A. Rebhun,1999 This is a study of love specifically of men s and women s emotional roles vis vis one another in Northeast Brazil of how people form conjugal relationships in this region and of the impact of rapid socioeconomic change on courtship marriage cohabitation and infidelity Rapid urbanization and expansion of the cash economy have transformed the region in a few decades Among the transformations are shifts in how people conduct courtship form marriages view the proprieties of sexual behavior and assess the proper social and economic roles of men and women These changes have altered the relative importance of physical economic and emotional intimacy in conjugal relationships transforming the nature of marriage once defined as a largely economic relationship into a largely emotional relationship as ideas of romance once associated with infidelity concubinage and courtship are increasingly attached to marriage The book is largely based on interviews with men and women who talked about their often complicated love lives with wit and passion and the book is rich in personal stories and quotations Women were asked to discuss the nature of men and women and men were asked to talk about women Both sexes were questioned about their views on prostitution concubinage and promiscuity as well as their definitions of love Parents were asked for their views about marriage and child rearing especially differences in raising boys and girls their relations with their own parents lovers spouses and friends and their views on virginity and sexual propriety

The bluntness and articulateness of the informants about their motivations and experiences not only demonstrated that men and women viewed conjugal relationships very differently but enabled the author to specify and explore these differences in unusually interesting ways **Surviving the Fracture** Krishna Sarbadhikary,2007 Study of seven Indo Caribbean writers based in Canada and one in the US examines their negotiations with identity and cultural politics Catholics of San Francisco Rayna Garibaldi,Bernadette C. Hooper,2008 Catholicism has greatly influenced the character of San Francisco beginning with its origins in California in the mission system which brought Franciscan friars Spanish soldiers and new settlers to these shores Catholics have been witness to history making events that have included the 1848 Gold Rush the 1906 earthquake and fire and the 1918 influenza pandemic Parishes schools hospitals and charities took shape after the archdiocese s establishment in 1853 The guidance of archbishops dedication of religious orders and support of the lay community has made the city named for St Francis of Assisi into a uniquely Catholic place The leadership of Catholics in the larger community continues today enriched by new cultures and traditions
