### **Russian Literary Culture in the Camera Age**

Stephen Hutchings, 2004-06-02 This book explores how one of the world's most literary oriented societies entered the modern visual era beginning with the advent of photography in the nineteenth century focusing then on literature's role in helping to shape cinema as a tool of official totalitarian culture during the Soviet period and concluding with an examination of post Soviet Russia's encounter with global television As well as pioneering the exploration of this important new area in Slavic Studies the book illuminates aspects of cultural theory by investigating how the Russian case affects general notions of literature's fate within post literate culture the ramifications of communism's fall for media globalization and the applicability of text image models to problems of intercultural change

**Russia's Carnival** Christoph Neidhart, 2003 This colorfully drawn and acutely observed book explores Russia by engaging all our senses Today's Russia smells different from the Soviet Union The country looks and sounds different its touch is different and its food tastes different Thus

Christoph Neidhart argues Russia is truly a changed country from the Soviet Union it was little more than a decade ago Russian society is rapidly urbanizing and modernizing as can be perceived by all senses including the awareness of space and the conception of time After almost a century space can be privately owned and freely traded time too has become commodified New role models and new ways to express social status are emerging Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete Russia thus readies itself gradually to grow into a Western style middle class society with a free market and democratic polity The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of the Communist structure of society He explores the transition s traps and shortcomings such as the privatization of politics and the looting of the state s assets and compares this process to the modernization Western society underwent a century earlier

**When Art Makes News** Katia Dianina, 2012-11-15 From the time the word *kultura* entered the Russian language in the early nineteenth century Russian arts and letters have thrived on controversy At any given time several versions of culture have coexisted in the Russian public sphere The question of what makes something or someone distinctly Russian was at the core of cultural debates in nineteenth century Russia and continues to preoccupy Russian society to the present day *When Art Makes News* examines the development of a public discourse on national self representation in nineteenth century Russia as it was styled by the visual arts and popular journalism Katia Dianina tells the story of the missing link between high art and public culture revealing that art became the talk of the nation in the second half of the nineteenth century in the pages of mass circulation press At the heart of Dianina s study is a paradox how did culture become the national idea in a country where few were educated enough to appreciate it Dianina questions the traditional assumptions that culture in tsarist Russia was built primarily from the top down and classical literature alone was responsible for imagining the national community *When Art Makes News* will appeal to all those interested in Russian culture as well as scholars and students in museum and exhibition studies

**Russia's Legal Fictions** Harriet Murav, 2010-05-18 Legal scholars and literary critics have shown the significance of storytelling not only as part of the courtroom procedure but as part of the very foundation of law Russia s *Legal Fictions* examines the relationship between law narrative and authority in nineteenth and twentieth century Russia The conflict between the Russian writer and the law is a well known feature of Russian literary life in the past two centuries With one exception the authors discussed in this book Sukhovo Kobylin Akhsharumov Suvorin and Dostoevsky in the nineteenth century and Solzhenitsyn and Siniavskii in the twentieth were all put on trial In Russia s *Legal Fictions* Harriet Murav starts with the authors own writings about their experience with law and explores the history of these Russian literary trials including censorship libel cases and one case of murder in their specific historical context showing how particular aspects of the culture of the time relate to the case The book explores the specifically Russian literary and political conditions in which writers claim the authority not only as the authors of fiction but as lawgivers in the realm of the real and in which the

government turns to the realm of the literary to exercise its power The author uses specific aspects of Russian culture history and literature to consider broader theoretical questions about the relationship between law narrative and authority Murav offers a history of the reception of the jury trial and the development of a professional bar in late Imperial Russia as well as an exploration of theories of criminality sexuality punishment and rehabilitation in Imperial and Soviet Russia This book will be of interest to scholars of law and literature and Russian law history and culture Harriet Murav is Associate Professor of Russian and Comparative Literature University of California at Davis *Contemporary Russian Cinema* Vlad

*Television and Culture in Putin's Russia* Stephen Hutchings, Natalia Rulyova, 2009-06-02 This book examines television culture in Russia under the government of Vladimir Putin In recent years the growing influx into Russian television of globally mediated genres and formats has coincided with a decline in media freedom and a ratcheting up of government control over the content style of television programmes All three national channels First Russia NTV have fallen victim to Putin's power obsessed regime Journalists critical of his Chechnya policy have been subject to harassment and arrest programmes courting political controversy such as Savik Shuster's Freedom of Speech Svoboda slova have been taken off the air coverage of national holidays like Victory Day has witnessed a return of Soviet style bombast and reporting on crises such as the Beslan tragedy is severely curtailed The book demonstrates how broadcasters have been enlisted in support of a transparent effort to install a latter day version of imperial pride in Russian military achievements at the centre of a national identity project over which from the depths of the Kremlin Putin's government exerts a form of remote control However central to the book's argument is the notion that because of the changes wrought upon Russian society after 1985 a blanket return to the totalitarianism of the Soviet media has notwithstanding the tenor of much western reporting on the issue not occurred Despite the fact that television is nominally under state control that control remains remote and less than wholly effective as amply demonstrated in the audience research conducted for the book and in analysis of contradictions at the textual level Overall this book provides a fascinating account of the role of television under President Putin and will be of interest to all those wishing to understand contemporary Russian society

Nikita Mikhalkov Birgit Beumers, 2004-11-26 Adored by Russian audiences for his commercially oriented films and loathed by the Russian intelligentsia for the same Nikita

Mikhalkov is one of the most successful ambitious and controversial film directors in the history of Soviet and Russian cinema. Revealing and discussing the key themes explored in his work, Birgit Beumers follows his career from his 1974 debut *At Home Among Strangers* to *a Stranger at Home* through to the French co-productions, the award-winning *Urga* and the internationally renowned Oscar-winning *Burnt by the Sun* (1994). **Remains of Socialism** Maya Nadkarni, 2020-07-15. In *Remains of Socialism*, Maya Nadkarni investigates the changing fates of the socialist past in postsocialist Hungary. She introduces the concept of remains, both physical objects and cultural remainders, to analyze all that Hungarians sought to leave behind after the end of state socialism. Spanning more than two decades of postsocialist transformation, *Remains of Socialism* follows Hungary from the optimism of the early years of transition to its recent right-wing turn toward illiberal democracy. Nadkarni analyzes remains that range from exiled statues of Lenin to the socialist-era Bambi soda and from discredited official histories to the scandalous secrets of the communist regime's informers. She deftly demonstrates that these remains were far more than simply the leftovers of an unwanted past. Ultimately, the struggles to define remains of socialism and settle their fates would represent attempts to determine the future and to mourn futures that never materialized. Sociolinguistics Ulrich Ammon, 2005.
