Sustaining Development In Mineral Economies The Resource Curse Thesis:

Sustaining Development in Mineral Economies Richard Auty, 2002-09-26 This highlights the drawbacks of possessing natural mineral resources These can quickly become a curse on the ore exporting economies of developing countries leading to drainage of resources and the faltering of long term growth

Guide to Sustainable Development and Environmental Policy William L Ascher, Natalia Mirovitskaya, 2002-03-29 A compilation of definitions terms and critical commentary on aspects of sustainable development and environmental policy with a strong emphasis on policy tools policy practices and systems of international environmental governance

Natural Resources and Economic Development Edward Barbier, 2007-06-14 A comprehensive analysis of natural resource use and economic development in poor countries first published in 2005

Resources and Sustainable Development in the Arctic Chris Southcott, Frances Abele, David Natcher, Brenda Parlee, 2018-10-04 Over the past thirty years we have witnessed a demand for resources such as minerals oil and gas which is only set to increase This book examines the relationship between Arctic communities and extractive resource development With insights from leading thinkers in the field the book examines this relationship to better understand what if anything can be done in order for the development of non renewable resources to be of benefit to the long term sustainability of these communities The contributions synthesize circumpolar research on the topic of resource extraction in the Arctic and highlight areas that need further investigation such as the ability of northern communities to properly use current regulatory processes fiscal arrangements and benefit agreements to ensure the long term sustainability of their culture communities and to avoid a new path dependency This book provides an insightful summary of issues surrounding resource extraction in the Arctic and will be essential reading for anyone interested in environmental impact assessments globalization and Indigenous communities and the future of the Arctic region

State Governance of Mining, Development and Sustainability Tracy-Lynn Field, 2019 States in mineral rich jurisdictions must promote mining as a development industry just as they must protect people and environment from the worst excesses of extractivism State Governance of Mining Development and Sustainability explores how the State's role in facilitating a developmental and sustainable mining industry has been defined In doing so this astute book considers the impact of the policies and laws of mineral rich States themselves multilateral international governance institutions industry associations and environmental justice advocates in the areas of property relations mineral taxation environmental management and mine closure

Rocks and Hard Places Roger Moody, 2008-02-29 The world of international mining is changing rapidly Mining corporations are encroaching on more and more greenfield sites in Africa the Asia Pacific and Latin America to serve ever expanding global industries Moody shows that large scale mining imposes a heavy toll on local communities on their fragile economies and ways of life as well as the environment He challenges the mining corporations recent public relations offensive extolling the virtues of largescale mining and its alleged compatibility with sustainable development and reveals the unprecedented wave

of community and trade union opposition to projects in both the South and the North This important book concludes with urgent proposals to check the role of multinationals in a sector that has always been at the core of resource exploitation

The Political Economy of Violence Daniel S. Leon, 2010-10 This study will attempt to answer the question of how can the rise in social violence since the 1980s be explained in the oil rich nation of Venezuela The once relatively peaceful nation of Venezuela has seen a dramatic rise in social violence over the last three decades that has placed her amongst some of the world's most dangerous countries A review of the relevant literature will reveal that the study of a social phenomenon such as violence in a nation such as Venezuela is a complicated task because there are a number of different but in many cases interlinked variables that contribute to the formation of this social phenomenon Therefore the conceptual framework will consist of a multi variable analysis so that this study may go about to formulate an appropriate explanation based on the complex causes and effects that surround this issue However special attention will be given to the nation's developmental history which has given way to a severe socio political crisis Although special attention will be given to this important variable no hierarchy of variables will be established as the convoluted nature of social events makes it very difficult to formulate one Other factors that will also be analyzed as they contribute to the rise of social violence are the nation's vast hydrocarbon wealth which is always an outstanding variable because of its economic importance economic reform and liberalization and the urbanization process Although there have been several studies on oil rich nations including Venezuela their economic dynamics the Latin American urbanization process and the Venezuelan political crisis there is an absence of studies that include these intervening factors in a comprehensive manner This study hopes to fill this gap *The Next Generation of Responsible Investing* Tessa Hebb, 2011-11-09 In the face of the recent financial crisis there is increased focus on long term investment strategies This is particularly true for institutional investors who manage our retirement savings Simultaneously there is increased demand that financial assets be invested with an understanding of long term environmental and social sustainability Responsible investing provides a long term sustainable investment strategy that values environmental social and governance ESG factors in investment decision making Responsible Investing has always had a broad mandate Put simply it is a long term sustainable investment strategy that seeks to reduce risk in investment portfolios through managing ESG issues in today's corporations The Next Generation of Responsible Investment explores this topic in an edited volume intended for those with an interest in finance and business **Constitutionalism and the**

Economy in Africa Charles Manga Fombad, Nico Steytler, 2022 This volume looks at the relationship between constitutional law and the African political economy It tackles a range of issues from the impact of globalization to the State's role in the economy and the constitutional foundations for land and natural resources exploitation regulation and protection

Approaching Natural Resources for Sustainable Development in Indonesia Henny Warsilah, Agus Heri Purnomo, 2025-09-25 This book brings to light the sustainability dilemma in Southeast Asia with a sharp focus on Indonesia's

rapid economic growth and its profound impact on natural resources ecosystems and society It examines the complex challenge of fostering strong economic development while avoiding environmental degradation and social dislocation Central to this discourse is the vital role of government regulation and the imperative of community involvement in managing natural resources Indonesia s economic boom mirroring trends across Asia has triggered escalating land use conflicts in forests peatlands rural urban zones and karst landscapes This is paralleled by expanding access to coal tin and oil and gas leading to large scale extractive operations and widespread environmental damage The book adopts a sustainable development framework exploring its ecological economic social and political dimensions Crucially it argues that today s socio ecological crisis is not just a consequence of growth but a systemic condition rooted in capitalism Written by leading experts the book offers interdisciplinary perspectives socio cultural legal political and economic supported by detailed case studies A timely and essential resource for policymakers researchers and practitioners committed to Indonesia s sustainable future

Offshore Energy Law Ignacio Herrera Anchustegui, Madeline Taylor, Eduardo G Pereira, Eddy Wifa, 2025-05-29 This book examines the regulatory environmental financial socio legal and safety aspects that shape offshore energy infrastructure projects and their operation The marine environment holds vast resources to provide energy solutions for humankind The sustainable development of such offshore energy resources is one of the most pressing challenges posed by the energy transition Whereas offshore hydrocarbons have been explored and extracted for more than a century the offshore renewable industry is rapidly expanding with lawmakers increasingly looking to the oceans for significant energy development Offshore spaces now amalgamate mature and emerging energy industries creating a pressing need to identify synergies and regulatory challenges However and despite the pivotal role offshore energy is to play in the future the interaction synergies and conflicts arising between these regulatory socio legal environmental and financial dimensions of offshore energy are often not discussed within the energy law scholarship This book aims to fill this evident gap in existing energy law research to distil critical legal lessons from traditional offshore energy sectors to encourage best practice regulation of offshore energy net zero industries Offshore Energy Law provides a functional analysis that covers the life cycle of offshore energy developments including renewable and hydrocarbons within the broader context of the energy crisis and energy transition debates Written and edited by leading global offshore energy experts the book brings together a global and sectoral comparative perspective to central offshore energy topics such as licensing socio legal challenges and opportunities safety and ecological governance and the use of marine maritime spatial planning

Financing Social Policy Katja Hujo, Shea McClanahan, 2009-10-09 Moving beyond the post Washington consensus this book shifts the focus of development policy debates away from expenditures and austerity and towards revenues and resources The book explores the potential and the developmental impact of different categories of resources for financing social policy in a development context

Rebuilding Sustainable Communities in Iraq Adenrele Awotona, 2009-05-27 The scene in Iraq is most troubling and

further failure therein especially failure in sustainable reconstruction will compound the tragedy and bring grievous harm to too many in Iraq the United States the Middle East and the Western world Yet the current efforts at reconstruction cannot succeed as we seem to be making many of the same mistakes that were made post invasion Simply put a national occupying power cannot reconstruct a massive societal vacuum by working only top down Reconstruction is not the simple reversal of destruction Sustainability requires serious localized reconstitution of localized community infrastructure Accordingly in order to explore how Iraqi communities could be rebuilt in a manner that promotes social justice economic and political sustainability and the full participation of all stakeholders the Center for Rebuilding Sustainable Communities after Disasters at the University of Massachusetts at Boston USA hosted a four day international conference of Iraqi and international scholars and practitioners in July 2007 This volume collects some of the papers that were presented at the conference Amongst the topics that the contributing authors have explored are the following the role of organizations and institutions in defining strategies for sustainable rebuilding of community rebuilding the Iraqi Oil Industry and successful project strategies in Iraq s Kurdistan region The book concludes with a presentation of a number of international perspectives and their lessons for Iraq These studies spring from Afghanistan the United States of America and Africa

Oiling the Urban Economy

Franklin Obeng-Odoom, 2014-06-13 This book presents a critical analysis of the resource curse doctrine and a review of the international evidence on oil and urban development to examine the role of oil on property development and rights in West Africa s new oil metropolis Sekondi Takoradi Ghana It seeks answers to the following questions In what ways did the city come into existence What changes to property rights are oil prospecting explorations and production introducing in the 21st century How do the effects vary across different social classes and spectrums To what extent are local and national institutions able to shape restrain and constrain trans national oil related accumulation and its effects on property in land property in housing residential leisure and commercial and property in labour How do these processes connect with the entire urban system in Ghana This book shows how institutions of varying degrees of power interact to govern land housing and labour in the city and analyses how efficient sustainable and equitable the outcomes of these interactions are It is a comprehensive account of the tensions and contradictions in the main sectors of the urban economy society and environment in the booming Oil City and will be of interest to urban economists development economists real estate economists Africanists and urbanists

Geopolitics Jason Dittmer, Jo Sharp, 2014-06-27 It has been increasingly impossible to think about our changing world without coming across the term geopolitics In the wake of the invasion and occupation of Iraq by the United States United Kingdom and others geopolitics has been offered as an explanation for the occupation s failure to reinvent the Iraqi state and as a blueprint for future action But what is geopolitics Drawing both on academic and political material this book introduces readers to the concept of geopolitics from the first usage of the term to its more recent reconceptualisations The concept of geopolitics is introduced through four thematic sections Imperial Geopolitics Cold War

Geopolitics Geopolitics after the Cold War and Reconceptualising Geopolitics Each section includes key writings from a range of diverse and leading authors such as Said Agnew Dalby O Tuathail Gregory Barnett and Kaplan and is accompanied by a critical introduction by the editors to guide the reader through the material This Reader establishes the foundations of geopolitics while also introducing readers to the continuing significance of the concept in the 21st century This Reader provides an essential resource that exposes students to original writing The Editors provide a pathway through the material with Section Introductions to assist the readers understanding of the context of the material and impacts of the writings The readings included draw from a range of authors writing from a range of locations The Reader concludes with the latest changes in geopolitical thought incorporating feminist and other perspectives **Mountain Movers** Daniel M.

Franks,2015-09-16 The products of mining are everywhere if it wasn't grown it was mined or drilled But the mining industry has a chequered past Pollution human rights abuses and corruption have tarnished the reputation of the industry across the globe Over a decade ago the major mining companies embraced the concept of sustainable and equitable development and embarked on an explicit process of reform but has the industry actually changed This book explores the dynamics of change making for sustainable development in the resources sector specifically the mining of mineral and energy resources The author recounts the stories and insights of over forty change makers both inside and outside the industry from anti mining activists to the professionals charged with the task of reform introducing the people who are moving an industry that moves mountains The book takes stock of what has worked and what has not analyzing the relative influence and dynamics of the key corporate civil society and government actors with a view to developing new approaches for improving environmental and social outcomes from mineral and energy development Illustrated with case studies from Angola Australia Brazil Canada Chile Colombia El Salvador Guinea Peru The Philippines Romania Sierra Leone South Africa and The United States of America and brimming with the backstories to the major sustainability initiatives Mountain Movers reveals where progress has been made and where reform is still needed towards a more sustainable and equitable mining industry **Extractive**

Industries Tony Addison,Alan Roe,2018 This book is about the challenges and opportunities facing developing countries in using their extractive industries to achieve inclusive and sustainable development It recognizes the importance of using oil gas and mining to achieve inclusive change **Reducing Natural Resource Dependency for Economic Growth in**

Resource Rich Countries Goran M. Muhamad,2023-06-19 This book examines the reduction of natural resource revenue dependency in resource rich countries Such countries experience lower economic growth due to factors of high volatility in commodity prices reduction in accountability undermining of the competitiveness of other economic sectors and weak power of institutions The analysis is based on an identified gap in the literature regarding how private sector development and public sector development affect the degree of dependency on resource revenue in natural resource rich countries This book studies the interaction between private and public sector development with dependency on natural resources specifically

exploring whether the two diversified factors lead to a decrease in the degree of dependency which is important for economic growth and to overcome the resource curse Economic diversification is viewed as a long term solution to the high economic dependency from natural resources Private sector development and public sector reforms may lead to this diversification The analysis of the book helps to shed light on private sector development public services sector privatization and a taxation system to diversify sources of income with the objective to reduce dependency on natural resources extraction This book is an invaluable read for public policymakers the public and private sectors law makers and scholars of developmental studies
