Kokoli, 2009-10-02 Feminism Reframed Reflections on Art and Difference addresses the on going dialogue between feminism art history and visual culture from contemporary scholarly perspectives Over the past thirty years the critical interventions of feminist art historians in the academy the press and the art world have not only politicised and transformed the themes methods and conceptual tools of art history but have also contributed to the emergence of new interdisciplinary areas of investigation including notably that of visual culture Although the impact of such fruitful transformations is indisputable their exact contribution to contemporary scholarship remains a matter for debate not least because feminism itself has changed significantly since the Women s Liberation Movement Feminism Reframed reviews and revises existing feminist art histories but also reasserts the need for continuous feminist interventions in the academy the art world and beyond With contributions by Anthea Behm Alisia Grace Chase Jennifer G Germann Catherine Grant Joanne Heath Ruth Hemus Alexandra Kokoli Beth Anne Lauritis Griselda Pollock Karen Roulstone Anne Swartz and Sue Tate Coming at the moment when contemporary art practices are themselves involved in re cycling re evaluating and re enacting the past this collection asks how feminism s own troubled histories can be reframed productively in the present The questions that feminism raised in the 1970s and 80s are still pertinent and are addressed in a number of original essays What does gender equality mean in the arts How can women s subjectivities be articulated or performed differently in art practices Can attention to gender enable us to engage with complex differences of race sexuality and class of age and generation Do we need new interpretative and conceptual models for writing about art Alexandra Kokoli s thoughtful and illuminating introduction reminds us that reframing is a risky but exciting business if it makes us ask these questions anew with attention to the politics and aesthetics of the present Rosemary Betterton Lancaster University **Dreaming Ahead of Time** Gary Lachman, 2022-01-11 Can we see the future in our dreams Does time flow in one direction What is a meaningful coincidence Renowned esoteric writer Gary Lachman has been recording his own precognitive dreams for forty years In this unique and intriguing book Lachman recounts the discovery that he dreams ahead of time and argues convincingly that this extraordinary ability is in fact shared by all of us Dreaming Ahead of Time is a personal exploration of precognition synchronicity and coincidence drawing on the work of thinkers including J W Dunne J B Priestly and C G Jung Lachman s description and analysis of his own experience introduces readers to the uncanny power of our dreaming minds and reveals the illusion of our careful distinctions between past present and future *Susan Hiller* Susan Hiller, Tate Gallery Liverpool, 1996 This work surveys the ways in which Susan Hiller has worked with ephemeral artefacts to produce art of emotional depth and cultural insight for example her investigations into the hidden meanings of everyday objects such as

Notes from the Shed Hanna Kay, 2007 Hanna Kay describes her journal begun in summer 2003 as a dialogue between one and oneself She says Keeping a journal is like meeting this person inside me head on And that person is an artist whose journal helps the reader understand something of the way an artist thinks Both her journal and the paintings produced in her studio measure the passing of the seasons and the artist's emotional empathy with the Australian landscape the and living things about her as she responds to the seasonal changes wrought by Nature She says The locals in rural NSW refer to my Studio as the shed For me the 200 square metres framed by iron bark posts and corrugated iron is a sanctuary in which I dare to experiment question or be idle The solid structure and the five acres that surround it protect me from the world's follies Her observations of the environment are recorded poetically her own musing interspersed with references to world literature The book is dedicated To Nature while she's still around

Shakespeare and the Stars Priscilla Costello, 2016-03-15 To celebrate the 400th anniversary of Shakespeare's death this book offers fresh and exciting insights into the ever popular works of the world's greatest playwright It specifically highlights Shakespeare's use of the archetypal language of astrological symbolism in both obvious and subtle ways Such references would have been commonly known in Shakespeare's time but their deeper significance is lost to modern day playgoers and readers The first half of the book describes the Elizabethan worldview and how the seven known planets were considered an integral part of the cosmos and instrumental in shaping human character The second half of the book examines six of Shakespeare's best loved plays in the light of astrological symbolism showing how they are entirely keyed to a specific zodiacal sign and its associated or ruling planet The chosen plays are A Midsummer Night's Dream Romeo and Juliet The Merchant of Venice Macbeth The Tempest and King Lear Each chapter incorporates information and examples from astrological tradition classical and Renaissance philosophy Greek and Roman mythology esoteric wisdom modern psychology especially that of C G Jung and great literature Thoroughly researched and well illustrated this book illuminates the plays
