Fourth Estate Shulamith Shahar,1990 Did women really constitute a fourth estate in medieval society and if so in what sense In this wide ranging study Shulamith Shahar considers this and the whole question of the varying attitudes to women and their status in western Europe **The Fourth Estate** Shulamith Shahar,1991 **Equally in God's Image** Julia Bolton Holloway,Constance S. Wright,Joan Bechtold,1990 *Equally in God's Image* Women in the Middle Ages is a volume of essays presenting the argument that with the coming of the universities women were excluded in an apartheid of gender from education and power It discusses the resulting paradigm shift from Romanesque to Gothic describing the images which women had of themselves and which the dominant male society had of them We meet in the pages of this book medieval women in their roles as writers pilgrims wives anchoresses and nuns at court on pilgrimage in households and convents The volume as a Distant Mirror for ourselves today seeks to present ways in which women then fulfilled the roles society expected of them and the ways in which they also subverted through entering into textuality the expectations of the dominating culture in order to quest identity and equality **Origins of the Magdalene Laundries** Rebecca Lea McCarthy,2010-03-08 The convents asylums and laundries that once comprised the Magdalene institutions are the subject of this work Though originally half way homes for prostitutes in the Middle Ages these homes often became forced labor institutions particularly in Ireland Examining the laundries within the context of a growing world capitalist economy the work argues that the process of colonization and of defining a national image determined the nature and longevity of the Magdalene Laundries This process developed differently in Ireland where the last laundry closed in 1996 The book focuses on the devolution of the significance of Mary Magdalene as a metaphor for the organization from an affluent strong supporter of Jesus to a simple fallen woman *Visualizing Women in the Middle Ages* Madeline Harrison Caviness,2001 For Caviness an awareness of historical context places pressure upon contemporary theories like that of the male gaze changing their shapes and creating even richer dialogues with the past **BOOK JACKET** **Encyclopedia of Women in the Middle Ages** Jennifer

Lawler,2018-01-16 Most people have heard of Lady Godiva and her horseback tax protest in the 11th century and Joan of Arc who in the 15th century fought against the English for the French gaining sainthood in 1920 Many know of Eleanor of Aquitaine 12th century Queen of France and England and powerful manipulator and protector of kings Some know of Hildegard and Beatrice and Blanche and Clare There are many famous women of the Middle Ages whose lives and leadership brought important changes to history This encyclopedia contains several hundred entries on the culture history

and circumstances of women in the Middle Ages from the years 500 to 1500 C E The geographical scope of this work is wide with entries on women from England France Germany Japan and other nations around the world There are entries on queens empresses and other women in positions of leadership as well as entries on topics such as work marriage and family households employment religion and various other aspects of women s lives in the Middle Ages Genealogies of queens and empresses accompany the text in an appendix *Gender and Medieval Drama* Katie Normington,2004 Evidence from Records of Early English Drama social literary and cultural sources are drawn together in order to investigate how performances within the late Middle Ages were both shaped by and shaped the public image of women BOOK JACKET
