Soviet Public Opinion and Ideology Vladimir Shlapentokh, 1986-11-07 This is the first book to view Soviet ideology and public opinion from the perspective of Soviet mythology The author puts forth the idea that mythology in Soviet life is one of the most important variables determining the path of Soviet history and examines how Soviet society adjusts to the important role of mythology in its life In this connection the author introduces the concept of a party ideology as it differs from public ideology Original and provocative *Soviet Public Opinion and Ideology* is an enlightening work for sociologists political scientists social psychologists and experts on the Soviet Union

The Public Opinion Process Irving Crespi, 2013-11-05 What is public opinion How can we best study it This work presents a process model that answers these questions by defining public opinion in a way that also identifies an approach to studying it The model serves as a framework into which the findings of empirical research are integrated producing a comprehensive understanding of public opinion that encompasses the congeries of middle range theories that have emerged from empirical research The three dimensional process model and the way it is explicated satisfies the diverse and sometimes divergent needs and interests of political scientists sociologists social psychologists and communication specialists who study public opinion This is achieved by clearly differentiating and interrelating the following individual opinions the judgmental outcomes of a process in which attitudinal systems comprised of beliefs values interests and feelings function as intervening variables that direct and structure perceptions of public issues collective opinions the outcomes of communication from which mutual awareness emerges and that integrate separate individual opinions into a significant social force and political roles of collective and individual opinions the outcomes of the extent to which collective and individual opinions have achieved legitimacy as the basis for governing a people

DON T USE THIS PARAGRAPH FOR GENERAL CATALOGS Each dimension of the model has its corresponding subprocess transactions between individuals and their environments communications among individuals and collectives and political legitimation of public opinion Since the process model is by definition interactional none of the three dimensions has theoretical or sequential priority over the others Instead of treating the psychological political and sociological aspects of public opinion as separate stages of an unidirectional process the three aspects are modeled as dimensions of a complex ongoing system in continuous interaction with each other This conceptualization

satisfies the need for a truly interdisciplinary theory in that it demands that each dimension be studied in terms of its defining sub process It also avoids the twin errors of reductionism and reification in the study of public opinion *A Normal Totalitarian Society* Vladimir Shlapentokh, 2017-07-05 Shlapentokh undertakes a dispassionate analysis of the ordinary functioning of the Soviet system from Stalin's death through the Soviet collapse and Russia's first post communist decade Without overlooking its repressive character he treats the USSR as a normal system that employed both socialist and nationalist ideologies for the purposes of technological and military modernization preservation of empire and expansion of its geopolitical power Foregoing the projection of Western norms and assumptions he seeks to achieve a clearer understanding of a civilization that has perplexed its critics and its champions alike **Problems of Communism**, 1989

The Ideological Cold War Johanna Rainio-Niemi, 2014-02-05 This book opens new perspectives into the Cold War ideological confrontations Using Austria and Finland as an example it shows how the Cold War battles for the hearts and minds of the people also influenced policies in countries that wished to stay outside the conflict Following the model of older European neutrals Austria and Finland sought to combine neutrality with democracy The combination was eagerly challenged by ideological Cold Warriors on both sides of the divide and questioned at home too Was neutrality risking the neutrals commitment to democracy or did the commitment to the western type of democracy threaten their commitment to neutrality Confronting these doubts grew into an organic part of practicing neutrality in the Cold War world The neutrals needed to be exceptionally clear regarding the ideological foundations of their neutrality Successful neutrality required a great deal of conceptual consistence and domestic unanimity None of this was pre given in Austria or Finland However in the model of Switzerland and Sweden armed neutrality was systematically integrated with the official state ideology and promoted as a part of national identity Legacies of these policies outlived the end of the Cold War

Consequences Timothy Buchanan, 2010-11-30 In 1948 philosopher Richard Weaver argued that ideas have consequences This book explores three diverse consequences flowing from one ideacommunism In Soviet Russia the idea became dogma a type of secular religion The Soviet Secular Religion skewed all the efforts of central planners in a pre determined direction with debilitating effects from the reign of Lenin to Stalin and Brezhnev SSR empowered Mikhail Gorbachev in his attempts at reform even while it constrained those efforts and blinded him to the unfolding collapse of the system Formed soon after the Bolshevik Revolution the Communist Party of India had its own theoreticians and leaders and a diversity of opinions But their reliance on Moscow's authority to maintain consensus

meant for them dependence in short the CPI became a pawn of the Kremlin Russian interests often conflicted with those of South Asia confounding the CPI's chances for success Moreover the People's Republic of China promoted competing ideas and the Moscow Peking split prompted a mirroring and fatal schism within the CPI In the United States anti communism fueled Containment the Cold War paradigm The most dangerous aspect of this conflict of ideas a threat that was truly existential was always The Bomb or rather tens of thousands of them American nuclear policy may be divided into three eras In the 1940s and 50s anti communist ideology dominated political discourse and the U S sought a preponderance in arms Around 1960 rationality became the vogue ushering in the era of Detente Finally ideology returned with the election of 1980 shaping policies that helped end the long confrontation of ideas Where Soviet dogma obsessed over production the American Ideology is engrossed with consumption The book's afterword argues that American economic planners are unconsciously biased in a manner similar if antipodal to that of Soviet economists Something like a Gorbachev moment where skewed indicators show progress even as the system collapses is not impossible for the United States
