes explores how literati of China's mid Northern Song period developed a social and therapeutic tradition in poetry These social poems produced in group settings and exchanged with friends and acquaintances are often lighthearted in tone and full of witty banter and wordplay Hawes challenges previous scholars' dismissal of these poems as trivial and insignificant because they lacked serious political and moral content by arguing that the central function of poetry at the time was to release pent up emotions and share them with others in a socially acceptable manner what Hawes views as circulating emotional energy or qi Focusing on the circle of poets around Ouyang Xiu 1007-72 CE and Mei Yaochen 1002-60 CE the most influential literary figures of the mid Northern Song period and the creators of a distinctive Song poetic style Hawes provides a number of translations of poems of the period Several major functions of poetic composition are discussed including poetry as a game as therapy as a means of building relationships and as a way of finding solace in history and in the natural world Ultimately the Northern Song attitude toward poetic composition spread throughout Chinese society

His informants included a wide range of his contemporaries, from scholar-officials to concubines, Buddhist monks and soldiers, who helped Hong Mai leave one of the most vivid portraits of life and the different classes in China during this period. Originally comprising a massive 420 chapters, only a fraction survived the Mongol ravaging of China in the thirteenth century. The present volume is the first book-length consideration of this important text, which has been an ongoing source of literary and social history. Alister D. Inglis explores fundamental questions surrounding the work and its making, such as theme, genre, authorial intent, the veracity of the accounts and their circulation in both oral and written form. In addition to a brief outline of Hong Mai's life that incorporates Hong's autobiographical anecdotes, the book includes many intriguing stories translated into English for the first time, including Hong's legendary thirty-one prefaces. *Record of the Listener* fills the gaps left by official Chinese historians, who unlike Hong Mai did not comment on women's affairs, ghosts and the paranormal, local crime, human sacrifice, little-known locales and unofficial biographies.
