### **Project-Based Learning Applied to the Language Classroom** Juliana Franco Tavares/ Louise Emma

Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language. It is about teaching English as a second or foreign language using Project Based Learning PBL. We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology. In fact, most researchers and writers we have come across discuss the applications of PBL in the students' mother tongue to subjects such as Math, History, Literature, Social Studies, and Science. However, there are few published works about the specifics of PBL in foreign language classes. Besides, it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language. **Camarades 2**

Martine Pillette, David Buckland, 2001 Designed to meet the needs of wide ability classes, the Camarades French course is divided into four units and fulfils the criteria of the National Curriculum 5-14 Guidelines, fully preparing all pupils for GCSE Standard Grade examinations. The Teacher's Book contains an overview of each unit, offers clear, concise teaching notes, provides notes for the four assessment sections, and the answers to all Pupil's Book exercises and comprises tapescripts in sequence that are highlighted for ease of reference. The book has been revised for the National Curriculum 2000. **The**

**Amazing Illustrated Word Game Memory Books Volume 2, Set 2** Frank H. Gaertner, 2011-06 This book, Volume 2 Set 2 of the AIWGMB, is a continuation of a three-set series of stories and illustrations representing all of the 7-letter words captured by The Central Twenty-One Five Letter Stems that feed into the Central Seven Six Letter Stems of Volume 1 Set 1. Knowledge and flash photographic memory recall of these word lists together with those of the Auxiliary Seven Six Letter Stems of Volume 1 Set 2 can be valuable assets for any wannabe top contender in our rapidly growing competitive word game social networks. The wordlists, organized in Mentafile™ format, are coded with peg words assigned to each letter of the alphabet. This type of iconic coding organization can make letter management and identification of 7-letter words within scrambled arrays effortless, almost as though one has an app that automatically brings bonus words to mind as one plays off letters on the way to one of the Central Seven Six Letter Stems. For example, in a board game where letters must be unscrambled to reveal hidden words, one might hold, in alphagram order, the following seven letters: ADNRSTU. For those accomplished with Vol 2 Set 2 of the AIWGMB, the identification of the five-letter stem RAST and the letter D within ADNRSTU would be instantaneous, along with the mental search for the story and illustration of She STRANDS the drunk on a TUNDRA. S plain. Alternatively, one might hold ADNRSST, which would immediately bring up the word STRANDS from that story. STANDER, the only other possibility for a 7-letter RASTD word, would show up with the holding of ADENRST, the only

bonus word featured in the drunk file of RNEAST one of the Central Seven Six Letter Stems of Vol 1 Set 1 Therefore with no E R or S in the hand one skilled in the use of The AIWGMB would know with valuable certainty that no 7 letter bonus words were available for play But the fun is not over It really begins when we add to our search the thirty four 8 letter RNEASTD words of RNEAST RNEAST and INRAST Having learned to read alphagrams from the flashcards connected to the stories and Illustrations of this series we now watch our opponents shrink in terror as we unleash our knowledge and skill at finding and playing one of these 8 letter winners

**The Amazing Illustrated Word Game Memory Books, Vol. 2, Set 1** Frank H. Gaertner, 2010 This edition of The Amazing Illustrated Word Game Memory Books The AIWGMB Vol 2 Set 1 introduces readers to the first seven of 21 five letter stems that are an essential part of Mentafile TM on the way word game strategy as described in Volume 1 Sets 1 and 2 of The AIWGMB Amusing emotionally charged coded short stories illustrations and flash cards of the five letter stems that complement the Central Seven and Auxiliary Seven six letter stems of Volume 1 act to greatly expand one's photographic memory and flash card recall of key seven and eight letter game words i.e. those especially useful in SCRABBLE R JUMBLE R WORD TOWER etc Readers are also invited to play A Game Within the Game where they test their ability to quickly create short stories and sketches from computer generated accurately defined word lists One never knows where the words will lead and the five letter stems with their frequently long lists of esoteric little used words can take one's mind to some exceedingly bizarre surprisingly memorable places For example when one adds a second A and another letter to the five letter stem REAST official game word programs will assign the following interesting list of seven letter words ABATERS reducers of intense occurrences ABREAST side by side CARATES tropical skin disease GASTREA primitive microbe TEARGAS tearing gas KARATES martial arts AEROSAT air control satellite ERRATAS typing errors To play A Game Within the Game one uses all of the defined seven letter words and the game's universal iconic code for the letter A men's ties ties into something or ties someone up When the reader has made their story emotionally charged used as few extraneous words as possible and made a rough sketch to illustrate their story they compare results with the author's for a surprising fun way to reinforce one's photographic recall See for example page 291
