Danewid,2023-11-30 What does freedom mean without and despite the state Ida Danewid argues that state power is central to racial capitalism's violent regimes of extraction and accumulation Tracing the global histories of four technologies of state violence policing bordering wastelanding and reproductive control she excavates an antipolitical archive of anarchism that stretches from the favelas of Rio de Janeiro to the borderlands of Europe the poisoned landscape of Ogoniland and the queer lifeworlds of Delhi Thinking with a rich set of scholars organisers and otherworldly dreamers Danewid theorises these modes of refusal as a utopian worldmaking project which seeks not just better ways of being governed but an end to governance in its entirety In a time where the state remains hegemonic across the Left Right political spectrum *Resisting Racial Capitalism* calls on us to dream bolder and better in order to unbuild the world anew *Gendering Struggles Against Informal and Precarious Work* Rina Agarwala,Jennifer Jihye Chun,2018-12-10 This volume examines how gender shapes the varying and intersecting dynamics of informal precarious worker struggles in two gender typed sectors domestic work and construction Drawing upon cases across the global North and South it explores how gender is intertwined into collective organizing efforts why gender is addressed and to what end *The Routledge Handbook of the Political Economy of Health and Healthcare* David Primrose,Rodney D. Loepky,Robin Chang,2024-02-28 This handbook provides a comprehensive and critical overview of the gamut of contemporary issues around health and healthcare from a political economy perspective Its

contributions present a unique challenge to prevailing economic accounts of health and healthcare which narrowly focus on individual behaviour and market processes. Instead, the capacity of the human body to reach its full potential and the ability of society to prevent disease and cure illness are demonstrated to be shaped by a broader array of political economic processes. The material conditions in which societies produce, distribute, exchange, consume and reproduce, and the operation of power relations therein, influence all elements of human health, from food consumption and workplace safety to inequality, healthcare and housing, and even the biophysical conditions in which humans live. This volume explores these concerns across five sections. First, it introduces and critically engages with a variety of established and cutting edge theoretical perspectives in political economy to conceptualise health and healthcare from neoclassical and behavioural economics to Marxist and feminist approaches. The next two sections extend these insights to evaluate the neoliberalisation of health and healthcare over the past 40 years, highlighting their individualisation and commodification by the capitalist state and powerful corporations. The fourth section examines the diverse manifestation of these dynamics across a range of geographical contexts. The volume concludes with a section devoted to outlining more progressive health and healthcare arrangements which transcend the limitations of both neoliberalism and capitalism. This volume will be an indispensable reference work for students and scholars of political economy, health policy and politics, health economics, health geography, the sociology of health, and other health related disciplines.

Beyond the Boycott Gay W. Seidman, 2007-09-13

As the world economy becomes increasingly integrated, companies can shift production to wherever wages are lowest and unions weakest. How can workers defend their rights in an era of mobile capital? With national governments forced to compete for foreign investment by rolling back legal protections for workers, fair trade advocates are enlisting consumers to put market pressure on companies to treat their workers fairly. In *Beyond the Boycott*, sociologist Gay Seidman asks whether this non-governmental approach can reverse the race to the bottom in global labor standards. *Beyond the Boycott* examines three campaigns in which activists successfully used the threat of a consumer boycott to pressure companies to accept voluntary codes of conduct and independent monitoring of work sites. The voluntary Sullivan Code required American corporations operating in apartheid-era South Africa to improve treatment of their workers. In India, the Rugmark inspection team provides social labels for handknotted carpets made without child labor. In Guatemala, COVERCO monitors conditions in factories producing clothing under contract for major American brands. Seidman compares these cases to explore the ingredients of successful campaigns as well as the inherent limitations facing voluntary monitoring schemes. Despite activists' emphasis on educating individual consumers to support ethical companies, Seidman finds that in practice they have been most successful when they mobilized institutions such as universities, churches, and shareholder organizations. Moreover, although activists tend to dismiss states' capabilities, all three cases involved governmental threats of

trade sanctions against companies and countries with poor labor records Finally Seidman points to an intractable difficulty of independent workplace monitoring since consumers rarely distinguish between monitoring schemes and labels companies can hand pick monitoring organizations selecting those with the lowest standards for working conditions and the least aggressive inspections Transnational consumer movements can increase the bargaining power of the global workforce Seidman argues but they cannot replace national governments or local campaigns to expand the meaning of citizenship As trade and capital move across borders in growing volume and with greater speed civil society and human rights movements are also becoming more global Highly original and thought provoking Beyond the Boycott vividly depicts the contemporary movement to humanize globalization its present and its possible future A Volume in the American Sociological Association s Rose Series in Sociology **The Oxford Handbook of Social Movements** Donatella della Porta, Mario Diani, 2015-10-29
