Swan On A Black Sea A Study In Automatic Writing The Cummins Willett Scripts:

Swan on a Black Sea Geraldine Cummins, 2013-05 *Swan on a Black Sea* is Geraldine Cummins final book which was first published in 1965 The book is an account an afterlife communication from the British suffragette and philanthropist Winifred Margaret Coombe Tennant who passed away in 1956 and first communicated with Cummins in 1957 Coombe Tennant communicated through Cummins using automatic writing the object being to let her sons know she was still very much alive in the spirit world The communications are made up of 40 scripts which were communicated between 1957 1960 Throughout her life Coombe Tennant was a talented medium but due to her professional and social standing she choose to keep her gift a secret from all but a handful of friends and anonymously she practiced her mediumship under the pseudonym Mrs Willet Her sitters included Sir Oliver Lodge the renowned British scientist who devoted much of his life to psychical research and a select number of senior members of the Society for Psychical Research Relaying her experiences as a travel writer might reporting back from a distant land she describes her ability to travel back and forth in time It s as if her physical life is a film and she is able to go into her film at any time or place and examine her physical life a life review or judgment some might conclude On October 29 1958 script 32 she addressed her skeptical son Henry who was still alive at the time and was finding it difficult to accept that his dead mother was communicating There is a dream sweetness about my present state or place Yet my environment is familiar and totally real I live in an existence in form both in human etheric forms and surroundings such as in outline nature and man provide Yet I can be of them and not of them I am not wedded to them or welded into them One s mind can govern and alter conditions in a manner not possible on earth That is if one exerts oneself makes an effort At present I am at home again in the long ago of Wales You remember my break in life through your father s death You may recall how I went to live in London in a flat All that period is not my present environment I am back again in my married life It is different though in appearance to my perceptions it is the same outer world of reason order and sensible arrangements But it is different humanly speaking I am much with Christopher who is a darling while your father pairs off with Daff That is a new experience to me What is novel also is that I appear to be in a kind of kindergarten and in my working hours I relive in memory what earth time has snatched away from me So in the study of memory I do not remain at Cadoxton I enter the film of past events and make excursions into different times in my past earth life so as to assimilate it The scripts are essentially an afterlife memoir of Winifred Coombe Tennant they provide a fascinating insight into her world beyond the grave and are essential reading for anyone interested in psychical research and life after death **Swan on a Black Sea**

Geraldine Cummins, 1965 **Swan on a Black Sea** Winifred Margaret Pearce-Serocold Coombe Tennant, 1970 *Swan on a Black Sea. A Study in Automatic Writing: the Cummins-Willett Scripts. (Communications from the Spirit of Mrs. Tennant.) Transmitted by Geraldine Cummins. Edited by Signe Toksvig. With a Foreword by C.D. Broad* Winifred Margaret Coombe TENNANT, 1965 **Swan on a Black Sea** Signe Toksvig, 1986 This remarkable collection of writings includes much correct

detailed and vivid information of the earth life and strong emotions of the formidable Mrs Willett She herself had been a directed writer for members of the Society for Physical Research who had themselves investigated communication with scientific rigour *Who Was Mrs Willett?* Chris Nunn,2013-05-01 Here is an account of mentality and human experience written for a multi disciplinary readership The focus is on how mind consciousness and selves inter relate extending into exploration of ideas about the nature of awareness and a search for relevant evidence Consciousness studies has reached something of a crossroads nowadays Computational approaches to mind and quantum consciousness theories have not lived up to early hopes Neuroscience has made huge strides in the last few years but is still nowhere near able to account for the existence of consciousness itself as opposed to being able to explain how some of its content gets there Philosophically there is lack of consensus over both the nature of consciousness and what questions we should be asking about it Chris Nunn s book surveys the current situation and argues that as far as mind is concerned we need to take the overall dynamics into consideration which include genetic environmental and social factors along with neurology He emphasizes the close links that exist between memory experience and personhood What emerges most strongly from this account is that answers to questions about the nature of consciousness are likely to depend on achieving a better understanding of the physics of time

Swan Peter Young,2008-03-15 In Swan Peter Young explores this animal s surprisingly complex natural history as well as giving equal treatment to the long and rich role of the swan in human culture from the Greek myth of Leda and the Swan to the bird s portrayal in sculpture furniture and brand name logos **Arthur Balfour's Ghosts** Trevor Hamilton,2018-01-02

This book tells the incredible story of the cross correspondence automatic writings described by one leading scholar of the field Alan Gauld as undoubtedly the most extensive the most complex and the most puzzling of all ostensible attempts by deceased persons to manifest purpose and in so doing to fulfil their overriding purpose of proving their survival It is an intensely personal and passionate story on so many levels May Lyttelton trying to convince her lover Arthur Balfour of her continued existence Myers with indomitable persistence trying to produce evidence to prove survival generally Gurney and Francis Balfour striving from beyond the grave to influence the birth of children who would work for world peace Gerald Balfour and his lover Winifred Coombe Tennant believing that their child Henry would be the Messianic leader of this group of children

Writing Double Bette London,2002-01-01 Although Roland Barthes and Michel Foucault announced the death of the author several decades ago critics have been slow to abandon the idea of the solitary writer Bette London maintains that this notion has blinded us to the reality that writing is seldom an individual activity and that it has led us to overlook both the frequency with which women authors have worked together and the significance of their collaborative undertakings as a form of professional activity In *Writing Double* the first full length treatment of women s literary partnerships she goes to the heart of issues surrounding authorial identity What is an author Which forms of authorship are sanctioned and which forms marginalized Which of these forms have particularly attracted women Such questions are central

to London's analysis of the challenge that women's literary collaboration presents to accepted notions of authorship. Focusing on British texts from the nineteenth and twentieth centuries she considers a fascinating variety of works by largely noncanonical and in some instances highly unconventional authors from the enormously popular novels composed by writing teams at the turn of the century to the Brontë juvenilia and the occult scripts of Georgie Yeats and W B Yeats to automatic writings produced by mediums purporting to be in communication with the spirit world.

The Idea of the Miraculous T C Williams, 1990-07-19 The Story of Jesus William H. Kautz, 2012-04-10 THE STORY OF JESUS AN INTUITIVE ANTHOLOGY

Many contemporary Christians suspect that there is more to Jesus and his enduring message than the little that has survived in historical writings and the legendary Christian tradition. This book offers a narrative account of Jesus' life from the perspective of twenty contemporary writers who have developed their natural intuitive abilities to an unusually high level. They are therefore able to bring forth new and detailed information not ordinarily accessible by historical or literary means. Some of them had demonstrated their unusual skill by probing deeply into the personal lives and minds of historical individuals other than Jesus while some had provided important and detailed technical information which was then verified scientifically. They apply their intuitive skills here to uncover fresh information about the man Jesus, his contemporaries and his extensive teachings which never found their way into the New Testament Gospels and related historical documents. These new findings offer a much richer view of the man himself than that available from traditional Christian sources. They also provide illuminating insights and a deep spiritual understanding of Jesus' original and hidden teachings. *The Story of Jesus* is essential reading for all inquirers and seekers into these hidden and previously lost portions of Christian spiritual history.

The Ashby

Guidebook for Study of the Paranormal Robert H. Ashby, 1987 Where are the Dead? Peter Moore, 2016-09-13

Where are the dead What are they doing What kind of a process is dying What relationships exist among the dead themselves and between the dead and those in the world they have left behind Modern philosophers argue that the idea of disembodied survival to which many believers pay lip service is incoherent and that there can be evidence neither for nor against something incoherent By contrast this book argues the idea of an embodied survival albeit a form of embodiment differing from our present embodiment makes perfect sense in itself and fits much better with the alleged evidence for post mortem survival Exploring post mortem survival Where are the Dead uses a variety of empirical data alongside mythological legendary and purely fictional material to illustrate how the less familiar idea of embodied post mortem survival might actually work in some real afterlife environment By asking questions about the nature and whereabouts of the afterlife and about what it might be like to be dead the book explores themes nowadays relatively neglected even in disciplines explicitly concerned with ideas about death dying and life after death
