A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Maciej Janowski, Monika Baar, Maria Falina, Michal Kopecek, 2016-02-26 A History of Modern Political Thought in East Central Europe is a two volume project authored by an international team of researchers and offering the first ever synthetic overview of the history of modern political thought in East Central Europe Covering twenty national cultures and languages the ensuing work goes beyond the conventional nation centered narrative and offers a novel vision especially sensitive to the cross cultural entanglement of discourses Devising a regional perspective the authors avoid projecting the Western European analytical and conceptual schemes on the whole continent and develop instead new concepts patterns of periodization and interpretative models At the same time they also reject the self enclosing Eastern or Central European regionalist narratives and instead emphasize the multifarious dialogue of the region with the rest of the world Along these lines the two volumes are intended to make these cultures available for the global market of ideas and also help rethinking some of the basic assumptions about the history of modern political thought and modernity as such The first volume deals with the period ranging from the Late Enlightenment to the First World War It is structured along four broader chronological and thematic units Enlightenment reformism Romanticism and the national revivals late nineteenth century institutionalization of the national and state building projects and the new ideologies of the fin de si cle facing the rise of mass politics Along these lines the authors trace the continuities and ruptures of political discourses They focus especially on

the ways East Central European political thinkers sought to bridge the gap between the idealized Western type of modernity and their own societies challenged by overlapping national projects social and cultural fragmentation and the lack of institutional continuity

A History of the Balkans 1804-1945 Stevan K. Pavlowitch, 2014-09-25 The Balkans have often been a flashpoint of conflict in European history The recent civil war has torn the country apart and the region faces an uncertain future This authoritative study provides an account of the history of the whole area from the first major nationalist rising against its Ottoman rulers in 1804 to the aftermath of World War II Covering the former Yugoslavia Albania Greece Bulgaria and Romania it provides a Balkan wide overview as well as histories of specific states and sets the context to the recent conflict

Politics as Development Gale Stokes, 1990 Nineteenth century Serbia was an economically and socially backward country with an urban population of approximately 3 percent and a literacy rate in the countryside of less than 10 percent Still during that century it created a functioning democracy with a constitution independent courts political parties and civil liberties The Serbian experience challenges the view that political structures fundamentally depend on socioeconomic ones since Serbia created a modern political system without developing economically

Politics as Development analyzes one aspect of that process the emergence of political parties in the 1870s and the 1880s especially the creation of the Serbian Radical Party under the leadership of Nikola Pasic By mobilizing the peasantry through organizing the countryside the Radicals proved themselves the most original nineteenth century Balkan political movement Based on thorough research of primary documents Stokes s study supports the view that the state and its attending class constitute an independent variable in the developmental process

A Cultural History of Serbia David A. Norris, 2024-03-05 This volume focuses on Serbia s need to manage change while preserving community identities a narrative that avoids the common depiction of Serbian culture as a hostile struggle between modernizers supporting foreign models and traditionalists advocating forms of national cultural patrimony Traditions only function if they are allowed to bend to the necessary modifications demanded by a community s changing historical circumstances Tradition and change are two sides of the same coin which Serbia in its many different incarnations has experienced over the centuries protecting its national heritage while borrowing and adapting intellectual and other trends from Byzantine Ottoman and Western sources Outside influences have been imposed as a direct result of foreign rule or through more friendly channels of communication leading to a complex relationship between autochthonous and alien elements in Serbian society and culture This book argues that the division between the national and international frameworks has often been a false dichotomy with outside features embedded in domestic symbolic capital and Serbian culture simultaneously determined on local national regional and global levels David A Norris s approach offers a new perspective to students academics and general readers interested in the history of Serbia s participation in the broad networks of cultural exchange

1800-2000 Stefano Bianchini, 2015-03-02 This book presents a concise and comprehensive overview of the mainstream flows of ideas politics and itineraries towards modernity in Central and Eastern Europe and the Balkans over two centuries from the beginning of the nineteenth century to the end of the Gorbachev administration Unlike other books on the subject which view modernity based on the idea of Western European supremacy this book outlines the various different pathways of development and of growing industrialisation urbanisation and secularisation which took place across the region It provides rich insights on the complex networks whereby very varied ideas aspirations and policies interacted to bring about a varied pattern of progress and of integration and isolation with different areas moving in different ways and at different paces Overall the book presents something very different from the traditional picture of the two Europes Particular examples covered include agrarian reform movements in various phases different models of socialism and different models of socialist reform Serbia Marko Attila Hoare, 2024 A definitive account of a fiercely independent Balkan people whose fate was long

shaped by the Great Powers **Apple of Discord** Ian D. Armour, 2014 When seeking the origins of World War I the chain of events in the late nineteenth century that led to the breakdown of relations between Austria Hungary and Serbia and facilitated the rise of an aggressive Serbian nationalism needs to be understood This book focuses on the hitherto unexplored Hungarian influence on the Habsburg Monarchy's policy toward Serbia after the 1867 Ausgleich and it argues that this early period was critical in shaping policy after 1871 down to the imposition on Serbia in 1881 of a system of economic and political control The Ausgleich the Austro-Hungarian compromise that reconstituted the Empire as a dual monarchy gave Hungary a limited voice in foreign affairs and it was at the request of the Hungarian premier Count Gyula Andrássy that the young politician Benjamin Kállay was appointed representative at Belgrade in 1868 Both men were obsessed with the threat posed by Russia and particularly concerned that Serbia might be used as a stalking horse for Russian influence among the Monarchy's South Slavs They pursued a shadow policy designed to draw Serbia firmly into the Monarchy's sphere of

influence which contradicted that of the foreign minister Count Beust and resulted in a serious deterioration in relations with Serbia by 1871. After 1871 Andrassy as foreign minister laid the foundations for a more explicit control of Serbia. Klay as a senior diplomat negotiated the treaties that by 1881 locked Serbia into satellite status for a generation. Through detailed archival research in multiple languages and a painstaking reconstruction of diplomatic events Armour illuminates a crucial period in Central European history showing how the origins of a war that claimed millions of lives can be traced to political maneuverings almost fifty years before.
