Based on revealing interviews with policemen psychiatrists and doctors as well as the families of many of the true life victims both male and female this is the first time that such a collection of stalking cases from across the UK has been presented in such vivid and memorable detail. Trials of Passion Lisa Appignanesi, 2015-07-15 A journey into the heart of dark passions and the crimes they impel. When passion is in the picture what is criminal what is sane what is mad or simply bad. Through court and asylum records letters and newspaper accounts this book brings to life some sensational trials between 1870 and 1914 a period when the psychiatric professions were consolidating their hold on our understanding of what is human. Outside fiction individual emotions and the inner life had rarely been publicly discussed now in an increasingly popular press and its courtroom reports people avidly consumed accounts of transgressive sexuality savage jealousy and forbidden desires. These stood revealed as aspects not only of those labelled mad but potentially of everyone. With great story telling flair and a wealth of historical detail Lisa Appignanesi teases out the vagaries of passion and the clashes between the law and the clinic as they stumble towards a sometimes reviled collaboration. Sexual etiquette and class roles attitudes to love madness and gender notions of respectability and honor insanity and lunacy all are at play in that vital forum in which public opinion is shaped the theater of the courtroom.
