Svinia In Black And White Slovak Roma And Their Neighbours:

Svinia in Black and White David Z. Scheffel, 2005-04-01 Roma or Gypsies as some people still call them constitute Europe's largest poorest and most enigmatic minority. In spite of their centuries-long coexistence with mainstream Europeans, our picture of this people remains rooted in stereotypes and myths that have little in common with contemporary social reality. Full-fledged citizens of the European Union and ostensibly protected by the world's most progressive human rights legislation, many Roma live under conditions that challenge our notions of Europe, modernity and pluralism. This book is about a Romani settlement in eastern Slovakia. It is a community that has grown to become one of the largest and most problematic townships of rural Roma in the entire district. The dark-skinned squatters on the margins of Svinia are segregated from the surrounding society by means of physical and social barriers entrenched in local ideology and enforced by rules and conventions reminiscent of apartheid. David Scheffel offers a detailed ethnographic account of the social, cultural and historical circumstances that have encouraged and supported inter-ethnic inequality in the region. In the process, he demonstrates the complexity of what is often referred to as Europe's Gypsy problem with passion and sensitivity. [Svinia in Black & White](#) David Scheffel, [OECD Economic Surveys: Slovak Republic 2019](#) OECD, 2019-02-05 The Slovak economy remains strong. Thanks to sustained economic growth, almost 4% on average in the last two decades, living standards have converged towards the OECD average. The economy has benefitted from strong integration into global value chains, but the gains from this integration. [Facets of a Harmony](#) Jan Ort, 2022-05-01 In this important contribution to contemporary Romani Studies, Jan Ort focuses his anthropological research on a village in eastern Slovakia with a reputation for the harmonious coexistence of its ethnically and linguistically heterogeneous populace. The author offers an ethnographic critique of this idyllic view, showing how historical shifts as well as the naturalization of inequality and hierarchies have led to the present situation; however, he also shows examples and methods of subversion and resistance to the village's current power dynamics. Based primarily on participant observation within Romani families, the author's long-term research results in a fascinating text replete with ethnographic descriptions that allow readers to understand local experiences, contexts and divisions. These insights about the village lead to the key question of the book: Who actually is a local? **The Cultural Economy of Protest in Post-Socialist European Union** Juraj Buzalka, 2020-09-22 Focusing on Slovakia and East Central Europe, this book examines the cultural economy of protest and considers how the origins of political movements, progressive and reactionary, derive from resilient agrarian features. It draws attention to how the legacy of rural socialist modernization influences contemporary politics and to the village version of fascism developing in the region. The chapters look at the interplay of post-peasant economic and political habits and representations as a result of state socialism and, with regard to the European project, as viewed through an ethnographic lens. Juraj Buzalka describes the bulk of Slovak citizens as post-socialist Europeans with a connection to the countryside who feel that this is where real power in society should be defined.

and based He also observes the politicians who are skillfully mobilizing post peasants while exploiting the political economic context of the European Union This volume will be relevant to scholars with an interest in European society and politics particularly protest and populism from disciplines including anthropology sociology political science and history *Roma Diplomacy* Valeriu Nicolae,Hannah Slavik,2007 Roma Diplomacy is an anthology of papers written or inspired by the DiploFoundation s 2005 2006 Roma Diplomacy project aimed at facilitating the creation of Roma public diplomats with the ability to bridge the gap between Roma civil society and governments European Union institutions The papers in this volume cover a wide range of topics from a consideration of what the term Roma Diplomacy means to research aimed at promoting awareness of the situation of Roma in different regions and countries Many of the papers offer recommendations for policymakers providing a strong starting point for the emergence of a Roma think tank one of the long term goals of the Roma Diplomacy project

Ritual Revitalisation After Socialism László Fosztó,2009 Although postsocialist Romania ranks as one of the most religious countries in Europe the role of religion in public life is relatively little understood This book investigates a village in Transylvania populated by members of two minority groups Hungarians and Roma Religion and ritual provide important resources for individuals and communities seeking to assert themselves publicly The need for public affirmation among minorities is acute but the forms of ritual they adopt differ Some groups are more receptive to the revival of communal rituals and traditions whereas for others revitalisation seems to be more effective when it is individually focused through conversion to Pentecostalism The book demonstrates that even within a small community different segments may opt for divergent forms of religious and cultural revival Whereas Calvinism relies on the affirmation of cultural values to mobilise the faithful Pentecostalism advocates a new form of moral personhood which is particularly attractive to Roma
