Gordon**, 2010 Surviving the Evacuation, Book 20: Small Cogs in the Survival Machine Frank Tayell, 2023-02-24 The final evacuation begins A year and a half after the collapse of civilisation pirates plague the Atlantic the Saint Lawrence River is a radioactive dead zone and the forests of Quebec are succumbing to disease With insufficient supplies to last until autumn the survivors in Eastern Canada have no choice but to flee A final evacuation is planned to migrate across the breadth of irradiated North America to what they hope will be permanent safety on the Pacific coast Until they leave life goes on and children grow up For Jay that means getting a job Apprenticed to old George Tull he is tasked with scouting the Digby Peninsula for roadworthy vehicles left behind during the first evacuation of Canada Instead he finds signs that an old foe has returned For the Canadian evacuation not to become a deadly tragedy like its British forebear safe roads and intact bridges must be found Tuck and Sorcha join the soldiers mapping the tracks and trails through the dying forests of Quebec It should be a straightforward mission but the starving bears and predatory wolves are not as great a danger as the desperate survivors who wish to be forgotten by the world With increasing desertification on land and rising toxicity in the oceans it is unclear for how much longer the planet can sustain life With imminent annihilation a real possibility the more populous group of survivors in the Pacific plan a multi faith expedition to Jerusalem and Mecca For the devout it is an opportunity to complete a pilgrimage For the politicians it is a chance to diminish the power of the ascendant crusaders extremists and death cults For a few it is an opportunity to hunt for the friends and family abandoned during the escape from Europe *Shaping Remembrance from Shakespeare to Milton* Patricia Phillippy, 2018-06-14 Whether situated in churches or circulating in more flexible mobile works manuscript or printed texts jewels or rosaries personal bequests or antique rarities monuments were ubiquitous in post Reformation England In this period of religious change the unsettled meanings of sacred sites and artifacts encouraged a new conception of remembrance and with it changed relationships between devotional and secular writings arts and identities Beginning in the parish church *Shaping Remembrance from Shakespeare to Milton* moves beyond that space to see remembrance as shaping dynamic systems within which early modern men and women experienced loss and recollection Removing monuments from parochial or antiquarian concerns this study re imagines them as pervasively involved with other commemorative works not least the writings of our most canonical authors These far reaching flexible chapters combine three critical strands religion materiality and gender to describe the arts of remembrance as material and textual remains of living webs of connection in which creators and creations are mutually involved **Crafting Presence** Britta Dümpelmann, 2025-08-20 The contributions to this volume analyse material and visual effects that are artistically produced in different often seemingly poorer media As an alternative to the notions of mimesis and imitation this volume uses the term

evocation a concept that avoids the interpretation of lifelike mimesis as representational goal and instead values specific and intrinsic dynamisms that afford objects and materials to assume aesthetic presence The individual chapters show how distinct cross media perspectives such as media permeability semantic openness and aesthetic blurring are consciously employed as media specific strengths that can transcend the boundaries between materials crafts and genres thus allowing medieval makers to create a unique aesthetic of presence The texts collected here are the result of a series of on site workshops and have benefited from the intensive dialogue between art historians curators conservators and restorers in the context of the Research Network Presence and Evocation Fictitious Materials and Techniques in the Early and High Middle Ages which ran between 2017 and 2020 and was financed by the German Research Foundation DFG Funded by the Deutsche Forschungsgemeinschaft project number 338069669
