Paz and Plato Hugo Moreno argues that in *Ficciones Claros del bosque* and *El monogramático* Jorge Luis Borges Mar a Zambrano and Octavio Paz practice a literary way of philosophizing a way of seeking and communicating knowledge of reality that takes up analogical procedures They deploy analogy as an indispensable and irreplaceable heuristic tool and literary device to convey their insight and perplexities on the nature of existence Borges ironic approach involves reading and writing philosophy as fiction Zambrano's poetic reason is a mode of writing and thinking based on an imaginative sort of recollection that is ultimately a visionary's poetizing technique Paz's poetic thinking relies on analogy to correlate and harmonize an array of worldviews ideas and discourses In the appendix Moreno shows that Plato's *Republic* is a forerunner of this way of philosophizing in literature Moreno suggests that in the *Republic* Plato reconciles philosophy and poetry and creates a rational prose poetry that fuses argumentation and narration dialectical and analogical reasoning and abstract concepts and poetic images

The Reasonable Man Coral Lansbury, 2014-07-14 In a new interpretation of the fiction of Anthony Trollope Coral Lansbury argues that Trollope's work in the *Post Office* starting in 1834 had more influence on his fiction than did any literary figure or tradition Drawing on her original research in *Post Office Records* she reveals the ways in which legal forms and legal reasoning shape both the language and the structure of Trollope's published work Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Sleep Works Sebastian P. Klinger, 2025-01-07 An exploration of sleep at the intersection of literature science and pharmacology in the early twentieth century At the turn of the twentieth century sleep began to be seen not merely as a passive state but as an active dynamic process crucial to our understanding of consciousness and identity In *Sleep Works* cultural historian and literary scholar Sebastian P Klinger explores the intriguing connections between scientific inquiry and literary expression during an era when sleep was both a scientific mystery and a cultural fascination Scientists physicians and pharmaceutical companies were at the forefront of this newfound fascination with sleep some researchers distinguished sleep from related states such as fatigue and hypnosis while others investigated sleep disorders and developed treatments for insomnia Meanwhile literary giants like Franz Kafka and Marcel Proust grappled with their own sleep disturbances and channeled these experiences into their writing Through the lens of their discoveries Klinger reveals the broader implications of sleep for concepts of selfhood and agency Tracing the emergence of interdisciplinary sleep science and the cultural production of sleep through literature *Sleep Works* weaves together literary analysis historical context and research in the archives of the pharmaceutical industry to provide a comprehensive and compelling account of how sleep has been understood represented and experienced in the modern era
