

# A LIMPING TRANSITION: THE FORMER SOVIET UNION THIRTY YEARS ON

Marek Dabrowski

**The post-communist transition in the Soviet Union's successor states has been discouraging in many ways. The foundations of market economies were put in place by the early 2000s but adopted policies and institutions have proved suboptimal and distortive in many countries. Overall, the region has demonstrated how economic and political transition are closely correlated, with the latter impacting strongly on the former. In particular, the autocratic drift in Russia has caused reversals in economic reforms and aggressive policies against its neighbours, culminating in the devastating war in Ukraine.**

**Central Asian Security** Roy Allison, Lena Jonson, 2004-05-13 This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south east and west The international implications are enormous because of the rich energy sources oil and natural gas located in the Caspian Sea area The authors assess a variety of internal security policy challenges confronting these states for example the potential for conflict arising from such factors as a mixed ethnic population resource scarcity particularly in relation to water management and an Islamic revival They also examine the security policy content of relations between the Central Asian states and regional and international powers specifically the stakes interests and policies of Russia China Iran Turkey and the United States These internal challenges and the evolution of relations with external powers may result in new cooperative relationships but they may also lead to destabilizing rivalry and interstate enmity in Central Asia It is important to identify new patterns of relevance for future security cooperation in the region but the potential for a new security system or for new institutions to manage security in the region remains uncertain These issues are explored by a team of prominent specialists from Western Europe the United States Russia and China      **The Former Soviet Union in Transition** , 1993      *The Former Soviet Union in Transition. 2* , 1993      The Demise of the Soviet Union Jan Hallenberg, 2018-05-08 This title was first published in 2002 Designed as a research text for academics in higher education and interested practitioners this volume weaves together an original strand of international relations theory with key empirical case studies of the United States United Kingdom France and Sweden and their attitudes towards the Soviet Union Original in nature and composition the book deals with aspects of predictability in foreign policy and gauges the level of impact that international events have on domestic levels of awareness The hypothesis and the typology are solid giving the book its strong analytical structure In sum this book is cutting edge It will be of great use as a research text to those studying the countries of Western Europe and also those with an interest in Russia and the Soviet Union Given its strong theoretical content and its choices of case study this cross disciplinary text is also suitable for area studies in general      **The Former Soviet Union in Transition** , 1993      *Research Activities of the IMF, January 1991-December 1998* International Monetary Fund, 1999-09-24 A selective index of major research papers prepared

by IMF staff in 1991 98      **Corporate Governance** Kevin Keasey, Steve Thompson, Michael Wright, 2005-05-05 The decade since the publication of the Cadbury Report in 1992 has seen growing interest in corporate governance This growth has recently become an explosion with major corporate scandals such as WorldCom and Enron in the US the international diffusion of corporate governance codes and wider interest in researching corporate governance in different institutional contexts and through different subject lenses In view of these developments this book will be a rigorous update and development of the editor's earlier work *Corporate Governance Economic Management and Financial Issues* Each chapter written by an expert in the subject offers a high level review of the topic embracing material from financial accounting strategy and economic perspectives      *Innovation and Market Globalization* Carlo Corsi, Ali Akhunov, 2000 Fourteen papers presented at a NATO sponsored workshop held in September 1998 in Samarkand address development trends in the transition countries of Central Asia Workshop goals were to stimulate industry R&D for small medium enterprises and foster cooperation between East and West participants included researchers from the science technology and business sectors in Europe Georgia Kazakhstan Turkey Ukraine the US and Uzbekistan The papers are in English sometimes to their detriment as a result of inexpert translation c Book News Inc      *Regional Economic Development in the Balkan Region* Teoman Duman, Erkan Ilgün, Merdžana Obralić, 2016-01-14 This edited volume brings together original scientific studies on current economic and developmental issues in the Balkan region and is composed of papers by 25 authors from seven different countries The Balkan region has gained significant interest in recent years due to its location and strategic position representing a doorway to Europe and the region's stability and progress have direct consequences on various European countries Because of this strategic position there is currently much debate regarding a potential partnership of the Balkan states with the European Union This book offers insights into the current economic and developmental status of the countries in this region offering a series of chapters that analyse the area from a variety of perspectives It begins with a discussion on the recent history of the region especially with reference to the former Yugoslavia and its break up after the turbulence experienced in 1990s Other sections are complementary to each other in that they offer comparisons of the Balkan states in their economic progress at the micro and macro levels Topics such as European integration policies and effects economic transition regional trade tax incentive policy regional capital markets regional development agencies and systems remittances and foreign aid contributions import export policies fiscal policies analysis of regional microfinance and the tourism sectors are explored in detail throughout the book      Economic Reform in Europe and the Former Soviet Union Rod Tyers, 1994-01-01 The prereform economies The transition in the postsocialist economies Analysis of food policy reforms Implications for other development countries      Personal Wealth from a Global Perspective James B. Davies, 2008-11-13 There is great media fascination in the activities and lifestyles of the super rich But personal wealth is also important for those of more modest means as a store of potential consumption as a cushion against emergencies and as collateral for

business and investment loans This book is the first global study of household assets and debts It documents not only the level distribution and trend of wealth holdings in rich nations but also addresses developing countries like China and India The situation in Latin America and Africa is given attention along with the experiences of Russia and other transition countries Components of household wealth like financial assets land and property are examined as well as the gender division Worldwide it is estimated that the richest 2% own more than half of total global wealth and that this elite group resides almost exclusively in North America Western Europe and rich Asia Pacific countries

**Research Activities of the IMF, January 1991-December 1999** International Monetary Fund,2000-01-01 Research activity in the IMF emphasizes the links between the organization s policy and operational concerns The main objectives of research is IMF staff understanding of policy and operational issues relevant to the institution and to improve the analytical quality of the work prepared for management and the Executive Board and the advice provided to member countries The scope of research in the IMF is defined by the purposes and functions of the institution In order to foster innovation and ensure quality control the IMF makes much of its research available outside the institution and encourages staff to interact with academia and other research organizations through conferences seminars and occasional joint research projects The visiting scholar s program has also enhanced the quality of research done in the IMF This program brings in leading members of the economics profession from around the world to assist in the preparation of papers for the Executive Board and to conduct research on IMF related issues

**Avoiding the Apocalypse** Marcus Noland,2000-06-01 On the Korean peninsula one of the greatest success stories of the postwar era confronts a famine ridden and possibly nuclear armed totalitarian state The stakes are extraordinarily high for both North and South Korea and for countries such as the United States that have a direct stake in these affairs This study the most comprehensive volume to date on the subject examines the current situation in the

two Koreas in terms of three major crises the nuclear confrontation between the United States and North Korea the North Korean famine and the South Korean financial crisis The future of the peninsula is then explored under three alternative scenarios successful reform in North Korea collapse and absorption as happened in Germany and muddling through in which North Korea supported by foreign powers makes ad hoc regime preserving reforms that fall short of fundamental transformation
