Sriram, 1999-05-01 A stable money demand forms the cornerstone in formulating and conducting monetary policy Consequently numerous theoretical and empirical studies have been conducted in both industrial and developing countries to evaluate the determinants and the stability of the money demand function This paper briefly reviews the theoretical work tracing the contributions of several researchers beginning from the classical economists and explains relevant empirical issues in modeling and estimating money demand functions Notably it summarizes the salient features of a number of recent studies that applied cointegration error correction models in the 1990s and it features a bibliography to aid in research on demand for money **The Agricultural Situation in the Far East and Oceania** Amjad H. Gill, Donald Chrisler, United States. Dept. of Agriculture. Economic Research Service, 1972 [A Survey of Agricultural Economics Literature](#) Lee R. Martin, 1992 *Black Africa* Robert C. Mitchell, Donald G. Morrison, John N. Paden, 1989-07-17 Black Africa presents political economic and social data for 41 black African nations The first edition was published in 1972 and included only data on 32 countries which was the total number of independent African nations at that time Enlarging on the first edition this second edition covers in detail important aspects of the countries included from demography to political development and social mobilization to a modern comparative analysis of African states Black Africa is a complete and comprehensive handbook The first edition of Black Africa won a Book of the Year Award from the American Library Association **International Commerce**, 1969 **The Rentier State in Africa** Douglas Andrew Yates, 1996 This is a detailed study of the political and economic condition of the Republic of the Gabon which focuses on the years of the oil boom 1975 1985 **African Bargaining Power with China** Christina Seyfried, 2023-06-26 This book provides a detailed account of the political economy around investment deal negotiations between African governments and private Chinese investors

The book draws on evidence from experiments and hundreds of interviews with policy makers and Chinese investors across Nigeria South Africa Kenya Ethiopia and Tanzania It shows that governments of authoritarian or one party dominant states which are among the top receivers of Chinese investments are able to easily and successfully act collectively to impose human capital and technology transfer requirements The book argues that rather than treating African countries as price takers in the face of increasing Chinese influence in the continent we should instead recognise the significant bargaining leverage that many African governments have to influence deal conditions especially with smaller private Chinese companies It demonstrates that several African governments can instead act as price setters and that the success of the rising Chinese presence in Africa and whether this leads to positive or negative development outcomes fundamentally depends on the development strategies that individual African governments decide on In the context of an often polarised debate the original research presented in this book has important implications for the future economic development strategies of African countries As such it will be of interest to researchers working on Chinese and African investment politics institutions business economics and international relations

The Rise and Fall of the South African Peasantry Colin Bundy, 1979-01-01 Balancing Sovereignty and Development in International Affairs Moses K. Tesi, 2017-08-15 *Balancing Sovereignty and Development in International Affairs* is about Cameroon a minor power in world affairs and her foreign policy and international relations especially as she deals with major powers in this case France It emphasizes Cameroon s economic and political relations with France her relations with Francophone Africa Anglophone Nigeria during the Nigerian Civil War of 1967 1970 the hot button issues of African liberation and the development challenges that she faced The study probes the nature scope depth dynamics and drivers of Cameroon s foreign policy to understand its logic and to uncover the consequences to the country s development and sovereignty It also investigates and sheds light on some conventional views about Cameroon s relations with France the view that Cameroon is a French puppet The above questions are investigated within the theoretical framework of dominant dependent compliant behavior in world politics Put differently as a minor partner in her relations with France was Cameroon being unduly exploited to France s benefits or not If not what were Cameroon s benefits in the relationship And if so what

were the benefits to France The case study method supplemented by rich statistical time series analysis source tracing and interviews were used to uncover patterns and common themes in Cameroon s foreign policy behavior and to systematically document her economic dependence on France and assess if such dependence also generated political consequences for Cameroon in its behavior towards France Part One of the book discusses the historical origin of the modern Cameroonian state the domestic context of its foreign policy post independence politics and challenges associated with nation building national independence domestic security and economic development that underlay the country s world view and guided her international behavior This part also analyzes Cameroon s economic relations with France focusing on trade investments and aid revealing that France dominated the Cameroonian economy in all three sectors explaining what accounted for such dominance and what Cameroon tried to do to alleviate the situation Part two focuses on case studies of critical foreign policy challenges that Cameroon faced and how she reacted to French interests and pressure Small Arms Survey 2007 Small Arms Survey,Graduate Institute of International Studies (Geneva, Switzerland),2007-09-06 The Small Arms Survey 2007 features a special focus on the complex issue of urban violence
