Survey Of International Affairs The Midd:

Security Strategies of Middle Powers in the Asia Pacific Ralf Emmers, Sarah Teo, 2018-02-05 Security Strategies of Middle Powers in the Asia Pacific examines what drives the different regional security strategies of four middle powers in the Asia Pacific Australia Indonesia South Korea and Malaysia Drawing on the extant middle power literature the authors argue that the regional security strategies of middle powers could take two forms namely functional or normative A functional strategy means that the middle power targets its resources to address a specific problem that it has a high level of interest in while a normative strategy refers to a focus on promoting general behavioural standards and confidence building at the multilateral level This book argues that whether a middle power ultimately employs a more functional or normative regional security strategy depends on its resource availability and strategic environment **Asian and African Studies** meisai.org.il,

Middle Eastern Themes Jacob M. Landau, 2015-07-24 This volume first published in 1973 brings together a wide range of Professor Landau's work on recent Middle Eastern history and politics reflecting the breadth of the author's concern and research The first section deals with aspects of political organisation in the Middle East largely Egypt towards the end of the nineteenth century A little known plan of the Islamic reformer al Afghani is discussed showing him in a rather more political light than the religious haze which normally surrounds this pan Islamic campaigner The role of the influential secret societies in modern Egypt is outlined and the politics behind the fluctuations in the degree of responsibility allowed to Egyptian ministers is examined This section is concluded by a chapter on two proposals for the establishment of a Jewish homeland in the Sudan in the early days of Zionism throwing interesting light on the differing aims of early Zionists and alternative historical paths that might have been taken The second section of the book contains studies on the Jewish situation in nineteenth century Egypt focusing on their position within the larger Muslim society and on socio economic factors as well as on the career of James Sanua Abu Naddara an Egyptian Jew who played a prominent part in nationalist agitation The two final parts of the book turn to recent and contemporary electoral politics in the Middle East with special attention being paid to the political leadership and voting behaviour of the Arabs in Israel Other studies deal with elections in Lebanon and Turkey and the final chapter analyses the militant right wing elements in the Turkish political spectrum *Middle Eastern Affairs*, 1953

Britain's Informal Empire in the Middle East Daniel Silverfarb, 1986 Showing how Britain tried and failed to maintain its political influence economic ascendancy and strategic position in Iraq after independence this book presents a suggestive analysis of the possibilities and limitations of indirect rule by imperial powers in the Third World

The War on Error Martin Kramer, 2017-09-08 In *The War on Error* historian and political analyst Martin Kramer presents a series of case studies some based on pathfinding research and others on provocative analysis that correct misinformation clouding the public's understanding of the Middle East He also offers a forensic exploration of how misinformation arises and becomes fact The book is divided into five themes Orientalism and Middle Eastern studies a prime casualty of the culture

wars Islamism massively misrepresented by apologists Arab politics a generator of disappointing surprises Israeli history manipulated by reckless revisionists and American Jews and Israel the subject of irrational fantasies Kramer shows how error permeates the debate over each of these themes creating distorted images that cause policy failures Kramer approaches questions in the spirit of a relentless fact checker Did Israeli troops massacre Palestinian Arabs in Lydda in July 1948 Was the bestseller Exodus hatched by an advertising executive Did Martin Luther King Jr describe anti Zionism as antisemitism Did a major post 9 11 documentary film deliberately distort the history of Islam Did Israel push the United States into the Iraq War Kramer also questions paradigms the Arab Spring the map of the Middle East and linkage Along the way he amasses new evidence exposes carelessness and provides definitive answers *Life in the Middle* Neilan S.

Chaturvedi,2021 A long held belief of political scientists is that moderate voices in the Senate act as power brokers between the ideological poles yet year after year we see partisan gridlock in Congress Some even argue that the shrinking number of moderates only increases their political influence In *Life in the Middle* Neilan S Chaturvedi argues that the belief in the powerful pivotal moderate neglects their electoral circumstances and overestimates their legislative power In other words not all Senators are elected under equal circumstances Chaturvedi posits that unlike their ideological counterparts who are elected from states that share an ideological identity moderates are elected from one of two constituencies states that have a partisan lean to one party but have enough swing voters to vote in a moderate from the opposite party or states that are nearly evenly divided in terms of partisanship Using unique interview data with legislative directors retired United States Senators and data compiled from the Congressional Record Chaturvedi shows that because of their precarious electoral circumstances moderate senators must avoid active participation on bills and pushing controversial legislation Lawmaking is much more variable and less moderating than previous theories assumed as the process relies less on the work of moderates and more on party leaders The book also demonstrates that mainstream concerns about polarization and its negative effects of increased gridlock and ideological legislation are true

Poverty and Inequality in Middle Income Countries Einar Braathen, Julian May, Marianne Ulriksen, Gemma C. Wright, 2016-04-15 This collection offers a timely reassessment of viable ways of addressing poverty across the globe today The profile of global poverty has changed dramatically over the past decade and around three quarters of the poor now live in middle income countries making inequality a major issue This requires us to fundamentally rethink anti poverty strategies and policies as many aspects of the established framework for poverty reduction are no longer effective Featuring contributions from Latin America Africa and Asia this much needed collection answers some of the key questions arising as development policy confronts the challenges of poverty and inequality on the global national and local scale in both urban and rural contexts Providing poverty researchers and practitioners with valuable new tools to address new forms of poverty in the right way *Poverty and Inequality in Middle Income Countries* shows how a radical switch from aid to redistribution based social policies is needed to combat new forms

of global poverty **Middle Powers and Regional Influence** Joshua B. Spero, 2018-11-16 In the growing literature on middle powers this book contributes by expanding case study analysis and extending international relations theory in its application to foreign policy decisions Thus this book builds on prominent middle power literature and aims to advance our theoretical understanding for why crucial foreign policies were made by the pivotal middle powers this book examines Poland South Korea and Bolivia For this book s three case studies and their first term leadership s critical junctures from first term post communist Poland post authoritarian post ruling party South Korea and post colonial Bolivia we have the antecedents for contemporary middle powers essential for realizing the regional evolution for cooperative change with greater powers systemically we may then grasp today why those historical foreign policies albeit not so long ago give us crucial antecedents for adapting and trying yet again to resolve seemingly perennial power dilemmas regionally peacefully Here are why middle power impact matters not only regionally for stronger dominant greater power neighbours but also for transformative middle power leaderships which proved pivotal geopolitically for their region s challenges and changes *Britain and Turkey in the Middle East* Mustafa Bilgin, 2007-10-24 In the first work documenting Anglo Turkish relations in the Middle East in the early Cold War period Mustafa Bilgin identifies two very distinct stages in the relationship between Britain and Turkey Before 1952 Turkey relied heavily on Britain to protect it from the Soviet menace In return for Britain s support Turkey acted as an honest broker in Britain s increasingly difficult relations with key Middle Eastern states such as Egypt Iran and Iraq However Turkey s realisation that it could not rely on Britain encouraged by Britain s blocking of Turkish membership of NATO in 1952 led to a new alliance between Turkey and the US This is the first book to understand the development of the Cold War in the Middle East by exploring the Turkish case Britain and Turkey in the Middle East is crucial to grasping the nature of Western strategy in general and British and Turkish strategy in particular during the crucial early years of the Cold War

China's Emerging Middle Class Cheng Li, 2010-11-15 Decades ago there was no distinct middle class in the People s Republic of China Any meaningful discussion of China s economy politics or society must take into account the rapid emergence and explosive growth of the Chinese middle class This book details the origins and characteristics of this dramatic change Middle East: Tricontinental Hub: A strategic survey United States.
