Haughty Conquerors William Nester, 2000-07-30 During 1763 and 1764 a loose coalition of Native American tribes ranging from the Appalachian Mountains to the Mississippi River and from the Ohio Valley to the Great Lakes revolted against the oppression and neglect of their newly installed British masters This Great Uprising ranks among the most

successful wars in Native American history with the assault and capture of nine forts the siege of Forts Detroit and Pitt and finally a negotiated peace that met most of their demands Yet the victories proved to be fleeting as tribal enthusiasm waned Within a generation another wave of settlers and a frontier war would conquer much of what the unfortunate tribes would cling to with their victory There would be no simple solution to the conflict Now nearly dependent on the white man's technology and trade tribal leaders were forced to face the prospects of an uncertain future Supplies captured from the forts would last only so long and the war had diverted valuable manpower from the yearly hunt While the British had managed to quell the uprising they did so largely through diplomacy and they paid a high political price with negotiations conceding nearly every tribal demand However within a generation yet another wave of settlers and a frontier war would conquer much of what the unfortunate tribes would cling to with their victory

Official Gazette of the United States Patent Office USA Patent Office, 1894 Incoming Jack Manick, 2010

1969 was a momentous year for the world and especially America. It was a year when man first set foot on the moon and in an equally amazing feat the New York Mets won baseball's coveted World Series. While earth shaking events were happening two hundred thousand miles from home or deep within the confines of Shea Stadium men of every race education and age group were fighting and dying 12 000 miles from home in America's most unpopular war Vietnam. Today 40 years later writer husband and Veteran Jack Manick reaches into his soul and resurrects the fear tension foreboding laughter and terror that he and his fellow Band of Brothers felt as they walked the jungles and forests of the Central Highlands of Vietnam in 1969. While in the Bush he carried a pack a medical aid bag two knives three grenades a rifle pistol and an unbreakable commitment to save the lives of his fellow soldiers even at the cost of his own. The story of Jack Doc Manick and his fellow soldiers is one of survival survival in a country laden with malaria crawling with venomous snakes scorpions rats giant centipedes and tigers and dominated by an enemy determined Not to lose the War. The language is as tough as the enemy who fought against him as unrelenting as the blistering heat of the Dry Season and as depressing as the endless mud and mold of the Monsoon Season. Incoming invites you to lace up your jungle boots and take a walk with Jack through the jungles and the fields of dry grass in the Central Highlands of Vietnam in 1969.
