Sustaining New Orleans Barbara Eckstein, 2005-10-27 This is an expansive interpretation of New Orleans America's most unique city Eckstein pursues meanings of the phrase sustaining New Orleans from the images that remain through media activities to the competing demands of social justice

Authentic New Orleans Kevin Fox Gotham, 2007-12 Honorable Mention for the 2008 Robert Park Outstanding Book Award given by the ASA's Community and Urban Sociology Section Mardi Gras jazz voodoo gumbo Bourbon Street the French Quarter all evoke that place that is unlike any other New Orleans In *Authentic New Orleans* Kevin Fox Gotham explains how New Orleans became a tourist town a spectacular locale known as much for its excesses as for its quirky Southern charm Gotham begins in the aftermath of Hurricane Katrina amid the whirlwind of speculation about the rebuilding of the city and the dread of outsiders wiping New Orleans clean of the grit that made it great He continues with the origins of Carnival and the Mardi Gras celebration in the nineteenth century showing how through careful planning and promotion the city constructed itself as a major tourist attraction By examining various image building campaigns and promotional strategies to disseminate a palatable image of New Orleans on a national scale Gotham ultimately establishes New Orleans as one of the originators of the mass tourism industry which linked leisure to travel promoted international expositions and developed the concept of pleasure travel Gotham shows how New Orleans was able to become one of the most popular tourist attractions in the United States especially through the transformation of Mardi Gras into a national even international event All the while Gotham is concerned with showing the difference between tourism from above and tourism from below that is how New Orleans distinctiveness is both maximized some might say exploited to serve the global economy of tourism as well as how local groups and individuals use tourism to preserve and anchor longstanding communal traditions

New Orleans T. R. Johnson, 2023-03-02 The neighborhoods of New Orleans have given rise to an extraordinary outpouring of important writing Over the last century and a half or so these stories and songs have given the city its singular place in the human imagination This book leads the reader along five thoroughfares that define these different parts of town Royal St Claude Esplanade Basin and St Charles to explore how the writers who have lived around them have responded in closely related ways to the environments they share On the outskirts of New Orleans today the city's precarious relation to its watery surroundings and the vexed legacies of race loom especially large But the city's literature shows us that these themes have been near to hand for New Orleans writers for several generations whether reflected through questions of masquerade dreams of escape the innocence of children or the power of money or of violence or of memory

Hearing Sappho in New Orleans Ruth Salvaggio, 2012-06-13 While sifting through trash in her flooded New Orleans home Ruth Salvaggio discovered an old volume of Sappho's poetry stained with muck and mold In her efforts to restore the book Salvaggio realized that the process

reflected how Sappho's own words were unearthed from the refuse of the ancient world. Undertaking such a task in New Orleans she sets out to recover the city's rich poetic heritage while searching through its flooded debris. Hearing Sappho in New Orleans is at once a meditation on this poetic city, its many languages and cultures, and a history of its forgotten poetry. Using Sappho's fragments as a guide, Salvaggio roams the streets and neighborhoods of the city as she explores the migrations of lyric poetry from ancient Greece through the African slave trade to indigenous America and ultimately to New Orleans. The book also directs us to the lyric call of poetry, the voice always in search of a listener. Writing in a post-Katrina landscape, Salvaggio recovers and ponders the social consequences of the long song, lyric chants, especially the voices of women lost in time as it resonates from New Orleans's poetic sites like Congo Square where Africans and Indians gathered in the early eighteenth century to the modern-day Maple Leaf Bar where poets still convene on Sunday afternoons. She recovers, for example, an all-but-forgotten young Creole woman named L.I. and leads us all the way up to celebrated contemporary writers such as former Louisiana poet laureate Brenda Marie Osbey, Sybil Kein, Nicole Cooley, and Katherine Soniat. Hearing Sappho in New Orleans is a reminder of poetry's ability to restore and secure fragile and fragmented connections in a vulnerable and imperiled world.

Three Hundred Years of Decadence Robert Azzarello, 2019-04-09 New Orleans's reputation as a decadent city stems in part from its environmental precariousness, its Francophilia, its Afro-Caribbean connections, its Catholicism, and its litany of alleged vices encompassing prostitution, miscegenation, homosexuality, and any number of the seven deadly sins. An evocative work of cultural criticism, Robert Azzarello's *Three Hundred Years of Decadence* argues that decadence can convey a more nuanced meaning than simple decay or decline conceived in physical, social, or moral terms. Instead, within New Orleans literature, decadence possesses a complex, even paradoxical relationship with concepts like beauty and health, progress and technological advance. Azzarello presents the concept of decadence along with its perception and the uneasy social relations that result as a suggestive avenue for decoding the long, shifting story of New Orleans and its position in the transatlantic world. By analyzing literary works that span from the late seventeenth century to contemporary speculations about the city's future, Azzarello uncovers how decadence often names a transfiguration of values in which ideas about supposed good and bad cannot maintain their stability and end up morphing into one another. These evolving representations of a decadent New Orleans, which Azzarello traces with attention to both details of local history and insights from critical theory, reveal the extent to which the city functions as a contact zone for peoples and cultures from Europe, Africa, and the Americas. Drawing on a deep and understudied archive of New Orleans literature, Azzarello considers texts from multiple genres: fiction, poetry, drama, song, and travel writing, including many written in languages other than English. His analysis includes such works of transcription and translation as George Washington Cable's *Creole Slave Songs* and Mary Haas's *Tunica Texts*, which he places in dialogue with canonical and recent works about the city as well as with neglected texts like Ludwig von Reizenstein's German-language serial *The Mysteries of New Orleans*.

and Charles Chesnutt's novel *Paul Marchand F M C* With its careful analysis and focused scope *Three Hundred Years of Decadence* uncovers the immense significance historically politically and aesthetically that literary imaginings of a decadent New Orleans hold for understanding the city's position as a multicultural transatlantic contact zone Remaking New Orleans Thomas Jessen Adams, Matt Sakakeeny, 2019-04-04 Approached as a wellspring of cultural authenticity and historical exceptionality New Orleans appears in opposition to a nation perpetually driven by progress *Remaking New Orleans* shows how this narrative is rooted in a romantic cultural tradition continuously repackaged through the twin engines of tourism and economic development and supported by research that has isolated the city from comparison and left unquestioned its entrenched inequality Working against this feedback loop the contributors place New Orleans at the forefront of national patterns of urban planning place branding structural inequality and racialization Nontraditional sites like professional wrestling matches middle class black suburbs and Vietnamese gardens take precedence over clichéd renderings of Creole cuisine voodoo queens and hot jazz Covering the city's founding through its present and highlighting changing political and social formations this volume remakes New Orleans as a rich site for understanding the quintessential concerns of American cities Contributors Thomas Jessen Adams Vincanne Adams Vern Baxter Maria Celeste Casati Allegretti Shannon Lee Dawdy Rien Fertel Megan French Marcelin Cedric G Johnson Alecia P Long Vicki Mayer Toby Miller Sue Mobley Marguerite Nguyen Aaron Nyerges Adolph Reed Jr Helen A Regis Matt Sakakeeny Heidi Schmalbach Felipe Smith Bryan Wagner New Orleans Berndt Ostendorf, 2013-03-25 Ralph Ellison once wrote that the rules of performance in American culture are jazz shaped This book explores the Afro creole core culture of New Orleans as the mainspring of this energizing music Much of the cultural capital of the city is buried in a complex tripartite racial history which threatens the binary logic of North American racism with all sorts of sensual transgressions Its jazz derived culture combines elements of African French Spanish and Anglo American cultural practices which in their fusion have created a unique propulsive energy Second line parades jazz funerals Mardi Gras Indians Cajun and creole foodways minstrelsy dance ragtime and jazz will be interpreted as the result of a set of historical circumstances unique to this Caribbean metropolis of the senses Including a preface by Günter Bischof and pictures by Michael P Smith **After Katrina** Anna Hartnell, 2017-01-25 Through the lens provided by the tenth anniversary of Hurricane Katrina *After Katrina* argues that the city of New Orleans emerges as a key site for exploring competing narratives of US decline and renewal at the beginning of the twenty first century Deploying an interdisciplinary approach to explore cultural representations of the post storm city Anna Hartnell suggests that New Orleans has been reimagined as a laboratory for a racialized neoliberalism and as such might be seen as a terminus of the American dream This US disaster zone has unveiled a network of social and environmental crises that demonstrate that prospects of social mobility have dwindled as environmental degradation and coastal erosion emerge as major threats not just to the quality of life but to the possibility of life in coastal communities across America and the world And yet *After Katrina* also suggests that

New Orleans culture offers a way of thinking about the United States in terms that transcend the binary of national renewal or declension. The post Hurricane city thus emerges as a flashpoint for reflecting on the contemporary United States.

Dancing the Politics of Pleasure at the New Orleans Second Line Rachel Carrico, 2024-10-22. On many Sundays Black New Orleanians dance through city streets in Second Lines. These processions invite would-be spectators to join in grooving to an ambulatory brass band for several hours. Though an increasingly popular attraction for tourists, parading provides the second liners themselves with a potent public expression of Black resistance. Rachel Carrico examines the parading bodies in motion as a form of negotiating and understanding power. Seeing pleasure as a bodily experience, Carrico reveals how second liners' moves link joy and liberation, self and communal identities, play and dissent, and reclamations of place. As she shows dancers' choices allow them to access the pleasure of reclaiming self and city through motion and rhythm while expanding a sense of the possible in the present and for the future. In depth and empathetic, *Dancing the Politics of Pleasure at the New Orleans Second Line* blends analysis with a chorus of Black voices to reveal an indelible facet of Black culture in the Crescent City.

The City in American Literature and Culture Kevin R. McNamara, 2021-08-05. This book examines what literature and film reveal about the urban USA. Subjects include culture, class, race, crime, and disaster.

Remediating Region Gina Caison, Lisa Hinrichsen, Stephanie Rountree, 2021-12-08. Rather than a media history of the region or a history of southern media, *Remediating Region* (New Media and the U.S. South) formulates a critical methodology for studying the continuous reinventions of regional space across media platforms. This innovative collection demonstrates that structures of media undergird American regionalism through the representation of a given geography's peoples, places, and ideologies. It also outlines how the region answers back to the national media by circulating ever-shifting ideas of place via new platforms that allow for self-representation outside previously sanctioned media forms. *Remediating Region* recognizes that all media was once new media. In examining how changes in information and media modify concepts of region, it both articulates the virtual realities of the twenty-first century U.S. South and historicizes the impact of new media on a region that has long been mediated. Eleven essays examine media moments ranging from the nineteenth century to the present day, among them: Frederick Douglass's utilization of early photography; video game representations of a late capitalist landscape; rural queer communities' engagement with social media platforms; and contemporary technologies focused on revitalizing Indigenous cultural practices. Interdisciplinary in scope and execution, *Remediating Region* argues that on an increasingly networked planet, concerns over the mediated region continue to inform how audiences and participants understand their entrance into a global world through local space.

Sweet Spots Teresa A. Toulouse, Barbara C. Ewell, 2018-05-17. Contributions by Carrie Bernhard, Scott Bernhard, Marilyn R. Brown, Richard Campanella, John P. Clark, Joel Dinerstein, Pableaux Johnson, John P. Klingman, Angel Adams Parham, Bruce Boyd Raeburn, Ruth Salvaggio, Christopher Schaberg, Teresa A. Toulouse, and Beth Willinger. Much has been written about New Orleans's distinctive architecture and

urban fabric as well as the city's art literature and music. There is however little discussion connecting these features. *Sweet Spots*, a title drawn from jazz musicians' name for the space in between performers and dancers where music best resonates, provides multiple connections between the city's spaces, its complex culture, and its future. Drawing on the late Tulane architect Malcolm Heard's ideas about interstitial spaces, this collection examines how a variety of literal and represented in-between spaces in New Orleans have addressed race, class, gender, community, and environment. As scholars of architecture, art, African American studies, English history, jazz philosophy, and sociology, the authors incorporate materials from architectural history and practice, literary texts, paintings, drawings, music, dance, and even statistical analyses. Interstitial space refers not only to functional elements inside and outside of many New Orleans houses, high ceilings, hidden staircases, galleries, and courtyards, but also to compelling spatial relations between the city's houses, streets, and neighborhoods. Rich with visual materials, *Sweet Spots* reveals the ways that diverse New Orleans spaces take on meanings and accrete stories that promote certain consequences both for those who live in them and for those who read such stories. The volume evokes, preserves, criticizes, and amends understanding of a powerful and often missed feature of New Orleans's elusive reality.

Hemispheric American Studies Caroline F. Levander, Robert S. Levine, 2007-10-04 This landmark collection brings together a range of exciting new comparative work in the burgeoning field of hemispheric studies. Scholars working in the fields of Latin American studies, Asian American studies, American studies, American literature, African Diaspora studies, and comparative literature address the urgent question of how scholars might reframe disciplinary boundaries within the broad area of what is generally called American studies. The essays take as their starting points such questions as: What happens to American literary, political, historical, and cultural studies if we recognize the interdependency of nation-state developments throughout all the Americas? What happens if we recognize the nation as historically evolving and contingent rather than already formed? Finally, what happens if the fixed borders of a nation are recognized not only as historically produced political constructs but also as component parts of a deeper, more multilayered series of national and indigenous histories? With essays that examine stamps, cartoons, novels, film, art, music, travel documents, and governmental publications, *Hemispheric American Studies* seeks to excavate the complex cultural history of texts and discourses across the ever-changing and stratified geopolitical and cultural fields that collectively comprise the American hemisphere. This collection promises to chart new directions in American literary and cultural studies.

Captive City Jennie Lightweis-Goff, 2024-12-10 Explores the legacies of slavery in Southern cities along the Gulf and Atlantic coasts. Cities are fraught sites in the national imagination, turned into identity markers when urban and rural indicate tastes rather than places. Cities bring chaos, draining the lifeblood of the nation like a tick draws blood from its host, to paraphrase Thomas Jefferson's anti-urban polemics, which might have been written during any election year centuries or months ago. Racism and anti-urbanism were born conjoined during the Revolution. Like their Atlantic coastal counterparts in the US North, Southern cities similarly polyglot and cosmopolitan resist

the dominant mutually inclusive prejudices of the nation that fails to contain them on its eroding flooding coasts *Captive City* explores the paths of slavery in coastal cities arguing that captivity haunts the hospitality cultures of Charleston New Orleans Savannah and Baltimore It is not a history of urban slavery but a literary reflection that argues for coastal cities as a distinct region that scrambles time resisting the post in postindustrial and the neo in neoliberalism Jennie Lightweis Goff offers a cultural exploration bound by American literature especially life writing by the enslaved as well as compelling reassessments of works by canonical writers such as Frederick Douglass Harriet Jacobs and Hector St John de Crevecoeur Lightweis Goff reveals how the preserved yet fragile landscapes of these cities are haunted not simply by the ghost tours that are signature stops for travelers in their historic districts but by the echoes of slavery in their economies and built environments *Jazz Religion, the Second Line, and Black New Orleans* Richard Brent Turner, 2016-10-17 This scholarly study demonstrates that while post Hurricane Katrina New Orleans is changing the vibrant traditions of jazz must continue *Journal of African American History* An examination of the musical religious and political landscape of black New Orleans before and after Hurricane Katrina this revised edition looks at how these factors play out in a new millennium of global apartheid Richard Brent Turner explores the history and contemporary significance of second lines the group of dancers who follow the first procession of church and club members brass bands and grand marshals in black New Orleans s jazz street parades Here music and religion interplay and Turner s study reveals how these identities and traditions from Haiti and West and Central Africa are reinterpreted He also describes how second line participants create their own social space and become proficient in the arts of political disguise resistance and performance **Nine Lives** Dan Baum, 2009-02-10 The hidden history of the haunted and beloved city of New Orleans told through the intersecting lives of nine remarkable characters *Nine Lives* is stunning work Dan Baum has immersed himself in New Orleans the most fascinating city in the United States and illuminated it in a way that is as innovative as Tom Wolfe on hot rods and Truman Capote on a pair of murderers Full of stylistic brilliance and deep insight and an overriding compassion *Nine Lives* is an instant classic of creative nonfiction Robert Olen Butler Pulitzer Prize winning author of *A Good Scent from a Strange Mountain* *Nine Lives* is a multivoiced biography of a dazzling surreal and imperiled city told through the lives of night unforgettable characters and bracketed by two epic storms Hurricane Betsy which transformed New Orleans in the 1960s and Hurricane Katrina which nearly destroyed it Dan Baum brings the kaleidoscopic portrait to life showing us what was lost in the storm and what remains to be saved **BONUS** This edition contains a *Nine Lives* discussion guide **Critical Memory Studies** Brett Ashley Kaplan, 2023-04-06 Bringing together a diverse array of new and established scholars and creative writers in the rapidly expanding field of memory studies this collection creatively delves into the multiple aspects of this wide ranging field Contributors explore race in memory environmental studies and memory digital memory monuments memorials and museums and memory and trauma Organised around 7 sections this book examines memory in a global context from Kashmir and Chile to the US and UK

Featuring contributions on topics such as the Black Lives Matter movement the AIDS crisis and memory and the anthropocene this book traces and consolidates the field while analysing and charting some of the most current and cutting edge work as well as new directions that could be taken *Exiles at Home* Shirley Elizabeth Thompson, 2009 New Orleans has always captured our imagination as an exotic city in its racial ambiguity and pursuit of les bons temps Despite its image as a place apart the city played a key role in nineteenth century America as a site for immigration and pluralism the quest for equality and the centrality of self making In both the literary imagination and the law creoles of color navigated life on a shifting color line As they passed among various racial categories and through different social spaces they filtered for a national audience the meaning of the French Revolution the Haitian Revolution of 1804 the Civil War and Reconstruction and de jure segregation Shirley Thompson offers a moving study of a world defined by racial and cultural double consciousness In tracing the experiences of creoles of color she illuminates the role ordinary Americans played in shaping an understanding of identity and belonging *Early African American Print Culture* Lara Langer Cohen, Jordan Alexander Stein, 2012-09-06 The eighteenth and nineteenth centuries saw both the consolidation of American print culture and the establishment of an African American literary tradition yet the two are too rarely considered in tandem In this landmark volume a stellar group of established and emerging scholars ranges over periods locations and media to explore African Americans diverse contributions to early American print culture both on the page and off The book s chapters consider domestic novels and gallows narratives Francophone poetry and engravings of Liberia transatlantic lyrics and San Francisco newspapers Together they consider how close attention to the archive can expand the study of African American literature well beyond matters of authorship to include issues of editing illustration circulation and reading and how this expansion can enrich and transform the study of print culture more generally
