OECD Reviews on Foreign Direct Investment Organisation for Economic Co-operation and Development. Committee on Capital Movements and Invisible Transactions, Organisation for Economic Co-operation and Development. Committee on International Investment and Multinational Enterprises, 1993

Foreign Direct Investment and Corporate Networking Robert L. A. Morsink, 1998-01-01 This innovative book analyses the geographical patterns in foreign direct investment flows by combining elements from the theory of international production and the theory of economic geography It develops a model for explaining why foreign direct investment is attracted to certain locations Foreign Direct Investment and Corporate Networking will be of interest to economists working in the areas of international trade and investment economic geographers and corporate strategy advisors as well as to policy makers from government and non governmental organisations

Foreign Direct Investment Bijit Bora, 2002-08-08 Foreign Direct Investment examines the different approaches to explaining the growth and distribution of FDI in the world Pulling together contributions from an array of international experts this study combines theoretical with empirical work on issues such as computable general equilibrium modelling trade intellectual property environment I

Multinational Restructuring, Internationalization and Small Economies Thomas Andersson, Torbjorn Fredriksson, Roger Svensson, 2005-08-31 Much of the existing literature on multinational companies has been concerned with firms originating in the world's largest economies This book redresses the situation by presenting important information on the internationalization of a small country's industry Multinational Restructuring Internationalization and Small Economies goes beyond traditional studies of foreign direct investment By using detailed data covering practically all Swedish multinationals and more than two decades of expansion in international markets the authors describe interpret and analyse issues which are normally difficult to investigate

Topics in Empirical International Economics Magnus Blomstrom, Linda S. Goldberg, 2009-02-15 In this timely volume emanating from the National Bureau of Economic Research's program in international economics leading economists address recent developments in three important areas The first section of the book focuses on international comparisons of output and prices and includes papers that present new measures of product market integration new methodology to infer relative factor price changes from quantitative data and an ongoing capital stock measurement project The next section features articles on international trade including such significant issues as deterring child labor exploitation in developing countries exchange rate regimes and mapping U S comparative advantage across various factors The book concludes with research on multinational corporations and includes a discussion of the long debated issue of whether growth of production abroad substitutes for or is complementary to production growth at home The papers in the volume are dedicated to Robert E Lipsey who for more than a half century at the NBER contributed significantly to the broad field of empirical international economics

Renegotiating the Welfare State Gerhard Lehmbruch, Frans van Waarden, 2004-02-24 Why have some

countries have been more successful in welfare state reform than others This book examines the experiences of various countries in reforming their welfare states through renegotiations between the state and peak associations of employers and employees This corporatist concertation has been blamed for bringing about all the ills of the welfare state but lately corporate institutions have learned from their bad performances modified their structures and style of operation and assumed responsibility for welfare state reform Consensual bargaining is back on the agenda of both policy makers and of social science This topical volume with its internationally respected panel of contributors will appeal to all those interested in the welfare state and labour relations It includes chapters focusing on the Netherlands Austria Sweden Denmark Germany Switzerland and Ireland as well as a section looking at the role of corporatist concertation in the European Union
