Surveillance Over Canada:

Law, Privacy and Surveillance in Canada in the Post-Snowden Era Michael Geist, 2015-05-28 Years of surveillance related leaks from US whistleblower Edward Snowden have fueled an international debate on privacy spying and Internet surveillance Much of the focus has centered on the role of the US National Security Agency yet there is an important Canadian side to the story The Communications Security Establishment the Canadian counterpart to the NSA has played an active role in surveillance activities both at home and abroad raising a host of challenging legal and policy questions With contributions by leading experts in the field *Law Privacy and Surveillance in Canada in the Post Snowden Era* is the right book at the right time From the effectiveness of accountability and oversight programs to the legal issues raised by metadata collection to the privacy challenges surrounding new technologies this book explores current issues torn from the headlines with a uniquely Canadian perspective Published in English *Digital Politics in Canada* Tamara A. Small, Harold J.

Jansen, 2020-10-21 The increased use of digital politics by citizens groups and governments over the last 25 years carried the promise of transforming the way politics and government was practiced This book looks at Canadian political practice and the reality of the political process against those early promises *Transparent Lives* Colin J. Bennett, Kevin D.

Haggerty, David Lyon, Valerie Steeves, 2014-04-01 Although most Canadians are familiar with surveillance cameras and airport security relatively few are aware of the extent to which the potential for surveillance is now embedded in virtually every aspect of our lives We cannot walk down a city street register for a class pay with a credit card hop on an airplane or make a telephone call without data being captured and processed Where does such information go Who makes use of it and for what purpose Is the loss of control over our personal information merely the price we pay for using social media and other forms of electronic communication or should we be wary of systems that make us visible and thus vulnerable to others as never before The work of a multidisciplinary research team *Transparent Lives* explains why and how surveillance is expanding mostly unchecked into every facet of our lives Through an investigation of the major ways in which both government and private sector organizations gather monitor analyze and share information about ordinary citizens the volume identifies nine key trends in the processing of personal data that together raise urgent questions of privacy and social justice Intended not only to inform but to make a difference the volume is deliberately aimed at a broad audience including legislators and policymakers journalists civil liberties groups educators and above all the reading public <http://surveillanceincanada.org> *Electronic Discovery in Canada* Oleh Hrycko, 2007-08 [Federalism, Democracy and Health Policy in Canada](#)

Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 2001 An exploration of the ways in which federal and provincial governments relate to one another and to the citizenry in the making of health policy

Mah,2014-04-18 Covering a wide range of issues the 22 cases included in *Case Studies in Canadian Health Policy and Management* constitute an exceptional resource for bringing real life policy questions into the classroom Based on actual events the cases have been developed with input from mid career professionals with strong field experience and extensively tested in Raisa B Deber s graduate case study seminar at the University of Toronto Each case features both a substantive health policy issue and a selection of key concepts and methods appropriate to examining public policy public health and health care management issues In each case the authors provide a summary of the case and the related policy issues a description of events suggested questions for discussion supporting information and both works cited and further reading Suitable for graduate and undergraduate classrooms in programs in a variety of fields *Case Studies in Canadian Health Policy and Management* is an exceptional educational resource This second edition features all new cases as well as adding an introductory chapter that provides a framework and tools for health policy analysis in Canada *Antimicrobial Usage in Companion and Food Animals: Methods, Surveys and Relationships with Antimicrobial Resistance in Animals and Humans* Miguel Ángel Moreno,Lucie Collineau,Carolee Anne Carson,2020-03-30 **Precarious Constructions** Vanessa A. Rosa,2023-11-06 This sharply argued book posits that urban revitalization making better city living spaces from those that have been neglected due to racist city planning and divestment is a code word for fraught state managed gentrification Vanessa A Rosa examines the revitalization of two Toronto public housing projects Regent Park and Lawrence Heights and uses this evidence to analyze the challenges of racial inequality and segregation at the heart of housing systems in many cities worldwide Instead of promoting safety and belonging Rosa argues that revitalization too often creates more intense exclusion But the story of these housing projects also reveals how residents pushed back on the ideals of revitalization touted by city officials and policymakers Rosa explores urban revitalization as a window to investigate broader questions about social regulation and the ways that racism classism and dynamics of inclusion exclusion are foundational to liberal democratic societies particularly as scholars continue to debate the politics of gentrification at the local level and the politics of integration and multiculturalism at the national level
