Scenario Thinking George Cairns, George Wright, 2017-10-13 Develops scenario planning methods in ways that link scenario analysis to improved decision making engage time poor senior decision makers attenuate decision makers tendency to deflect responsibility for bleak negative scenario outcomes and enhance causal analysis within scenario storyline development What if Two of the most powerful and frightening words in business Almost as bad as I didn't see that coming Some things that transform the marketplace overnight come from nowhere Some things that create potentially critical under performance are genuinely unforeseeable Sometimes it is impossible to predict how a change in an organizational strategy will play out Some things and sometimes but not many and not often Decision makers in organizations face more and more complex and ambiguous problems that need to be addressed under time pressure and the need for practical decision support has become essential The range of methods in this book will enable you to be prepared proactive and resilient no matter what the future brings Based on up to date academic research and years of application and iteration in the real world this book illustrated with examples of the value delivered in Europe Australia and the Middle East will transfer practical skills in scenario thinking using step by step instructions This thoroughly revised and expanded second edition introduces these new approaches in detail with clear guidelines and examples to enable the reader to select and implement the most appropriate scenario method to suit the issue at hand considering the timeframe for its investigation the resources available and the outcomes expected

Assessing the Tradecraft of Intelligence Analysis Gregory F. Treverton, C. Bryan Gabbard, 2008-02-27 This report assesses intelligence analysis across the main U S intelligence agencies and makes a number of recommendations some of which parallel initiatives that have begun in the wake of the December 2004 legislation for instance create a Deputy Director of National Intelligence as a focal point for analysis establish a National Intelligence University build a Long Term Analysis Unit at the National Intelligence Council and form an Open Source Center for making more creative use of open source materials

Evolution of Scenario Planning George Burt, 2023-10-24 Scenario planning is a long and well established approach to help leaders create novel insights and challenge what they know of the world to influence future action But as the world becomes increasingly unpredictable leaders must question the traditional mode of analysing the contextual environment and adopt new capabilities to embrace change while they redefine and reframe their organisation for the future The Evolution of Scenario Planning explores the pervasive nature of change It provides a contemporary approach to using scenarios as strategic conversation to embrace experiences past and present to create novel understanding and insights The book uses case studies and practical examples to guide facilitators in applying the scenario process in their organisation Leaders senior managers consultants and academics will learn how to engage with scenarios as a central element of strategy and better understand their role in strategic leadership They will also gain insight into the skills and capabilities revealed during the process of strategic conversation where ambiguity and equivocality is a natural feature of such conversation The Evolution of Scenario Planning makes a compelling case for using scenarios to enable leaders to

develop foresight and attunement to grasp the ongoing dynamic of their uncertain and ambiguous world **Electronic Government** Roland Traunmüller,2012-02-02 The EGOV Conference Series intends to assess the state of the art in e Government and to provide guidance for research and development in this fast moving field The annual conferences bring together leading research experts and professionals from all over the globe Thus EGOV 2003 in Prague built on the achievements of the 1st EGOV Conference Aix en Provence 2002 which provided an illustrative overview of e Government activities This year the interest even increased nearly 100 contributions and authors coming from 34 countries In this way EGOV Conference 2003 was a reunion for professionals from all over the globe EGOV 2003 brought some changes in the outline and structure of the conference In line with the broadening of the field and a growing number of missions it became necessary to decentralize the reviewing process So reviewing was done via stream chairs who deserve high praise for their dedicated work In addition a workshop part was included to cover some subjects of emerging significance such as dissemination networking and regional developments Further a subtitle of the conference was chosen that would mirror the expansion of e Government to e Governance Consequently in this year's conference governance democratic deliberation and legal issues occupied a growing share Last but not least GIS was incorporated as a topic due to the increasing importance of geographical information systems for planning and operations

Scenario Thinking R. Bradley MacKay,Peter McKiernan,2018-10-04 This Element infuses established scenario planning routines with an exploration of cognitive reasoning by contextualising scenario thinking within the wider human endeavour of grappling with future uncertainties A study of ancient civilisations shows that scenario thinking is not new but has evolved significantly since ancient times By de coupling scenario thinking from scenario planning it is elevated as the essential ingredient in managerial foresight projects The historical theme continues focussing on the evolution of modern scenario planning by way of the French and Anglo American schools of thought using the intuitive logics methodology Archival research has discovered early contributions in the UK around the development and use of scenario thinking in public policy which has been overlooked in many received histories Finally the usefulness of scenario thinking for strategic management is challenged here and the argument that it is a heuristic device for overcoming cognitive biases and making better strategic decisions is refined
