Climbing the Spiritual Mountain Alan Davey,Elizabeth Davey,2014-09-24 This is a guide for spiritual mountain climbers In the Scriptures connecting with Abba often leads to a mountain Modern spiritual writers have long recognized this scriptural metaphor and explored the nature of this journey of ascent Drawing on the text of the Bible works of literature and the writings of mystics both old and new Climbing the Spiritual Mountain speaks of the desires and intentions discipline and effort involved in developing our intimacy with Christ In Jesus dealings with people in the Gospels he draws them up the spiritual mountain through dialogue and questions Like Socrates of old his teaching method probes our thinking knowledge and motives In the process he stimulates our longing and desire to reach the summit There are challenges hurdles and difficult choices to make as we climb the spiritual mountain But the reward approaching the beautiful One who is our Abba far outshines any sacrifice we may make on the climb

Towards an Incarnational Spiritual Culture Gordon E. Carkner,2024-01-29 Rooted in the robust discourse of eminent Canadian philosopher Charles Taylor *A Secular Age* this book takes the reader on a journey of deep reflection and discovery Many things in today s culture misdirect seduce and confuse younger generations when they actually need wise mentors with integrity The discussion clarifies some of the core issues at stake in the late modern identity quest In the process it unpacks some of the most profound implications of the miraculous incarnation for personal flourishing The author introduces us to the power of dialogue with both divine and human interlocutors We are brought around the table

for mutual engagement while receiving a compelling vision for life The discussion is deeply embedded in a rich understanding of the Judeo Christian Scriptures The effect is to spark a lively faith and culture investigation The crucial question we are left with is this Do we intend to be our own gods in some gnostic permutation to invent ourselves from the ground up according to our own individual design Or should we investigate a relationship with God and agape love that can be life transforming freeing and anchoring Which direction will lead to a grounded resilient identity

Worship Formation Steven D. Brooks, 2020-02-17 Worship Formation provides a thoughtful perspective on Christian worship and addresses how each element within a worship service spiritually forms the worshiper Brooks challenges the reader toward an understanding that worshipping through music prayer Scripture reading Communion sermon stillness giving and baptism engages the worshiper in spiritual formation Worship Formation encourages the worshiper to not just go through the motions when they gather for worship but to realize that they are being formed through each element of worship and challenges those in leadership to be thoughtful in their approach to planning and leading worship services

Abba's Whisper Alan Davey, Elizabeth Davey, 2017-01-18 There is a longstanding tradition that God whispers in our ears He does not shout It is in the holy whisper writes the Quaker mystic that we hear Abba's voice not in the noise of clamoring crowds or the incessant barrage of social media To hear the voice of God is an awesome thing to know his thoughts to intuit his love to participate in his good pleasure It is both a gift to be received and art to be cultivated It can call to us when we least expect but we can train ourselves to become receptive listeners We need help to separate the cacophony of voices calling to us from the quiet whisper of Abba barely audible Since our wordy world masks the quiet respectful voice of God we need to recognize the primary ways that Abba communicates with his creation We must embrace practices that move us out of lives of distraction and exchange old patterns of living with new ways of seeing and hearing From our deep Christian past we hear the voice of St Augustine murmur Whisper in my heart I am here to save you I shall hear your voice and make haste to clasp you to myself

Subversive Spirituality L Paul Jensen, 2011-06-30 Subversive Spirituality links the practice and study of Christian spirituality with Christian mission It develops a twofold thesis grace spiritual disciplines and mission practices are inseparably linked in the mission of Jesus of the early church and of several historical renewal movements as well as in a contemporary field research sample and amidst the collapse of space and time evidenced by our culture's increasingly hurried pace of life more time and space are needed for regular solitary and communal spiritual practices in church mission and leadership structures if Christian mission is to transform people and culture in our time This requires a subversion of the collapsed spatial and temporal codes that have infected our Christian institutions Jensen employs methods and approaches from a variety of academic disciplines to explore both spirituality in terms of space and time and mission in terms of deed and word Specifically Jensen examines the spirituality and mission of Jesus the early church the apostolic fathers Origen the Devotio Moderna the early Jesuits David Brainerd and several women in 19th century Protestant missions He considers the

spirituality and mission that have arisen within the postmodern generations born after 1960 Based on the theological historical cultural and field analyses of this study a model for spirituality and mission is proposed The model addresses the contemporary collapse of space and time and appears to have widespread applicability to diverse cultures and eras Jensen's model is applied to the pluralistic and postmodern milieu of North America with recommendations for spirituality and mission in church mission and educational structures A derivative model for teaching and practicing spirituality and mission in the academy which also has application for non formal leadership development structures is also proposed *Sex, God, and the Brain* Andrew Newberg, 2024-08-06 For the modern world it seems as if sexuality and spirituality have always been at odds But what if the two are actually deeply connected And what if science could prove this connection From neuroscientist Andrew Newberg *Sex God and the Brain* argues that our religious and spiritual experiences derive directly from our sexual being While others have speculated on a connection between religion and sex Newberg is the first to demonstrate with groundbreaking brain scan research gained through Orgasmic Meditation studies that the underlying biological mechanism of religious spiritual and sexual experiences are identical With research technical enough for academics but explained simply enough for the everyday reader *Sex God and the Brain* will reframe our understanding of the link between spirituality and sexuality

Sacred Stories, Spiritual Tribes Nancy Tatom Ammerman, 2014 Nancy Tatom Ammerman examines the stories Americans

tell of their everyday lives from dinner table to office and shopping mall to doctor's office about the things that matter most to them and the routines they take for granted and the times and places where the everyday and ordinary meet the spiritual. In addition to interviews and observation Ammerman bases her findings on a photo elicitation exercise and oral diaries offering a window into the presence and absence of religion and spirituality in ordinary lives and in ordinary physical and social spaces. The stories come from a diverse array of ninety-five Americans both conservative and liberal Protestants, African American Protestants, Catholics, Jews, Mormons, Wiccans, and people who claim no religious or spiritual proclivities across a range that stretches from committed religious believers to the spiritually neutral. Ammerman surveys how these people talk about what spirituality is, how they seek and find experiences they deem spiritual, and whether and how religious traditions and institutions are part of their spiritual lives.

Religion and American Cultures Gary Laderman, Luis León, 2014-12-17 This four-volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity, gender, politics, regionalism, ethics, and popular culture. This revised and expanded edition of *Religion and American Cultures: Tradition, Diversity, and Popular Expression* presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective. The entries cover virtually every religion in modern-day America as well as the role of religion in various aspects of U.S. culture. Readers will discover that Americans aren't largely Protestant, Catholic, or Jewish anymore and that the number of popular religious identities is far greater than many would imagine. And although most Americans believe in a higher power, the fastest growing identity in the United States is the "nones"—those Americans who elect none when asked about their religious identity, thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized. The first volume explores America's multicultural communities and their religious practices, covering the range of different religions among Anglo-Americans and Euro-Americans as well as spirituality among Latino, African American, Native American, and Asian American communities. The second volume focuses on cultural aspects of religions, addressing topics such as film, Generation X, public sacred spaces, sexuality, and new religious expressions. The new third volume expands the range of topics covered with in-depth essays on additional topics such as interfaith families, religion in prisons, belief in the paranormal, and religion after September 11, 2001. The fourth volume is devoted to complementary primary source documents.
