material the visions of our imagination This book shows how this has essentially been true for all technologies from Stonehenge to space station But technology is far from perfect Indeed the author argues here that some of the most public and tragic of its failures still remain instructive emblematic and even inspiring He reports on examples such as a Cathedral of the Earth Beauvais a Cathedral of the Seas Titanic and a Cathedral of the Air Hindenburg and tells their stories from the viewpoint of material transcendence By interweaving their stories he reveals how technologies can succeed in elevating human beings and in taking them to whole new realms of being he explores and explains why these experiences are Transports of Delight
