The Survival Hypothesis Adam J. Rock, 2014-04-04 Contemporary parapsychology tends to be preoccupied with ESP telepathy clairvoyance precognition and psychokinesis In contrast this cutting edge anthology assembles an international team of experts from the fields of psychology parapsychology philosophy anthropology and neuroscience to examine critically what is referred to as the survival hypothesis the tentative statement or prediction that some aspect of our personhood e g consciousness persists subsequent to the death of the physical body The appraisal of the survival hypothesis will be restricted to the phenomenon of mediumship that is humans who ostensibly communicate with the deceased The book has been divided into four main sections Explanation and Belief Culture Psychopathology and Psychotherapy Empirical Approaches The Present and Future The issue of postmortem survival is supremely relevant to us all because the human encounter with death is of course a certainty

The Problem of the Idea of Culture in John Paul II John Corrigan, 2019-11-13 In *The Problem of the Idea of Culture in John Paul II* Exposing the Disruptive Agency of the Philosophy of Karol Wojtyla John Corrigan provides a new lens with which to view and understand the philosophy of Karol Wojtyla John Paul II He exposes Wojtyla as a major player in contemporary philosophical debates The work reformulates the problem of experience in light of the questions surrounding our idea of culture Corrigan argues that for Wojtyla the drama of the problem of experience manifests in the apparently divergent accounts of the meaning of human experience as presented by the philosophies of being and of consciousness Solving this conundrum results in an idea of the person capable of explaining human experience in relation to human culture unfolding the experiences of self knowledge conscience and the ontic causal relationship of the person to human culture The first part of the book concerns formal considerations regarding the constitutive aspects of Wojtyla's approach while the second part deals with pragmatic considerations drawn from his comments on culture

Surviving Globalization Janez Juhant, Bojan Žalec, 2008 Through globalization humanity is becoming more and more mutually dependent and even united but at the same time the multidimensional differences and gaps between us are appearing as a challenge to this connectedness No one can live only on food

Lk 4 4 are words that clearly witness that the connective tissue of humanity can t be only of economical and political nature Also the pasture the media offer to people is too often just an instrument of the owners and not the fulfilment of media s proper function to cultivate and spread capacity for knowing the truth At one hand the interweaving of ideological streams is mis used by new gurus for taking the possession of control At

the other hand the representatives of established religions and value systems are searching for formulas for a successful competition on the global market What are then the possibilities and ways of survival well being and life worth of human person in the contemporary increasingly complex condition From various scientific aspects and different religious horizons this question is reflected upon in this book

Where is Here? Jeroen Zandberg, 2018-07-30 where is here Is an existential question that everyone needs to ask him or herself in order to live a fulfilling life The foundations of a fair and successful society should be based on a view of human nature that acknowledges the fact that people are innately social beings who become human when they are part of a positive social environment This book wants to offer a greater insight into human nature and society Such an insight increases people s awareness and self confidence and reduces insecurity and fears of possible abuse As a result people will be better able to make the right decisions that benefit their life

The instinct of workmanship, and the state of industrial arts Thorstein Veblen, 2023-07-10 In The Instinct of Workmanship and the State of Industrial Arts Thorstein Veblen explores the intricate relationship between human instinct and industrial productivity challenging the prevailing economic theories of his time With a keen analytical lens Veblen critiques the capitalist framework and its impact on the art of craftsmanship arguing for the inherent human desire to create and improve The book employs a rich analytical style blending sociology and economics to underscore the significance of workmanship in the industrial age while advocating for a return to a more creative approach to work rather than viewing it merely as a means of subsistence or profit Thorstein Veblen a prominent American economist and social theorist emerged in a time marked by rapid industrialization and profound social change His own experiences within the capitalist society and profound interest in social behavior led him to examine how these institutions affected the human capacity for craftsmanship Veblen s background in both sociology and economics fundamentally shaped his critiques of economic practices making him a significant figure in the development of institutional economics This book is a must read for anyone interested in understanding the sociocultural implications of industrial practices today Veblen s insights resonate with contemporary discussions about the role of creativity and craftsmanship in a technology driven economy making this work both timely and relevant

The Gap Between God and Christianity Thomas M. Stallter, 2022-02-15 What we fear most has ironically come upon us as Western individualists We are being controlled by the invisible forces of culture and they have come between God and us Silent but in the background of all we do and think its influence cannot be overlooked We condone and even encourage and champion the very things that create distance between our needs and God s goodness between our plans and his destiny for us between our weakness and his strength We have been deceived Not only have we created distance between us but we seldom free God from these cultural and personal expectations and let him speak for himself We have locked God into our system and in the end distracted by our needs for social and personal survival We must turn our eyes toward him open our ears to his voice and let him speak
