

How to Create a Survey Sampling Plan

01

Define Survey Goals

Clarify what information you need and how it will be used.

02

Determine Sampling Frame

Establish a list/database that accurately represents your target population.

03

Choose Sampling Method

Select a sampling method based on your survey type, population size, and available resources.

04

Determine Sample Size

Calculate a sample size that's representative but manageable.

05

Select Data Collection Method

Choose a data collection method that aligns with your survey goals, budget, and timeline.

06

Test Survey

Pilot test your survey with a small group to identify and correct any issues.

07

Implement Survey

Launch your survey, ensuring strict adherence to the sampling plan and secure, accurate data collection.
