

SPAIN AND ITS WORLD 1500—1700

J. H. ELLIOTT

Spain And Its World 1500 1700 Selected Essays

**John Slater, Maríaluz López-
Terrada, José Pardo-Tomás**

Spain And Its World 1500 1700 Selected Essays:

Spain and Its World, 1500-1700 John Huxtable Elliott, 1989-01-01 It used to be said that the sun never set on the empire of the King of Spain It was therefore appropriate that Emperor Charles V should have commissioned from Battista Agnese in 1543 a world map as a birthday present for his sixteen year old son the future Philip II This was the world as Charles V and his successors of the House of Austria knew it a world crossed by the golden path of the treasure fleets that linked Spain to the riches of the Indies It is this world with Spain at its center that forms the subject of this book J H Elliott the pre eminent historian of early modern Spain and its world originally published these essays in a variety of books and journals They have here been grouped into four sections each with an introduction outlining the circumstances in which they were written and offering additional reflections The first section on the American world explores the links between Spain and its American possessions The second section The European World extends beyond the Castilian center of the Iberian peninsula and its Catalan periphery to embrace sixteenth and seventeenth century Europe as a whole In The World of the Court the author looks at the character of the court of the Spanish Habsburgs and the perennially uneasy relationship between the world of political power and the world of arts and letters The final section is devoted to the great historical question of the decline of Spain a question that continues to resonate in the Anglo American world of today

Spain and Its World, 1500-1700 John Huxtable Elliott, 1989 *Monarchy, Aristocracy and State in Europe 1300-1800* Hillay Zmora, 2002-01-04 Monarchy Aristocracy and the State in Europe 1300 1800 is an important survey of the relationship between monarchy and state in early modern European history Spanning five centuries and covering England France Spain Germany and Austria this book considers the key themes in the formation of the modern state in Europe The relationship of the nobility with the state is the key to understanding the development of modern government in Europe In order to understand the way modern states were formed this book focusses on the implications of the incessant and costly wars which European governments waged against each other which indeed propelled the modern state into being Monarchy Aristocracy and the State in Europe 1300 1800 takes a fascinating thematic approach providing a useful survey of the position and role of the nobility in the government of states in early modern Europe

Spanish Society, 1400-1600 Teofilo F Ruiz, 2014-09-11 Spanish Society depicts a complex and fascinating country in transition from the late Middle Ages to modernity It describes every part of society from the gluttonous nobility to their starving peasants Through anecdotes a lively style and portraits of figures such as St Teresa of Avila and Torquemada the book reflects the character and humour with which the common Spaniard endured an often wretched lot Beginning with a description of the geography political life and culture of Spain from 1400 to 1600 the unfolding narrative charts the country s shifts from one age to the next It unveils patterns of everyday life from the court to the brothel from the haves of the aristocracy and clergy to the have nots of the peasantry and the urban poor Historical records illuminate details of Spanish society such as the transition from medieval festivities to the highly

scripted spectacles of the early modern period the reasons for violence and popular resistance and the patterns of daily living eating dressing religious beliefs and concepts of honour and sexuality This compelling account includes historical examples and literary extracts which allow the reader direct access to the period From the street theatre of village carnivals to the oppressive Spanish Inquisition it gives an abiding sense of Spain in the making and renders vivid the colours of a passionate history Medical Cultures of the Early Modern Spanish Empire John Slater, Maríaluz López-Terrada, José

Pardo-Tomás, 2016-04-29 Early modern Spain was a global empire in which a startling variety of medical cultures came into contact and occasionally conflict with one another Spanish soldiers ambassadors missionaries sailors and emigrants of all sorts carried with them to the farthest reaches of the monarchy their own ideas about sickness and health These ideas were in turn influenced by local cultures This volume tells the story of encounters among medical cultures in the early modern Spanish empire The twelve chapters draw upon a wide variety of sources ranging from drama poetry and sermons to broadsheets travel accounts chronicles and Inquisitorial documents and it surveys a tremendous regional scope from Mexico to the Canary Islands the Iberian Peninsula Italy and Germany Together these essays propose a new interpretation of the circulation reception appropriation and elaboration of ideas and practices related to sickness and health sex monstrosity and death in a historical moment marked by continuous cross pollination among institutions and populations with a decided stake in the functioning and control of the human body Ultimately the volume discloses how medical cultures provided demographic analytical and even geographic tools that constituted a particular kind of map of knowledge and practice upon which were plotted the local utilities of pharmacological discoveries cures for social unrest or decline spaces for political and institutional struggle and evolving understandings of monstrosity and normativity Medical Cultures of the Early Modern Spanish Empire puts the history of early modern Spanish medicine on a new footing in the English speaking world **The Ashgate Research Companion to the Thirty Years' War** Olaf Asbach, Peter Schröder, 2016-03-23 The Thirty Years War 1618 1648 remains a puzzling and complex subject for students and scholars alike This is hardly surprising since it is often contested among historians whether it is actually appropriate to speak of a single war or a series of conflicts Similarly emphasis is also put on the different motives for going to war as conflicting religious and political interests were involved This research companion brings together leading scholars in the field to synthesize the range of existing research on the war which is still fragmented and divided along national historical lines and to further explore the complexities of the conflict using an innovative comparative approach The companion is designed to provide scholars and graduate students with a comprehensive and authoritative overview of research on one of the most destructive conflicts in European history

Themes in International Economics Mats Lundahl, 2018-12-07 First published in 1998 this collection of essays deals with four different areas of international economics the theory of international trade trade and development protectionism and factor movements notably migration and foreign aid These themes explore the determinants of trade patterns the relation

between these patterns and those of underdevelopment and development the failure of protectionism to increase welfare and finally the impact of emigration on the source country and that of foreign aid on the recipient country **Trade, Growth and Development** Göte Hansson,2003-09-02 Since the end of the second world war the economic gap between rich and poor countries has steadily widened Trade Growth and Development examines this disparity and assesses the reasons why some developing countries have been more successful than others The book is divided into four parts Part I examines recent developments in the theory of trade growth and economic development Parts II to IV present an empirical analysis of policy and performance in Latin America Asia and Africa As well as offering an analysis of traditional economic factors the book also emphasises the role of politics and institutions in the process of economic development **Implicit Understandings** Stuart B. Schwartz,1994-11-25 World wide in scope this volume brings together the work of twenty historians anthropologists and literary scholars who have tried to examine the nature of the encounter between Europeans and the other peoples of the world from roughly 1450 to 1800 the Early Modern era *On the Verge of War* Alison Deborah Anderson,2023-07-03 Twice in the decade before the Thirty Years War the J lich Kleve succession placed Europe on the verge of war Located along the Rhine River on the borders of the divided Netherlands the J lich Kleve duchies possessed great political economic and religious importance which attracted the interest of all the major European powers of the day Yet despite the strategic location of the duchies and the international involvement in the succession disputes diplomacy triumphed and war was averted This book examines the J lich Kleve succession crises from a wide international perspective in order to explain how the thorny succession disputes could be successfully resolved through diplomacy In so doing this book reevaluates the significance not only of the J lich Kleve succession but also of international relations on the eve of the Thirty Years War *A Kingdom Strange* James Horn,2010-10 In 1587 John White and 117 men women and children landed off the coast of North Carolina on Roanoke Island hoping to carve a colony from fearsome wilderness A mere month later facing quickly diminishing supplies and a fierce native population White sailed back to England in desperation He persuaded the wealthy Sir Walter Raleigh the expeditions sponsor to rescue the imperiled colonists but by the time White returned with aid the colonists of Roanoke were nowhere to be found He never saw his friends or family again In this gripping account based on new archival material colonial historian James Horn tells for the first time the complete story of what happened to the Roanoke colonists and their descendants A compellingly original examination of one of the great unsolved mysteries of American history *A Kingdom Strange* will be essential reading for anyone interested in our national origins **Enlightened Reform in Southern Europe and its Atlantic Colonies, c. 1750-1830** Gabriel Paquette,2016-05-06 Efforts to ascertain the influence of enlightenment thought on state action especially government reform in the long eighteenth century have long provoked stimulating scholarly quarrels Generations of historians have grappled with the elusive intersections of enlightenment and absolutism of political ideas and government policy In order to complement expand and rejuvenate the

debate which has so far concentrated largely on Northern Central and Eastern Europe this volume brings together historians of Southern Europe broadly defined and its ultramarine empires Each chapter has been explicitly commissioned to engage with a common set of historiographical issues in order to reappraise specific aspects of enlightened absolutism and enlightened reform as paradigms for the study of Southern Europe and its Atlantic empires In so doing it engages creatively with pressing issues in the current historical literature and suggests new directions for future research No single historian working alone could write a history that did justice to the complex issues involved in studying the connection between enlightenment ideas and policy making in Spanish America Brazil France Italy Portugal and Spain For this reason this well conceived balanced volume drawing on the expertise of a small carefully chosen cohort offers an exciting investigation of this historical debate

Great Christian Jurists in Spanish History Rafael Domingo, Javier Martínez-Torrón, 2018-05-10 The Great Christian Jurists series comprises a library of national volumes of detailed biographies of leading jurists judges and practitioners assessing the impact of their Christian faith on the professional output of the individuals studied Spanish legal culture developed during the Spanish Golden Age has had a significant influence on the legal norms and institutions that emerged in Europe and in Latin America This volume examines the lives of twenty key personalities in Spanish legal history in particular how their Christian faith was a factor in molding the evolution of law Each chapter discusses a jurist within his or her intellectual and political context All chapters have been written by distinguished legal scholars from Spain and around the world This diversity of international and methodological perspectives gives the volume its unique character it will appeal to scholars lawyers and students interested in the interplay between religion and law

Exemplary Novellas Cervantes, 2016-02-11 Michael Harney's translation of Cervantes's *Novelas ejemplares* is the most authoritative and accurate rendering of Cervantes's classic tales to date and promises to be the translation against which future translations will be measured Harney skillfully portrays the nuanced and complex world of the Exemplary Novellas in a translation that is faithful to the letter and spirit of the original An erudite and informative Introduction presents a general overview of sixteenth and seventeenth century Spain the life of Cervantes and a detailed analysis of the Exemplary Novellas Before each story Harney provides a brief synopsis an analysis of the novella's themes motifs and generic affinities and a bibliography for further reading In addition numerous footnotes complement the background information Harney provides in the Introduction and prior to each novella Michael J McGrath Georgia Southern University

Isabella Kirstin Downey, 2015-11-10 An engrossing and revolutionary biography of Isabella of Castile the controversial Queen of Spain who sponsored Christopher Columbus's journey to the New World established the Spanish Inquisition and became one of the most influential female rulers in history In 1474 when most women were almost powerless twenty three year old Isabella defied a hostile brother and a mercurial husband to seize control of Castile and León Her subsequent feats were legendary She ended a twenty four generation struggle between Muslims and Christians forcing North African invaders back over the Mediterranean Sea She laid the

foundation for a unified Spain She sponsored Columbus's trip to the Indies and negotiated Spanish control over much of the New World She also annihilated all who stood against her by establishing a bloody religious Inquisition that would darken Spain's reputation for centuries Whether saintly or satanic no female leader has done more to shape our modern world Yet history has all but forgotten Isabella's influence Using new scholarship Downey's luminous biography tells the story of this brilliant fervent forgotten woman the faith that propelled her through life and the land of ancient conflicts and intrigue she brought under her command

Europe Brendan Simms, 2013-04-04 Half a millennium of European warfare brilliantly retold by masterly historian Brendan Simms At the heart of Europe's history lies a puzzle In most of the world humankind has created enormous political frameworks whether ancient such as China or modern such as the United States Sprawling empires kingdoms or republics appear to be the norm By contrast Europe has remained stubbornly chaotic and fractured into often amazingly tiny pieces with each serious attempt to unify the continent by Charles V Napoleon and Hitler thwarted In this marvelously ambitious and exciting new book Brendan Simms tells the story of Europe's constantly shifting geopolitics and the peculiar circumstances that have made it both so impossible to dominate but also so dynamic and ferocious It is the story of a group of highly competitive and mutually suspicious dynasties but also of a continent uniquely prone to interference from semi-detached elements such as Russia the Ottoman Empire Britain and just as centrally to Simms argument the United States Europe The Struggle for Supremacy will become the standard work on this crucial subject and an extremely enjoyable one Reviews This is a brilliant and beautifully written history From the Holy Roman Empire to the Euro Brendan Simms shows that one of the constant preoccupations of Europeans has always been the geography the power and the needs of Germany Europe is a work of extraordinary scholarship delivered with the lightest of touches It will be essential absorbing reading for anyone trying to understand both the past and the present of one of the most productive and most dangerous continents on earth William Shawcross World history is German history and German history is world history This is the powerful case made by this gifted historian of Europe whose expansive erudition revives the proud tradition of the history of geopolitics and whose immanent moral sensibility reminds us that human choices made in Berlin and London today about the future of Europe might be decisive for the future of the world Timothy Snyder author of Bloodlands About the author Brendan Simms is Professor of the History of International Relations at the University of Cambridge His major books include Unfinest Hour Britain and the Destruction of Bosnia shortlisted for the Samuel Johnson Prize and Three Victories and a Defeat The Rise and Fall of the First British Empire

Monarchy Transformed Robert von Friedeburg, John Morrill, 2017-08-17 Until the 1960s it was widely assumed that in Western Europe the New Monarchy propelled kingdoms and principalities onto a modern nation state trajectory John I of Portugal 1358 1433 Charles VII 1403 1461 and Louis XI 1423 1483 of France Henry VII and Henry VIII of England 1457 1509 1509 1553 Isabella of Castile 1474 1504 and Ferdinand of Aragon 1479 1516 were by improving royal administration by bringing more continuity to communication with their

estates and by introducing more regular taxation all seen to have served that goal In this view princes were assigned to the role of developing and implementing the sinews of state as a sovereign entity characterized by the coherence of its territorial borders and its central administration and government They shed medieval traditions of counsel and instead enforced relations of obedience toward the emerging state Provided by publisher

Archaeologies of Early Modern Spanish Colonialism Sandra Montón-Subías, María Cruz Berrocal, Apen Ruiz Martínez, 2016-02-22 Archaeologies of Early Modern Spanish Colonialism illustrates how archaeology contributes to the knowledge of early modern Spanish colonialism and the first globalization of the 16th and 17th centuries Through a range of specific case studies this book offers a global comparative perspective on colonial processes and colonial situations and the ways in which they were experienced by the different peoples But we also focus on marginal unsuccessful colonial episodes Thus some of the papers deal with very brief colonial events even marginal in some cases considered failures by the Spanish crown or even undertook without their consent These short events are usually overlooked by traditional historiography which is why archaeological research is particularly important in these cases since archaeological remains may be the only type of evidence that stands as proof of these colonial events At the same time it critically examines the construction of categories and discourses of colonialism and questions the ideological underpinnings of the source material required to address such a vast issue Accordingly the book strikes a balance between theoretical methodological and empirical issues integrated to a lesser or greater extent in most of the chapters

For the Common Good Luis R. Corteguera, 2018-10-18 On June 7 1640 the viceroy of Catalonia was stabbed to death on a Barcelona beach By Christmas several more royal officials of the Spanish principality had been assassinated In the wake of these and other violent acts committed by the people a term used for artisans the Catalans severed their allegiance to the Spanish monarchy and elected Louis XIII of France their new king The first English language book to explore the political beliefs and behavior of early modern craftsmen Luis Corteguera s work offers a dramatically new account of the origins of the Catalan revolt the longest rebellion in seventeenth century Spain Drawing on his extensive research in Barcelona s archives Corteguera examines how the political actions ideas and language of Barcelona s craftsmen shaped the relations between the Spanish monarchy and Catalonia in the decades leading to the insurrection Artisans made up over half of the population of Barcelona the political center and largest city of Catalonia The Mediterranean port had a long history of active popular politics Artisans sat in the city council formed the core of the principality s largest militia and participated in protests and riots Corteguera finds that the 1640 rebellion was not a social revolution of the poor but rather a political action by craftsmen seeking to defend what they perceived as the ancient liberties of their homeland Although their behavior was more violent the artisans were the author asserts motivated by the same assumptions language and symbols that inspired the elite of the principality

Prostitution in Medieval and Early Modern Literature Albrecht Classen, 2019-07-18 Prostitution is known as the oldest profession in the history of humanity While historians have already

given due consideration to the profession's social and cultural meanings across time periods little has been written about literary representations of prostitution. *Prostitution in Medieval and Early Modern Literature* analyses the work of writers from an array of social positions including courtly poets and even religious writers dealing with the topic during the medieval and early modern periods. Its study shows that prostitutes and brothel owners were present on the literary stage far more often than we might have assumed. Utilizing an interdisciplinary approach and incorporating relevant sources from across the entire European continent dating from the early Middle Ages to the sixteenth century it examines the phenomenon of prostitution in a variety of contexts and highlights the extent to which the institution mattered for both the higher and the lower classes.
