Soviet Politics Continuity And Contradiction:

Soviet Politics Gordon B. Smith,1988 *Developments in Soviet Politics* Stephen White,Alex Pravda,Zvi Gitelman,1990-07-06 Written by a team of leading scholars this book meets the need for an up to date account on the political system and policy progress which is emerging and an analysis of the future prospects of the Gorbachev revolution

The Totalitarian Paradigm after the End of Communism ,2022-06-08 Concepts of totalitarianism have undergone an academic revival in recent years particularly since the breakdown of communist systems in Europe in 1989 91 the totalitarian paradigm so it seems to many scholars today had been discarded prematurely in the heat of the Cold War The demise of communism as a social system is however not only an important cause of the recurring attractiveness of the totalitarian paradigm but provides at the same time new evidence and correspondingly new problems of explanation for all approaches in communist studies and totalitarianism theory in particular This book contains articles by philosophers social scientists and historians who reassess the validity of the totalitarian approach in the light of the recent historical developments in Eastern Europe A first group of authors focus on the analytical usefulness and explanatory power of classic concepts of totalitarianism after having observed the failed reforms of the Gorbachev era and the collapse of Europe s communist systems in 1989 91 In these contributions the totalitarian paradigm is contrasted with other approaches with respect to cognitive power as well as normative implications In the second group of contributions the focus is on the reassessment of methodological and theoretical problems of the classic concepts of totalitarianism The authors attempt to reinterpret the classic concepts so as to meet the objections which have been put forward against those concepts during the last decades The study thereby traces some of the intellectual roots of the totalitarian paradigm that precede the outbreak of the Cold War such as the work of Sigmund Neumann and Franz Borkenau It also focuses on the most famous authors in the field Hannah Arendt and Carl Joachim Friedrich In addition it discusses theorists of totalitarianism like Juan Linz whose contributions to totalitarianism theory have too often been overlooked *Politics, Society, And Nationality Inside*

Gorbachev's Russia Seweryn Bialer,2019-06-04 The East West Forum is a New York based research and policy analysis organization sponsored by the Samuel Bronfman Foundation Its goal is to bring together experts and policy leaders from differing perspectives and generations to discuss changing patterns of East West relations It attempts to formulate long term analyses and recommendations In p **Crime and Punishment in Soviet Officialdom** William A. Clark,1993 An analysis of political corruption and attempts to battle it in the Soviet elite without the usual baggage of moral indignation and finger pointing Examines how corruption fit into the structure of the bureaucracy and the society attitudes toward it data on its prevalence the politics and methods of combating it and the future of reform in the successor states Paper edition unseen 16 50 Annotation copyright by Book News Inc Portland OR **Political Systems Of The World** , *Formalism, Decisionism and Conservatism in Russian Law* Mikhail Antonov,2020-11-09 This volume examines the elements of formalism and

decisionism in Russian legal thinking and also the impact of conservatism on the interplay of these elements The actual conservative narratives about the distinctiveness of Russian law reveal certain features of the intellectual culture that is transmitted in legal education scholarship and practice These narratives are based on the idea of sovereignty understood as legal omnipotence of the state References to sovereignty justify the requirement of legality in the sense of fidelity to the letter of the law They also often serve as a rationale for crafting exceptions to constitutional non discrimination principles as they are applied to political religious sexual and other minorities

Problems of Communism ,1987 **Purity and Compromise in the Soviet Party-State** Daniel Stotland,2017-11-15 This work offers new ways of conceptualizing the decision making paradigm of the Soviet party state that was defined by the persistent shortage of qualified manpower that afflicted the Russian elite The traditional Russian problems of under administration combined with the unique features of the Soviet political system resulted in a dichotomy between practical and ideological demands The WWII era examined in this book provides a microcosm of pressures facing the Kremlin and illustrates the cyclical nature of policy formation forced on it by the paradoxes of the system As the party s responsibilities expanded into specialized economic and military areas political experts increasingly depended on the specialized professionals These trends grew increased drastically during the war An unexpected consequence of the party s expansion into economic or military professions was the discovery that cooptation worked both ways and many party members become managers rather than ideological overseers Throughout the existential crisis of the system the war and its aftermath the party would find itself in a fundamental conflict over its identity challenged over its role both vis a vis the state and its own priorities After an abortive attempt to reverse the wartime trends a new paradigm was articulated by the party during the last five years of Stalin s reign This resulted in the emergence of a new elite consensus which envisioned the party as integral and invasive economic actor This shift in the party s identity was the price of maintaining centralized political power and came at the expense of the focus on ideological purity In the long term however the diminished role of ideology robbed the party of its core value system and steadily eroded its legitimizing and self energizing power Over time the new consensus would undermine the very foundations of the party state construct Yet if the USSR was to survive as a modern industrialized state the accommodation with the technocrats was necessary The contradiction between ideological and pragmatic aims was inherent to the system and demanded an eventual choice between the long term health of the state and that of the party

The Politico-Legal Dynamics of Judicial Review Theunis Roux,2018-09-06 Provides a comparative analysis of the ideational dimension of judicial review and its potential contribution to democratic governance

A Soviet Postmortem Sigmund Krancberg,1994 In the wake of the Soviet Union s collapse it has become apparent that Sovietology failed with a few praiseworthy exceptions to understand the nature and fragility of the Soviet system A Soviet Postmortem sets the Soviet experiment in a more realistic perspective Krancberg emphasizes the importance of Marxist Leninist ideology in formulating sociopolitical norms imposed on society by the Communist Party of

the Soviet Union Analyzing the realities of the Soviet regime the author reveals the extent to which Soviet political culture was an artificial imposition with only slender roots in the life of Soviet society

Civil Society and the Search for Justice in Russia Christopher Marsh,Nikolas K. Gvosdev,2002-01-01 More than a decade has passed since path breaking policies aimed at liberalizing post Soviet society were first introduced in Russia Today these promises of freedom equality and justice remain largely unfulfilled and Russia s political system continues to exhibit signs of the deep rooted problems that may well retard if not completely derail any possibility of future reform Against this stark background Civil Society and the Search for Justice in Russia explores the various dimensions of Russia s civil society the meaning of and search for justice the role of the Orthodox church as a principal unifier in civil society the need for new freedoms for women and ethnic minorities and the role of mass education and the free press in inculcating and articulating new civic values Expertly blending the historical with the theoretical the recent with the empirical this work offers new insight and analysis into the ability of a nascent Russian civil society to engage effectively with the twenty first century Russian state to ensure social religious and political justice

The European Mosaic David Gowland,Richard Dunphy,Charlotte Lythe,2014-01-14 The European Mosaic is an up to date introduction to all aspects of the politics economics culture and recent history of the European Union in particular and Europe in general The European Mosaic effectively familiarizes students with EU issues that are currently in the news and likely to remain so for the foreseeable future It is a clear and accessible introduction to the European polity Its strongly interdisciplinary focus provides a multidimensional understanding of contemporary Europe of the process of European integration and of the dynamics of the European Union Suitable for undergraduate courses in European politics

The Receding Shadow of the Prophet Ray Takeyh,Nikolas K. Gvosdev,2004-06-30 The tragic events of September 11 2001 in the United States renewed fears of an Islamist wave destabilizing the countries of the Muslim world Yet the alarm raised over a previous wave of Islamism in the early 1990s which threatened to overwhelm Egypt and Algeria and spill into the Balkans and Central Asia proved to be unfounded Takeyh and Gvosdev assert that while Islamism has been successful as an oppositional ideology of wrath it has failed to provide Islamic societies with any feasible alternative to undertaking fundamental political and economic reforms By detailing the defeat of Islamist movements in the Middle East the Balkans and Central Asia over the last decade this book encourages us not to overestimate the Islamist threat in the current climate

and the years to come Radical Islamists have been successful in mobilizing opposition to corrupt regimes yet they have failed to translate their utopian vision into reality Furthermore their emphasis on violence alienates and frightens the middle class and other potential allies Iran's revolution failed to create a model Islamic republic and its government is increasingly losing legitimacy to demands for genuine democracy Islamist governments in Afghanistan and Sudan relied upon violence to remain in power and ultimately collapsed Islamist movements proved unable to dislodge the existing regimes in Egypt and Algeria In the Balkans and Central Asia Islamism has had little attraction for Western oriented populations Indeed throughout the entire Islamic world former radicals are seeking a new accommodation between Islamic values and liberal democracy Takeyh and Gvosdev succinctly and accessibly explore the rise of radical Islam as well as its ultimate demise in various nations

Ibss: Political Science: 1988 British Library of Political and Economic Science,1992 This bibliography lists the most important works in political science published in 1988 Politics, Modernisation and Educational Reform in Russia David Johnson,2010-05-17 The chapters in this volume give an account of the process of modernisation and educational reform in Russia variously considering the cultural and political dilemmas provoked by democratisation the structural and policy challenges associated with the reform of higher and vocational education and the deep divisions exposed as socio cultural activity is brought into alignment with the new discourse of freedom and choice The volume stimulates an important debate about the methods that inform cross national and cross regional work on educational change This is particularly salient in a study of educational reform in Russia and begs the question whose way of thinking of constructing meaning and of experiencing the world is used to judge the weight and the direction of change Each chapter shows that a thorough understanding of the nature of change and the direction of reform is only achieved through the ability to decentre or take on board the other worldview It argues therefore that it is worldview rather than culture or nation state that is the most valid unit of analysis This book pays tribute to K D Ushinsky 1824-70 the Russian pioneer of comparative education each chapter in it broadly in agreement with his conclusions that Public education does not solve the problems of life by itself it does not lead history rather it follows the historical development It is not the pedagogies or the teachers who create the future but the people themselves and their great men Education only follows this road and in combination with other public social factors helps the individual and the rising generation on its way *States And Markets* Guoli Liu,2019-06-21 Initial excitement in the West over the reform of Soviet communism under Gorbachev and then euphoria over the disintegration of the USSR have now been replaced by concern controversy and sometimes despair over prospects for democracy and a market economy in the countries of the former Soviet Union Despair is reflected in the popular joke that the transition from a communist centrally planned economy to a capitalist market economy is like the transition from fish soup to an aquarium Only time will tell if the aquarium analogy holds water Meanwhile as policy makers in Russia and elsewhere in the former Soviet Union grapple with strategies tactics and details scholars and policy advisors continue to debate questions of sequence timing and
