Surviving Grief By Gods Grace:

Surviving Grief by God's Grace Richard V. Battle, 2002-05 In the end the Miami paper would nail it in their editorial This thing was about Alia all about her and her swim that fateful night The story began 28 years ago with a reporter stationed at a Coral Gables hospital located hard by Biscayne Bay It concerned the mysterious death of a pregnant Honduran female and a deadly curse they say followed her from the Bay Islands Alia descendant of a 17th century pirate and a woman taken from a captured slaver was island nobility but chose to flee her family and an arranged marriage to be with the man she loved Her daughter lived Rumor had it that it was predestined the newborn would carry the curse pass it to her surviving firstborn female offspring then die So it would travel daughter to daughter down through the generations until the bloodline was broken The attending doctor filled in the required blanks of the death certificate and moved on duty complete official cause of death listed as cardiac arrest Then as is often the case in legends of cursed bloodlines the tale sank into the tapestry of local lore Now after years of silence it surfaces exploding into the public consciousness Serena woman child of Alia must now face her mother's legacy and break the curse or die

Anderson,2016-05-26 For many the Holocaust made thinking about ethics in traditional ways impossible It called into question the predominance of speculative ontology in Western thought and left many arguing that Western political cultural and philosophical inattention to universal ethics were both a cause and an effect of European civilization s collapse in the twentieth century Emmanuel Levinas Elie Wiesel and Richard Rubenstein respond to this problem by insisting that ethics must be Western thought s first concern Unlike previous thinkers they locate humanity s source of universal ethical obligation in the temporal world of experience where human suffering rather than metaphysics provides the ground for ethical engagement All three thinkers contend that Judaism s key lesson is that our fellow human is our responsibility and use Judaism to develop a contemporary ethics that could operate with or without God *Ethics and Suffering since the Holocaust* explores selected works of Levinas Wiesel and Rubenstein for practical applications of their ethics analyzing the role of suffering and examining the use each thinker makes of Jewish sources and the advantages and disadvantages of this use Finally it suggests how the work of Jewish thinkers living in the wake of the Holocaust can be of unique value to those interested in the problem of ethics in the twentieth and twenty first centuries Presenting a thorough investigation of the work of Levinas Wiesel and Rubenstein this book is of key interest to students and scholars of Jewish studies as well as Jewish ethics and philosophy *Blood on a Pew* W.
