Soviet Type Economic Systems

Thomas A. Wolf

Soviet Type Economic Systems:

Soviet-type Economic Systems Z. Edward O'Relley, 1978 **Centralized and Decentralized Economic Systems**
Wayne A. Leeman, 1977 *Comparative Economic Systems: v. 1* Richard L. Carson, 2015-03-02 This book focuses on advanced market capitalism that examines the economies of the United States Japan France Sweden and Germany It represents an effort to analyze and understand economic systems by using the standard principles of supply demand and cost analysis along with property rights **Comparative Economic Systems** Richard L. Carson, 1990 First Published in 2017 Routledge is an imprint of Taylor Francis an Informa company *Comparative Economic Systems: v. 2* Richard L. Carson, 2017-07-28 *Comparative Economic Systems* is published in three editions one for each major part This is Part II and covers Socialist Alternatives looking at the Hungarian Economy the structure and trends of the Chinese economy the Yugoslav workers self management planning agriculture and foreign trade *China's Economy Looks Toward the Year 2000: The four modernizations*, 1986 *China's Economy Looks Toward the Year 2000*, 1986 **Economic Systems and Comparative Economics II** Thomas A. Wolf, 2001 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play s various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality *Mainland China* Yu-ming Shaw, 2019-04-05 Over the past several years Mainland China has undertaken reforms in various domestic areas including culture and society education the economy and the Communist Party In addition since September 1982 Peking has begun to pursue an independent course in foreign relations In this volume based on the Thirteenth Sino American Conference in Tai *Comparative Economic Systems*, This text explores the major topics in comparative economic systems Part I discusses property rights and the role of the state in the context of historical evaluation Part II examines the varieties of socialist systems with special attention to the Hungarian Yugoslav and Chinese cases and Part III presents the capitalist alternatives using Japan Sweden and West Germany as models *China's Economic Dilemmas in the 1990s* The Joint Economic Committee, 2016-09-16 Most students of contemporary China are familiar with the Joint Economic Committee studies on China which have appeared periodically since 1967 This is the most recent study in the series released in April 1991 This volume follows the format of the previous studies offering a broad sweep of its subject matter The 50 chapters contributed by Chinese scholars in government universities and private research centres are divided into five major parts Each section begins with an overview which summarises and comments on the main points in each of the chapters The volume offers a detailed examination of China s economy and the political and social factors currently facing the leadership in Beijing *China's Economic Future* Joint Economic Committee Congress of the United States, 2016-12-05 This is the latest Joint Economic Committee volume on the Chinese economy With the current state

of US China relations and Hong Kong's accession in 1997 the study should provide policy makers in the USA with a useful tool in guiding economic policy toward China *Economic Dimensions in International Law* Jagdeep S. Bhandari, Alan O. Sykes, 1997 Each of the chapters was presented at a conference in the spring of 1995 sponsored by Duquesne University and George Mason University Pref **China's Economic Dilemmas in the 1990s** United States. Congress. Joint Economic Committee, 1992 Costs and Benefits of Interdependence A Net Assessment *China's Economic Dilemmas in the 1990s*, 1991 Comparative Economic Systems A. Zimbalist, 2012-12-06 3 edge methods and theory I turn now to some of my own reflections on this score Some Reflections My first proposition is that if we are interested in analyzing the performance and dynamic properties of the world's economies it is only at significant peril that comparative economists can overlook noneconomic or political factors This is not to say that it is illegitimate to abstract from non economic factors for particular purposes rather such abstraction should occur only with cognizance of the influences being suppressed I have argued elsewhere that the analytical compromise in suppressing noneconomic variables is greater for the study of planned than for market economies 7 Borrowing from Polanyi 8 it is claimed that in market systems the economic sphere is disembedded from separate and not subordinate to the political social and cultural spheres while in planned systems the economic sphere is embedded in the noneconomic spheres To be sure market economies are strongly affected by political and cultural factors but planned economies have and often exercise the potential to let political goals dominate in making production allocational or distributional choices Indeed it is difficult in practice to separate out what are political and what are economic decisions in planned systems The Economics of Property Rights S. Pejovich, 2007-08-20 To understand recent developments in Eastern Europe requires a method of analysis that is capable of internalizing into a theoretical framework i the logical premises deduced from the costs of transactions and incentive structures generated by various institutions and ii the evidence for refutable implications of those premises The economics of property rights is such a theory It expands the scope of the ability of economic analysis to explain a wide range of institutional structures and provides empirical corroboration of its logical implications The economics of property rights is then an effective scholarly instrument that offers more significant understanding of the three current issues in the area of comparative economic studies i evaluating the performance of alternative institutional arrangements ii explaining the failure of socialist institutions in Eastern Europe and iii identifying the costs political as well as economic of institutional reforms in that part of the world In that sense the book is both timely and relevant In the late 1980s East Europeans crossed the threshold of fear and forced their leaders to abandon Marxism With that theory of history dead and buried the cost of current sacrifices in the pursuit of socialism has risen relative to the present value of its expected future benefits **Towards a Well-functioning Economy** Louis Haddad, 2002-04-26 Although this book is primarily about economics non economic considerations including political and ethical are brought into the analysis The most important decisions in life include choices between economic and non economic issues Hence one of the

aims of this book is to provide a conceptual framework to cope with these choices

Economic Analysis of the Soviet-Type System Judith Thornton, 1976-08-05 Economics textbook presenting a formal description and economic analysis of the centrally planned economy of the type of the USSR economic system provides a representative survey of the main applications and techniques of national planning pertinent to the centralization type of planning and economic modelling etc Flow charts graphs references and statistical tables

Privatisation and Development Claude V. Chang, 2017-11-28 The book interrogates privatisation in terms of its effectiveness vis vis its stated goals and more fundamentally in terms of its success in delivering economic development It investigates why privatisation was successful in the UK and other OECD countries and why it has not met with equal success in developing countries In this regard it further examines the policy prescriptions of the IMF and World Bank in relation to the conceptualised benefits and theoretical assumptions underlying these supposed benefits The author assesses the extent to which culture and customs indeed the mode of production stand in determinate relationship to the goals techniques and outcome of the process Furthermore Chang examines the degree to which socioeconomic and moral consequences of privatisation have been ignored in pursuit of the ideological imperative implicit in the Washington Consensus Hence the book contributes to the reflective thought that must necessarily be part of theory validation and provides the basis for a balanced and empirically valid theory of privatisation
