Black Ice Becca Fitzpatrick, 2023-01-03 Sometimes danger is hard to see until it's too late. Britt Pheiffer has trained to backpack the Teton Range, but she isn't prepared when her ex-friend who still haunts her every thought wants to join her. Before Britt can explore her feelings for Calvin, an unexpected blizzard forces her to seek shelter in a remote cabin and accept the hospitality of its two very handsome occupants, but these men are fugitives and they take her hostage. In exchange for her life, Britt agrees to guide the men off the mountain. As they set off, Britt knows she must stay alive long enough for Calvin to find her. Things get even more complicated when Britt finds chilling evidence of a series of murders that took place on that very mountain, a discovery that may make her the killer's next target. But nothing is as it seems in the mountains, and everyone is keeping secrets, including Mason, one of her kidnappers. His kindness is confusing Britt. Is he an enemy or an ally?

Drive to Survive Chris Daly, 2020-03-12 *Drive to Survive: The Art of Wheeling the Rig* provides an in-depth examination of fire apparatus vehicle dynamics. This is not your average driver training textbook. Fire apparatus operators must understand how a vehicle maneuvers at roadway speed and, more importantly, why it crashes. Just as a doctor cannot heal the human body without a thorough understanding of anatomy and physiology, an emergency vehicle operator cannot safely drive a fire apparatus without an in-depth knowledge of vehicle dynamics. *Drive to Survive* goes beyond talking about pump operations, aerial operations, and preventative maintenance; it fills in the gaps between vehicle dynamics and crash causation. After 15 years of training and research, Chris Daly developed a training program combining his fire service and crash reconstruction training experience. This book provides an in-depth knowledge of topics required in the following NFPA standards: NFPA 1002, Standard for Fire Apparatus Driver/Operator Professional Qualifications; NFPA 1451, Standard for Fire and Emergency Service Vehicle Operations Training Programs; NFPA 1500, Standard on Fire Department Occupational Health and Safety Program. Fire apparatus operators will learn the limits of driving an emergency vehicle and will understand that no matter how long they have been driving or how good they think they are, at some point physics will take over and the vehicle will lose control. We can reduce the number of emergency vehicle crashes throughout the world by addressing key issues and providing emergency vehicle operations course (EVOC) instructors with methods to convey these concepts. Concepts you learn in this book relate to more than just driving a fire apparatus. These principles apply to anyone who drives a vehicle, including your family members and loved ones.
