Space Junk Judy Donnelly, Sydelle Kramer, 1990 Discusses the miscellaneous junk floating in space how it got there what effects it can have and what can be done about it **On the Edge of Earth** Steven Lambakis, 2013-12-06 For millennia the rituals of death and remembrance have been fixed by time and location but in the twenty first century grieving has become a virtual phenomenon Today the dead live on through social media profiles memorial websites and saved voicemails that can be accessed at any time This dramatic cultural shift has made the physical presence of death secondary to the psychological experience of mourning Virtual Afterlives investigates emerging popular bereavement traditions Author Candi K Cann examines new forms of grieving and evaluates how religion and the funeral industry have both contributed to mourning rituals despite their limited ability to remedy grief As grieving traditions and locations shift people are discovering new ways to memorialize their loved ones Bodiless and spontaneous memorials like those at the sites of the shootings in Aurora and Newtown and the Boston Marathon bombing as well as roadside memorials car decals and tattoos are contributing to a new bereavement language that crosses national boundaries and culture specific perceptions of death Examining mourning practices in the United States in comparison to the broader background of practices in Asia and Latin America Virtual Afterlives seeks to resituate death as a part of life and mourning as a unifying process that helps to create identities and narratives for communities As technology changes the ways in which we experience death this engaging study explores the culture of bereavement and the ways in which it too is being significantly transformed *Space Junk* Judy Donnelly, Sydelle Kramer, 1990 Discusses the miscellaneous junk floating in space how it got there what effects it can have and what can be done about it Reading Programs for Young Adults Martha Seif Simpson, 2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs **Outer Space** Glenn Reynolds, Robert Merges, 2019-08-22 This book examines the international and domestic American legal problems associated with activity in outer space from a strong policy perspective with particular attention given to problems associated with space commercialization and with military activities in outer space Outer Space Problems of Law and Policy is indispensable as a casebook reference and self teaching tool for students practitioners academics and
