Survey of Architectural History in Cambridge Cambridge Historical Commission, Massachusetts, 1971 Historic and Archeological Preservation United States, Federal Highway Administration, Office of Environmental Policy, 1978 American Vernacular Architecture 1870 To 1960 Herbert Gottfried, Jan Jennings, 2009-07-07 A comprehensive examination of American vernacular buildings Children's Geographies Sarah L. Holloway, Gill Valentine, 2004-11-23 Children's Geographies is an overview of a rapidly expanding area of cutting edge research Drawing on original research and extensive case studies in Europe North and South America Africa and Asia the book analyses children's experiences of playing living and learning The diverse case studies range from an historical analysis of gender relationss in nineteenth century North American playgrounds through to children's experiences of after school care in contemporary Britain to street cultures amongst homeless children in Indonesia at the end of the twentieth century Threaded through this empirical diversity is a common engagement with current debates about the nature of childhood The individual chapters draw on contemporary sociological understandings of children's competence as social actors In so doing they not only illustrate the importance of such an approach to our understandings of children's geographies they also contribute to current debates about spatiality in the social studies of childhood The Atlas of Boston History Nancy S. Seasholes, 2019-10-10 Few American cities possess a history as long rich and fascinating as Boston s A site of momentous national political events from the Revolutionary War through the civil rights movement Boston has also been an influential literary and cultural capital From ancient glaciers to landmaking schemes and modern infrastructure projects the city's terrain has been transformed almost constantly over the centuries The Atlas of Boston History traces the city's history and geography from the last ice age to the present with beautifully rendered maps Edited by historian Nancy S Seasholes this landmark volume captures all aspects of Boston's past in a series of fifty seven stunning full color spreads Each section features newly created thematic maps that focus on moments and topics in that history These maps are accompanied by hundreds of historical and contemporary illustrations and explanatory text from historians and other expert contributors They illuminate a wide range of topics including Boston's physical and economic development changing demography and social and cultural life In lavishly produced detail The Atlas of Boston History offers a vivid refreshing perspective on the development of this iconic American city Contributors Robert J Allison Robert Charles Anderson John Avault Joseph Bagley Charles Bahne Laurie Baise J L Bell Rebekah Bryer Aubrey Butts Benjamin L Carp Amy D Finstein Gerald Gamm Richard Garver Katherine Grandjean Michelle Granshaw James Green Dean Grodzins Karl Haglund Ruth Ann M Harris Arthur Krim Stephanie Kruel Kerima M Lewis Noam Maggor Dane A Morrison James C O Connell Mark Peterson Marshall Pontrelli Gayle Sawtelle Nancy S Seasholes Reed Ueda Lawrence J Vale Jim Vrabel Sam Bass Warner Jay Wickersham and Susan Wilson A Photographic History of Cambridge Patricia H. this book bring to life Cambridge's rich ethnic occupational and architectural heritage **Historic Resources Survey Manual** New York (State). Division for Historic Preservation, 1974 **Survey of Architectural History in Cambridge:** East Cambridge, 1971 Cambridge Massachusetts is a rich mixture of closely mingled examples of architectural periods 17th 18th 19th and 20th century with the 21st century already near the drawing board and before the planning board Yet implicit in the city is a continuity overruling what might be chaos The Cambridge Historical Commission was established not to piously preserve a static past but to make manifest this living continuity between the best that has gone before and the best that can be actively encouraged for the future The Survey may represent the last best hope of establishing such a sense of continuity both historical and architectural because Cambridge is in the midst of a period of decisive even divisive change an invasion of automobiles demanding new highways institutional expansion into residential areas the possible destruction of viable neighborhoods that are both socially and architecturally cohesive by projects that are likely to be only temporary encampments in the longer view This Report surveys the Cambridgeport neighborhood which as its name suggests lies along a waterway it is embraced by a bend in the Charles River Historic and Archaeological Resources of the Boston Area Massachusetts Historical Commission. State Survey Team, 1982 **Guidelines for Local Surveys** Anne Derry,1977

**Inventing the Charles River** Karl Haglund, 2002-11-22 An illustrated account of the creation of the Charles River Basin focusing on the precarious balance between transportation planning and the stewardship of the public realm The Charles River Basin extending nine miles upstream from the harbor has been called Boston's Central Park Yet few realize that this apparently natural landscape is a totally fabricated public space Two hundred years ago the Charles was a tidal river edged by hundreds of acres of salt marshes and mudflats Inventing the Charles River describes how before the creation of the basin could begin the river first had to be imagined as a single public space. The new esplanades along the river changed the way Bostonians perceived their city and the basin with its expansive views of Boston and Cambridge became an iconic image of the metropolis The book focuses on the precarious balance between transportation planning and stewardship of the public realm Long before the esplanades were realized great swaths of the river were given over to industrial enterprises and transportation millponds bridges landfills and a complex network of road and railway bridges In 1929 Boston's first major highway controversy erupted when a four lane road was proposed as part of a new esplanade At twenty year intervals three riverfront road disputes followed successively more complex and disputatious culminating in the lawsuits over Scheme Z the Big Dig s plan for eighteen lanes of highway ramps and bridges over the river More than four hundred photographs maps and drawings illustrate past and future visions for the Charles and document the river's place in Boston's history Guide to Historic Preservation, Historical Agencies, and Museum Practices: a Selective Bibliography Merrilyn Rogers O'Connell, 1970
