## Swamp Stomp:

**New Orleans** Michael Patrick Welch, 2014-02-10 Red beans and rice trad jazz and second lines are the Big Easy's calling cards but beyond where the carriage rides take you is a city brimming with genre defying music transnational cuisine and pockets of wild artistic locals that challenge preconceived notions of what it means to be New Orleans With a respectful nod to the traditional and a full embrace of the obscure New Orleans The Underground Guide is a resource for discovering the city as it really is as much brass bands and boas as it is bounce and bicycle tours From a speakeasy in the Bywater neighborhood to the delightfully sketchy vibe of St Roch Tavern lead author Michael Patrick Welch uncovers an unexpected tableau of musicians venues and novel ways to pass the bon temps Contents include but are not limited to where to get naked how to make the most of Mardi Gras according to banjo player Geoff Douville what to order from the delicious Slavic menu at Siberia where to find the New Orleans Giant Puppet Festival how to catch a performance by the New Movement comedy troupe where to rent a kayak and how to get in on the bed and beverage experience at the Royal Street Inn

**Challenging History** Leah Worthington, Rachel Clare Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage Challenging History through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories Challenging History invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship
