Astbury,2017-07-05 During the French Revolution traditional literary forms such as the sentimental novel and the moral tale
dominate literary production At first glance it might seem that these texts are unaffected by the upheavals in France in fact
they reveal not only a surprising engagement with politics but also an internalised emotional response to the turbulence of
the period In this innovative and wide ranging study Katherine Astbury uses trauma theory as a way of exploring the
apparent contradiction between the proliferation of non political literary texts and the events of the Revolution Through the
narratives of established bestselling literary figures of the Ancien Regime primarily Marmontel Madame de Genlis and
Florian and the early works of first generation Romantics Madame de Stael and Chateaubriand she traces how the Revolution
shapes their writing providing an intriguing new angle on cultural production of the 1790s Katherine Astbury is Senior
