Jackson,2003-09-02 This comprehensive and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs life and culture The resources of a detailed bibliography directory and journals listing are combined in this single volume forming a unique guide to a multitude of diverse topics British politics government society literature thought arts economics history and geography Academic subjects as taught in British colleges and universities are covered with extensive reading lists of books and journals and sources of information for each discipline making this an invaluable manual     **Waterstone's Guide to Books** ,1989     **The English Catalogue of Books Published from January, 1835, to January, 1863** ,1864     *Enigmatic England* Nick Meers,1990     **Writers Directory** NA NA,2016-03-05     Whitaker's Cumulative Book List ,1951     Englishness Robert Colls,Philip Dodd,2014-08-28 Englishness is by no means the unchanging quality of those living in the territory that has come to be England but a concept that has been made and remade throughout history expressing itself through existing symbols and ideas Since its first publication in 1987 this collection has been regarded as a major work on English national identity as it evolved during the period 1880 1920 and has had a significant impact on writing and research It is a classic text for students of modern British history and courses in politics sociology and literature This updated edition of Englishness contains a new introduction by Robert Colls and Philip Dodd which sets the work in the context of research done since its original publication and an afterword by Will Self which relates it to current debates on Britain as a multinational state This important collection contains ideas that are still pertinent today making it essential reading for students and scholars alike

**John Betjeman** Greg Morse,2012 John Betjeman was undoubtedly the most popular Poet Laureate since Tennyson But beneath the thoroughly modern window on Britain that he opened during his lifetime lay the influence of his nineteenth century forbears This book explores his identity through such Victorianism via the verse of that period but also its architecture religious faith and more importantly religious doubt It was nevertheless a process which took time In the 1930s Betjeman's work was tinted with modernism and traditionalism He found Victorian buildings funny and wrote much in praise of the Bauhaus style even though his early poetry was peppered with Victorian references This leaning was incorporated into a greater sense of purpose during World War 2 when he transformed himself from precious humorist into propagandist The resulting sense of cohesion grew when the dangers of post war urban redevelopment heightened the need to critique the present via the poetics of the past a mood which continued up to and beyond his gaining the Laureateship in 1972 This duty

proved to be a millstone so the official poems are thus explored by the author more fully than hitherto The conclusion of looks back to Betjeman's 1960 verse autobiography *Summoned by Bells* which is seen as the apogee of his achievement and a snapshot of his identity Included here is the first critical appreciation of the lyrics embodied within the text which are taken as a map of the young poet's literary growth Larkin's 1959 question 'What exactly is Betjeman?' then leads to a final appraisal of his originality as evidenced by his glances towards postmodernism feminism and post colonialism The fact is that Betjeman never quite fits in anywhere He is always a square peg in a round hole or a round peg in a square hole often for the sheer enjoyment of so being In a sense his desire to be as non conformist as a Quaker meeting house makes him a radical rather than the reactionary that his interests imply He was a champion of beauty and the British Isles and clearly did much to make us see the worth of our Victorian forebears Greg Morse's book highlights this important facet of his work Quality and Experiment Orde Levinson, John Piper, 1996

**John Betjeman** William S. Peterson, 2006 Sir John Betjeman 1906-1984 Poet Laureate was probably the most widely read English poet of the twentieth century Because of his frequent appearances on radio and television and his fervent devotion to the preservation of England's architectural heritage his face and voice became familiar to millions Few other poets of any century have had such a powerful influence on their contemporaries This bibliography lists and describes all of his known writings including his own books ephemera contributions to periodicals and to books by others lectures and radio and television programmes Other categories such as editorships music settings and dramatic adaptations of his poems recordings and interviews are also included as well as a section devoted to writings about him Manuscripts and drafts of all his works are described in detail This enormous body of material is thoroughly indexed cross referenced and in most cases annotated Now at last the activities of this remarkable man both a poet and a cultural phenomenon can be seen in their full breadth and complexity

**Deserted Medieval Villages** Maurice Beresford, John G. Hurst, 2025-01-01 *Deserted Medieval Villages* combines archaeological and historical expertise to produce a comprehensive and detailed analysis of the studies of deserted medieval villages Including an extensive historical and archaeological review of the surge in mid 20th century research J G Hurst's archaeological gazetteer of 290 sites and analysis of Scottish Welsh and Irish sites this book is an in depth reference work Updating Beresford's classic *The Lost Medieval Villages of England* this book refreshes his historical research considers the economic circumstances of desertion and includes detailed maps photographs and tables

*Looking North* Dave Russell, 2004-10 Investigating areas as diverse as travel literature fiction dialect the stage radio television feature film music and sport this book assesses the portrayal of the North of England within the national culture and how this has impacted upon attitudes to the region and its place within notions of Englishness The relationship between these cultural forms and the construction of regional identity has received only limited consideration and this fascinating work provides not only much new information but also a map for future writers The North although seen ultimately as other and the subject of much critical comment is also shown here as capable of stimulating the creative

imagination and invigorating English culture in sometimes surprising ways
