## **Soviet Strategy And Islam:**

Soviet Strategy and Islam Alexandre A. Bennigsen, 1989-06-18 A study of the origins evolution and current state of the Soviet use of its official Islamic establishment as a means of increasing its influence among Muslim elites in the Islamic world especially in the Persian Gulf Case studies and recommendations for US policy are included Soviet Strategy and Islam Alexandre Bennigsen, 1989 **The Soviet Legacy in Central Asia** J. Glenn, 1999-08-05 This book analyses the new pattern of security concerns of the Central Asian successor states This region is said to encompass Kazakhstan Uzbekistan Tadzhikistan Kirghizstan and Turkmenistan The main contention of the book is that the security problems of these states are similar to those that faced other Third World countries after they attained independence That is due to the arbitrary creation of these states by external powers they lack a certain degree of societal cohesiveness arising from the fact that several ethnic communities reside within their borders It is this so called insecurity dilemma of each of the Central Asian states that is therefore examined *The Islamic Threat to the Soviet State (Routledge Revivals)* Alexandre Bennigsen, Marie Broxup, 2014-06-03 First published in 1983 this book traces the historical and cultural development of the Soviet Muslim population Going back to the Mongol Empire and the Russian conquest of Muslim lands under the Tsars it demonstrates how the present Soviet Islamic culture has emerged It also examines how Soviet Muslims interact with the Muslim world abroad and how Soviet Muftis have been used as ambassadors of the USSR in Muslim countries **Soviet Strategy in the Middle East** George W. Breslauer, 2015-07-16 Few regions of the world are as politically turbulent as the Middle East and nowhere is the potential for superpower conflict greater How does the Soviet Union view the Middle east conflict Can the USSR play a constructive role in the peace process In this volume first published in 1990 these questions and others central to an understanding of Soviet strategy in the region are addressed Previous analysts of Soviet Middle Eastern relations have tended to emphasize either the cooperative or the competitive aspects of Soviet behaviour Breslauer instead offers the multidimensional concept of collaborative competition to describe the mixed motives ambivalence and sometimes conflicting perspectives that have informed Soviet strategy in the region In such an unstable environment this strategy of collaborative competition has in turn encouraged approach avoidance behaviour for example while the Soviets may seek to moderate their radical allies they remain fearful that these allies once moderated might defect to US patronage Under Gorbachev the Kremlin continues to pursue this same strategy but with increased attention to improving collaboration redefining the nature of the competition and easing the approach avoidance dilemma Breslauer argues that these changes could lead to more flexible Soviet behaviour in the region This volume combines new in depth research on Soviet policy with new interpretations including insights drawn from relevant theories of international relations **Islam and Nazi Germany's War** David Motadel, 2014-11-30 With troops fighting in regions populated by Muslims from the Sahara to the Caucasus Nazi officials saw Islam as a powerful force with the same enemies as Germany the British Empire the Soviet Union and the Jews David

Motadel provides the first comprehensive account of Berlin's ambitious attempts to build an alliance with the Islamic world

Post-Communist Countries Greg Simons, David Westerlund, 2016-03-03 The increasing significance and visibility of relationships between religion and public arenas and institutions following the fall of communism in Europe provide the core focus of this fascinating book Leading international scholars consider the religious and political role of Christian Orthodoxy in the Russian Federation Romania Georgia and Ukraine alongside the revival of old indigenous religions often referred to as shamanistic and look at how despite Islam's long history and many adherents in the south Islamophobic attitudes have increasingly been added to traditional anti Semitic anti Western or anti liberal elements of Russian nationalism Contrasts between the church's position in the post communist nation building process of secular Estonia with its role in predominantly Catholic Poland are also explored Religion Politics and Nation Building in Post Communist Countries gives a broad overview

**The Criminal-Terror Nexus in Chechnya** Jeff Meyers,2017-04-12 The line between criminal and terrorist groups is often blurred and Chechen groups are an excellent example of this new phenomenon As the Soviet Union collapsed groups began to fill the cracks offering services that the state could not The Chechens were one group that outrivaled many groups and they soon became synonymous throughout the Russian Federation with criminal This work looks into the historical social and religious reasons behind the rise of militant Islam in the region From there it will discuss the historical difference between organized crime

and terror how the two have coalesced into the crime terror nexus and how the Chechens compare to two other groups that have gone through the same evolution The Sicilian mafia and the militant Islamic Movement of Uzbekistan or IMU Though neither group are exactly the same there are links that can help the reader understand the domestic and foreign problems that twenty first century nation states deal with throughout the world Qur'an Translations in the Eastern Bloc and Beyond Elvira Kulieva,Johanna Pink,Mykhaylo Yakubovych,2025-05-21 This book offers the first comprehensive exploration of Qur an translations across the diverse landscapes of the former Eastern Bloc from Uzbekistan to the German Democratic Republic With a focus on how Islamic texts have been shaped by state policies ideological shifts and religious identities it traces connections between these regions and the wider world including Saudi Arabia Turkey and China This volume draws on perspectives from both Sunni and Shia traditions as well as contributions by non Muslim scholars Through archival research and close textual analysis the contributors demonstrate how translations of the Qur an have served not only as religious texts but also as reflections of profound transformations in national and religious identities in communist and post communist societies Qur an translations have gained prominence within the modern Muslim publishing world and their analysis reveals a dynamic interplay between local politics and global Islamic discourse They have become symbols of religious resurgence cultural renewal and intellectual exchange but also objects of persecution and contestation Based on multilingual sources this collection is an essential resource for understanding Qur an translations as a significant scholarly and cultural phenomenon in the modern era **The Soviet Union** ,1986 **Islam in Politics in Russia and Central Asia** Stephane A. intended to reflect on the role of Central Asian Survey in the development of Central Asian studies but also the aim is for the volume to be used as a teaching resource where the different sections in the collection could correlate to specific teaching weeks in courses on the region. The different contributions cover many case studies from across a range of countries that have featured in the journal over the years and thus is not just restricted to the Central Asian republics but also includes Mongolia, Azerbaijan and Xinjiang. This book will serve as a great resource for researchers and students of Central Asian history, politics, culture, society and international relations. Russian Peacekeeping Strategies in the CIS D.

Lynch, 1999-10-27. Peacekeeping operations have become a central issue in international relations since the end of the Cold War. This work underlines the mixture of defensive and offensive stimuli driving Russian peacekeeping strategies and highlights the dangers that the new Russian Federation faces in undertaking these operations. **The Demise of the**

**Soviet Union** Jan Hallenberg, 2018-05-08. This title was first published in 2002. Designed as a research text for academics in higher education and interested practitioners, this volume weaves together an original strand of international relations theory with key empirical case studies of the United States, United Kingdom, France and Sweden and their attitudes towards the Soviet Union. Original in nature and composition, the book deals with aspects of predictability in foreign policy and gauges the level of impact that international events have on domestic levels of awareness. The hypothesis and the typology are solid, giving the book its strong analytical structure. In sum, this book is cutting edge. It will be of great use as a research text to those studying the countries of Western Europe and also those with an interest in Russia and the Soviet Union. Given its strong theoretical content and its choices of case study, this cross-disciplinary text is also suitable for area studies in general.
