Qureshi, 2023-06-16 In 1972 Swedish Prime Minister Olof Palme's fierce condemnation of the Christmas Bombings of the North Vietnamese cities of Hanoi and Haiphong led to a breakdown in diplomatic relations at the highest level between Sweden and the United States The author argues that Sweden's official position of neutrality allowed its Prime Minister greater independence of action on the international stage Palme opposed the American military intervention in Southeast Asia for its violation of Vietnamese self determination Superpower aggression against one small country threatened all others including Palme's own At the same time the diplomatic freeze did not substantially damage Swedish American relations In spite of the tension with the Nixon White House Stockholm and its embassy in Washington maintained excellent relations with Congress with many ordinary Americans and even with Nixon's own State Department

Reclaiming the American Revolution W. Watkins, 2016-04-30 Reclaiming the American Revolution examines the struggles for political ascendancy between Federalists and the Republicans in the early days of the American Republic Watkins views the struggle through the lens of the Kentucky and Virginia Resolutions charters written by Thomas Jefferson and James Madison respectively that were responses to the Alien and Sedition Acts passed by Federalists that among other things made criticism of the federal government a crime Viewing those acts as a threat to states rights as

well as indicative of a national government that sought supreme power the Resolutions restated the principles of the American Revolution and sought to return the nation to the tenets of the Constitution in which rights for all were protected by checking the power of the national government The Department of State Bulletin ,1983 **Revolutionary**

Contagion and International Politics Chad E. Nelson,2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In Revolutionary Contagion Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion The Swedish Experience ,1988
