Source Book in Ancient Philosophy Charles M. Bakewell, 2015-06-11 Excerpt from *Source Book in Ancient Philosophy* Every one who has attempted to introduce students to the study of Philosophy by way of its history must have felt the need of having in compact form the most significant documents upon which the interpretations of that history are based in order that it may be possible from the first to bring the student into direct contact with the sources so far at least as that may be done through the medium of translations The primary aim of this book is to supply this need It is intended to serve either as a companion volume to any History of Philosophy that may be adopted as a text book or as a substitute for such a history where the instructor may prefer through his own lectures to give his own interpretation of this philosophical movement It is hoped that the book may also as a reference work prove of value to students of philosophy generally as well as to all who are interested in the development of ancient thought No attempt has been made to make an exhaustive Source Book I have simply brought together the more significant passages from the earlier philosophers beginning with Thales and reaching as far as Plotinus The book includes most of the fragments of the earliest philosophers together with the passages from the secondary sources which are most important in throwing light upon these fragments About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Bakewell, 2014-03 This Is A New Release Of The Original 1907 Edition [Ancient Philosophy of the Self](#) Pauliina Remes, Juha Sihvola, 2008-08-26 Pauliina Remes and Juha Sihvola In the course of history

philosophers have given an impressive variety of answers to the question What is self Some of them have even argued that there is no such thing at all This volume explores the various ways in which selfhood was approached and conceptualised in antiquity How did the ancients understand what it is that I am fundamentally as an acting and affected subject interpreting the world around me being distinct from others like and unlike me The authors highlight the attempts in ancient philosophical sources to grasp the elusive character of the specifically human presence in the world They also describe how the ancient philosophers understood human agents as capable of causing changes and being affected in and by the world Attention will be paid to the various ways in which the ancients conceived of human beings as subjects of reasoning and action as well as responsible individuals in the moral sphere and in their relations to other people The themes of persistence identity self examination and self improvement recur in many of these essays The articles of the collection combine systematic and historical approaches to ancient sources that range from Socrates to Plotinus and Augustine Sources of Hermeneutics

Jean Grondin,1995-07-01 This book provides an introduction to the historical sources of philosophical hermeneutics as it has come to fruition in the work of Heidegger and Gadamer **Studies on Locke: Sources, Contemporaries, and Legacy** Sarah Hutton,Paul Schuurman,2008-09-16 John Cottingham In the anglophone philosophical world there has for some time been a curious relationship between the history of philosophy and contemporary philosophical inquiry Many philosophers working today virtually ignore the history of their subject apparently regarding it as an antiquarian pursuit with little relevance to their cutting edge research Conversely there are historians of philosophy who seldom if ever concern themselves with the intricate technical debates that fill the journals devoted to modern analytic philosophy Both sides are surely the poorer for this strange bifurcation For philosophy like all parts of our intellectual culture did not come into existence out of nowhere but was shaped and nurtured by a long tradition in uncovering the roots of that tradition we begin see current philosophical problems in a broader context and thereby enrich our understanding of their significance This is surely part of the justification for the practice in almost every university of including elements from the history of philosophy as a basic part of the undergraduate curriculum But understanding is enriched by looking forwards as well as backwards which is why a good historian of philosophy will not just be concerned with uncovering ancient ideas but will be constantly alert to how those ideas prefigure and anticipate later developments **Chinese and Indian Ways of Thinking in Early Modern European**

Philosophy Selusi Ambrogio,2020-11-12 Why were Chinese and Indian ways of thinking excluded from European philosophy in early modern times This is a study of what happened to the European understanding of China and India between the late 16th century and the first half of the 18th century Investigating the description of these two Asian civilizations during a century and a half of histories of philosophy this book accounts for the change of historiographical paradigms from Neoplatonic philosophia perennis and Spinozistic atheism to German Eclecticism Uncovering the reasons for inserting or excluding Chinese and Indian ways of thinking within the field of Philosophy in early modern times it reveals the origin of the

Eurocentric understanding of Philosophy as a Greek European prerogative By highlighting how this narrowing and exclusion of non Western ways of thought was a result of conviction of superiority and religious prejudice this book provides a new way of thinking about the place of Asian traditions among World philosophies

The Historiographical Concept 'System of Philosophy' Leo Catana, 2008-03-31 Jacob Brucker 1696 1770 established the history of philosophy as a philosophical discipline in the 1740s In order to separate this new discipline from other historical disciplines he introduced the historiographical concept system of philosophy The historian of philosophy should use this concept as a criterion of inclusion of past philosophies and as an ideal form of exposition The present book describes the origin of this historiographical notion its implicit Protestant assumptions and it traces the concept s impact upon the methods of history of philosophy and history of ideas as developed over the following centuries Finally it discusses the concept s strenghts and weaknesses as a historiographical tool arguing that it ought to be given up
