Screen Stories Carl Plantinga, 2018-04-06 The way we communicate with each other is vital to preserving the cultural ecology or wellbeing of a place and time Do we listen to each other Do we ask the right questions Do we speak about each other with respect or disdain The stories that we convey on screens or what author Carl Plantinga calls screen stories are one powerful and pervasive means by which we communicate with each other Screen Stories Emotion and the Ethics of Engagement argues that film and media studies needs to move toward an approach to ethics that is more appropriate for mass consumer culture and the lives of its citizens Primarily concerned with the relationship between media and viewers this book considers ethical criticism and the emotional power of screen stories that makes such criticism necessary The content we consume from television shows and movies to advertisements can significantly affect our welfare on a personal and societal level and thus this content is subject to praise and celebration or questioning and even condemnation The types of screen stories that circulate contribute to the cultural ecology of a time and place through shared attention they influence what individuals think and feel Plantinga develops a theory of the power of screen stories to affect both individuals and cultures asserting that we can better respond ethically to such media if we understand the sources of its influence on us

Westkott, Kathryn L. Johnson, 2021-09-30 Build a classroom of excited talented young writers This wonderful teaching resource offers a complete approach to creating a classroom of enthusiastic skillful student writers The authors provide a comprehensive approach to teaching writing in the classroom This book offers the strategies teachers need to teach writing skills that meet national standards and to produce excellent results from children Topics addressed in this guidebook include creating the writing classroom teaching the writing process teaching effective writing strategies teaching elements of story structure teaching the advanced craft of writing and using a writer s workshop to teach good writing Writing is a great differentiator During the writer s workshop each student is engaged in meaningful ways Pulling together more than three decades of practical experience and research on the best strategies for teaching writing Writing Like Writers offers a friendly easy to use guide for any teacher seeking to build a classroom of successful writers Grades 2-6 Interactive Storytelling Ido A Iurgel, Nelson Zagalo, Paolo Petta, 2009-11-24 The rich programme of ICIDS 2009 comprising invited talks technical presentations and posters demonstrations and co located post conference workshops clearly underscores the event s status as premier international meeting in the domain It thereby confirms the decision taken by the Constituting Committee of the conference series to take the step forward out of the national cocoons of its precursors ICVS and TIDSE and towards an itinerant platform reflecting its global constituency This move reflects the desire and the will to take on the challenge to stay on the lookout critically reflect upon and integrate views and ideas findings and experiences and to promote interdisciplinary exchange while ensuring overall coherence and maintaining a sense of direction This is a significant enterprise The challenges sought are multifarious and must be addressed consistently at all levels The desire to involve all research communities and stakeholders must be matched by acknowledging the differences in established practises and by providing suitable means of guidance and introduction exposition and direct interaction at the event itself and of lasting and increasingly living documentation of which the present proceedings are but an important part Cinematic Cuts Sheila Kunkle, 2016-05-09 Explores the philosophical literary and psychoanalytic significance of film endings Editing has been called the language of cinema and thus a film s ending can be considered the final punctuation mark of this language framing everything that came before and offering the key to both our interpretation and our enjoyment of a film In Cinematic Cuts scholars explore the philosophical literary and psychoanalytic significance of film endings analyzing how film endings engage our fantasies of cheating death finding true love or determining the meaning of life They examine how endings offer various forms of enjoyment for the spectator from the momentary fulfillment of desire in the happy ending to the pleasurable torment of an indeterminate ending The contributors also consider how film endings open onto larger questions relating to endings in our time They suggest how a film s ending s hidden counter narrative can be read as a political act how our interpretation of a

film ending parallels the end of a psychoanalytical session how film endings reveal our anxieties and fears and how cinema itself might end with the increasing intervention of digital technologies that reorient the spectators sense of temporality and closure Films by Akira Kurosawa Lars von Trier Joon Hwan Jang Claire Denis Christopher Nolan Jane Campion John Huston and Spike Jonze among others are discussed **Philosophy in The Twilight Zone** Noël Carroll, Lester H. Hunt, 2009-03-30 Utilizing a series of essays examining the broad philosophical concepts embedded in Rod Serling's series The Twilight Zone Philosophy in The Twilight Zone provides a platform for further philosophical discussion Features essays by eminent contemporary philosophers concerning the overarching themes in The Twilight Zone as well as in depth discussions of particular episodes Fuses popular cult entertainment with classical philosophical perspectives Acts as a guide to unearthing larger questions from human nature to the nature of reality and beyond posed in the series Includes substantial critical and biographical information on series creator Rob Serling *Perspectives on Stephen King* Andrew J. Rausch, 2019-02-05 Stephen King is one of the most successful authors in the history of American literature His books including 55 novels 12 novellas nine short story collections and a children's book have sold 350 million copies worldwide Over the past five decades his broader impact on popular culture has been immense Most of his works have been adapted for film or television some of them by King himself and he may fairly be credited with single handedly reinventing horror once considered a B movie genre for mainstream readership This collection of original interviews with fellow authors collaborators and critics covers all things King from analyses of his best writing to his many screen adaptations to recurring themes in his stories *Surprise Endings* Robin Jones Gunn, 1993 **The Classic Short Story, 1870-1925** Florence Goyet, 2014-01-13 The ability to construct a nuanced narrative or complex character in the constrained form of the short story has sometimes been seen as the ultimate test of an author's creativity Yet during the time when the short story was at its most popular the late nineteenth and early twentieth centuries even the greatest writers followed strict generic conventions that were far from subtle This expanded and updated translation of Florence Goyet's influential *La Nouvelle 1870 1925 Description d'un genre son apogée* Paris 1993 is the only study to focus exclusively on this classic period across different continents Ranging through French English Italian Russian and Japanese writing particularly the stories of Guy de Maupassant Henry James Giovanni Verga Anton Chekhov and Akutagawa Ryunosuke Goyet shows that these authors were able to create brilliant and successful short stories using the very simple tools of brevity of that period In this challenging and far reaching study Goyet looks at classic short stories in the context in which they were read at the time cheap newspapers and higher end periodicals She demonstrates that despite the apparent intention of these stories to question bourgeois ideals they mostly affirmed the prejudices of their readers In doing so her book forces us to re think our preconceptions about this forgotten genre The Writing Class Jincy Willett, 2009-05-26 Amy Gallup is gifted perhaps too gifted for her own good Published at only twenty two she peaked early and found critical but not commercial success Now her former life is gone along with her writing career and beloved husband

A reclusive widow her sole companion a dour flatulent basset hound who barely tolerates her her daily mantra Kill Me Now she is a loner afraid to be alone Her only bright spot each week is the writing class that she teaches at the university extension This semester s class is full of the usual suspects the doctor who wants to be the next Robin Cook the overly enthusiastic repeat student the slacker the unassuming student with the hidden talent the prankster the know it all Amy s seen them all before But something is very different about this class and the clues begin with a scary phone call in the middle of the night and obscene threats instead of peer evaluations on student writing assignments Amy soon realizes that one of her students is a very sick puppy and when a member of the class is murdered everyone becomes a suspect As she dissects each student s writing for clues Amy must enlist the help of everyone in her class including the murderer to find the killer among them Suspenseful extremely witty brilliantly written unexpectedly hilarious and a joy from start to finish *The Writing Class* is a one of a kind novel that rivals Jincy Willett s previous masterpieces [New Directions in Picturebook Research](#)

Teresa Colomer, Bettina Kümmerling-Meibauer, Cecilia Silva-Díaz, 2010-07-12 In this new collection children s literature scholars from twelve different countries contribute to the ongoing debate on the importance of picturebook research focusing on aesthetic and cognitive aspects of picture books Contributors take interdisciplinary approaches that integrate different disciplines such as literary studies art history linguistics narratology cognitive psychology sociology memory studies and picture theory Topics discussed include intervisuality twist endings autobiographical narration and metaliterary awareness in picturebooks The essays also examine the narrative challenges of first person narratives ellipsis and frame breaking in order to consider the importance of mindscape as a new paradigm in picturebook research Tying picturebook studies to studies in childhood multimodality and literacy this anthology is a representative of the different opportunities for research in this emerging field

Challenges Ben Bova, 2025-09-23 Bova offers a new collection of wide ranging science fiction stories essays about the onrushing future and observations about the craft of SF itself Included among others are such tales as the touching *The Man Who Hated Gravity* the satirical *Crisis of the Month* and *Fitting Suits* rigorously hard SF like *To Touch a Star* and wrenching drama like *Answer Please Answer* and *Brothers* Framing all the stories are Bova s insights into the challenges posed in the writing of each one a vade mecum of home truths about the science in SF trusting one s own instincts writing what you know dealing with publishers generating plots creating sympathetic characters and getting the job done Also included is a remarkable pair of pieces one a speculative essay about the world of fifty years hence 2042 *A Cautiously Pessimistic View* and the other a novella *Thy Kingdom Come* set in the world outlined in that essay and dramatizing its problems and opportunities Finally *Challenges* also presents a generous selection of Bova s output as an essayist both in and outside the SF field such pieces as *Will Writing Survive Science in Science Fiction* *What Works for Me* *And What I Work For* John Campbell and the Modern SF Idiom and his resounding affirmation of humanistic rationalism *Science Fiction and Faith* Any collection of Ben Bova s fiction would be cause for celebration With its generous helping of

Bova's comments particular provocative and deeply practical on the SF field itself and the real future into which we are all embarked Challenges is an even more special book for SF readers aspiring writers and anyone interested in where the human race is headed at the end of the twentieth century At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied
