

A photograph of a dirt road winding through a forest. The trees on either side have autumn-colored foliage in shades of yellow, orange, and brown. The road leads towards a bright light at the end of the path, creating a strong perspective. The overall mood is serene and contemplative.

Stop the world. I
want to get off.

A Simpler Way Margaret J. Wheatley,Myron E. Rogers,1998-01-01 We want life to be less arduous and more delightful We want to be able to think differently about how to organize human activities So begins A Simpler Way an exploration of a radically different world view that will reshape how we think about organizing all human endeavor Margaret J Wheatley and coauthor Myron Kellner Rogers explore the question How could we organize human endeavor if we developed different understandings of how life organizes itself They draw on the work of scientists philosophers poets novelists spiritual teachers colleagues audiences and their own experience in search of new ways of understanding life and how organizing activities occur A Simpler Way presents a profoundly different world view that can change how we live our lives and how we can create organizations that thrive A Simpler Way explores fundamental new beliefs about organizations and life Like Leadership and the New Science this new book is rooted in science but breaks new ground by developing insights from literature spiritual teachings and direct experience The authors challenge many assumptions about life organizations and change while providing inspiration and guidance for readers on their own journey to a simpler way to organize their endeavors The authors describe a new paradigm of life as self organizing and coevolving drawing on sources that support modern science but predate its findings by thousands of years They examine five major themes play organization self emergence and coherence

each grounded in both the science and philosophy of a world that knows how to organize itself Each theme is explored in depth and then applied to how we think about human organizations The book begins and ends with photo essays providing visual imagery that recalls readers to their own experience with a world that is creative playful and self organizing Written in a relaxed poetic and inviting style the book welcomes the reader into this exploration of a new way of being in the world one which can give us increased organizing capacity and effectiveness with less of the stress that plagues us now

Nyamnjoh: Incompleteness: Donald Trump, Populism a ,2023-01-10 This is a study of how Donald J Trump his populist credentials notwithstanding borrows without acknowledgment and stubbornly refuses to come to terms with his indebtedness Taken together with mobility and conviviality the principle of incompleteness enables us to distinguish between inclusionary and exclusionary forms of populism and when it is fuelled by ambitions of superiority and zero sum games of conquest Nyamnjoh challenges the reader to reflect on how stifling frameworks of citizenship and belonging predicated upon hierarchies of humanity and mobility and driven by a burning but elusive quest for completeness can be constructively transcended by humility and conviviality inspired by taking incompleteness seriously Nyamnjoh argues that the logic and practice of incompleteness is a healthy antidote to name calling and scapegoating others as undesirable outsiders depending on the brand of populism at play Recognising incompleteness also helps to question sterile and problematic binaries such as those between elites and the impoverished masses among whom populists go to fish for political visibility prominence and success
