poetic thoughts that relate to a different type of change which may not be totally transforming but at the same time be identifiable My hope is that there will be a adequate array of poems that would spark the audience Transformation requires a radical change in our thinking which translates into our personal life and living Often we change to survive or become enamoured with a new idea that fills our void so we change while our surroundings remain somewhat intact Yet in real time our environment will recreate itself so we will eventually be transformed into a new age so let us begin Bill Leahy December 2013
