Soviet Briefing Ben Eklof, 2019-06-04 In writing this book I incurred a number of debts which I now gratefully acknowledge. During a year at the Kennan Institute for Advanced Russian Studies in the Wilson Center of the Smithsonian Institution I attended many seminars and discussions on current events. In one way or another the ideas, information, and debates that took place during my stay contributed to my opinions and shaped the direction of my research. Unfortunately I cannot list all the names of those from whom I benefited. The Kennan Institute itself provided a stimulating and supportive environment for my work. I am especially thankful to Peter Reddaway and Ted Taranovski for all they have done. *A History of the Soviet Union, 1945-1991* John L. H. Keep, 2002 Described as one of the most tragic human experiences in human history, the Soviet Union as an empire holds

much intrigue and fascination for the Western world. It held unquestionable status as an empire with its coverage of over 100 nationalities. Its status as the Last of the Empires depends on what the future may hold, but any future empires will undoubtedly be based on intellectual and institutional foundations far different from those developed during the Soviet era. Here John Keep presents the narrative history of the USSR from the last years of Stalin to the checkered fate of Gorbachev's reform policies and the ultimate collapse of the empire under manifold centrifugal pressures. Focusing upon political, economic, social, and cultural developments, the book is divided into four parts: the last years of Stalin, Nikita Khrushchev's abortive attempts to reform Communist rule, the years 1964-1985 covered largely by Brezhnev's long tenure of power, and lastly Gorbachev's abortive attempts to promote a reformed democratic communism. *Russia, Ukraine, and the Breakup of the Soviet Union* Roman Szporluk, 2020-02-24. This book chronicles the final two decades in the history of the Soviet Union and presents a story that is often lost in the standard interpretations of the collapse of communism in Eastern Europe and the USSR. Although there were numerous reasons for the collapse of communism, it did not happen as it may have seemed to some overnight. Indeed, says Roman Szporluk, the root causes go back even earlier than 1917. To understand why the USSR broke up the way it did, it is necessary to understand the relationship between the two most important nations of the USSR, Russia and Ukraine, during the Soviet period and before, as well as the parallel but interrelated processes of nation formation in both states. Szporluk details a number of often overlooked factors leading to the USSR's fall: how the processes of Russian identity formation were not completed by the time of the communist takeover in 1917; the unification of Ukraine in 1939-1945 and the Soviet period failing to find a resolution of the question of Russian-Ukrainian relations. The present-day conflict in the Caucasus, he asserts, is a sign that the problems of Russian identity remain. **Soviet Science on the Edge of Reform** Harley D. Balzer, 2019-06-04. It is my sincere hope that the reforms currently being introduced in the USSR will render much of this book obsolete. Yet even if perestroika brings significant change to the Soviet Union, historians will want a record of what existed before. After four years, it has become apparent that perestroika is a painful long-term process. In such a large and diverse country, even the reforms that are successful cannot take place everywhere at once. One major goal in publishing this book is to make data from a major interview project on Soviet science and technology available to a broader audience. Despite the changes taking place, many of the features illuminated by these unique data persist. *Decline of the Soviet Union. Economic and political reasons for the dissolution of an empire* Neno Gabelia, 2017-01-05. The book *Decline Of The Soviet Union and Political Reasons For The Dissolution of an Empire* consequences of a new political and economic order is an attempt to seek the roots of our ambivalence toward Russia and of Russians' ambivalence toward their own country. It focuses on the variety of identities which Russia has assumed over the centuries. The aim of this book is to provide a basis for analyzing and understanding the aspects of existence of the Soviet Union, the reasons of her collapse, and the perspectives that Russia has today. The disintegration of the Soviet Union has left Russia searching for a new basis for its security policy and

grappling with the question of whether Russia is a superpower or just a regional great power This book also explores several lines of thought in respect to Georgia's independence both its frustrated attempt in 1918 and its recent successful transition to independence because of the collapse of the Soviet Union Nothing said here is intended as a definitive judgment The purpose of the book is to stimulate discussion debate and reflection *Bulletin of the Atomic Scientists*, 1985-03 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Bulletin of the Atomic Scientists*, 1984-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Air university review*, 1976, 1976 **Bulletin of the Atomic Scientists**, 1985-01 *Bulletin of the Atomic Scientists*, 1984-11 *Bulletin of the Atomic Scientists*, 1984-08 **Bulletin of the Atomic Scientists**, 1985-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Air University Review*, 1986 **Bulletin of the Atomic Scientists**, 1984-10 *The Nationalities Factor In Soviet Politics And Society* Lubomyr Hajda, Mark Beissinger, 2019-06-21 The editors express their gratitude to the John M Olin Foundation for its financial assistance and to the Harvard University Russian Research Center for the facilities and staff support that made this project possible We wish to thank those who contributed their invaluable scholarly advice including Vernon Aspaturian Abram Bergson Steven Blank Walker Connor Robert Conquest Murray Feshbach Erich Goldhagen Richard Pipes and Marc Raeff We gratefully acknowledge the assistance of Barbara A Anderson and Brian D Silver with Soviet demographic data used throughout the volume Susan Zayer and Karen Taylor Brovkin provided able administrative help For skillful technical assistance with the manuscript we are indebted to Jane Prokop Elizabeth Taylor and Alison Koff Catherine Reed Susan Gardos Bleich Christine Porto and Alex Sich helped generously in diverse ways Finally the editors profited at every stage from the congenial working atmosphere and the encouragement of colleagues at the Russian Research Center too numerous to mention To all of them goes our deep appreciation
