## **Sowing The Seeds Of Change Chinese Students Japanese Teachers 1895 1905:**

*Sowing the Seeds of Change* Paula Harrell, 1992 In the critical decade between the Sino Japanese and Russo Japanese wars perhaps as many as 10 000 Chinese students converged on Tokyo in what was the first large study abroad movement anywhere in the world Following China's defeat by Japan in 1895 sending young Chinese to Japan for schooling seemed wise policy to leaders in both countries To reform minded pragmatists at the helm of Ching government study in Japan meant access to modern ideas and technology that would strengthen the state and their own power To Japan's leaders training thousands of young Chinese fit their objective of creating a strong China under Japanese tutelage together the two countries could form an Asian bulwark against the encroachments of the West But this blueprint for study abroad failed to consider what the students own goals might be for a modernizing China For the Chinese students exposure to an economically stronger intellectually more open Japan inspired visions of a new China free of Ching mismanagement more broadly representative politically and capable of holding back imperialism in any form Western or Japanese Increasingly alienated from the Ching state Japan educated activists boldly proclaimed their anti authoritarian views and were a key force in the rising tide of dissidence propelling China to revolution in 1911 Among the topics the author considers are the emergence of official and popular support for study in Japan the socio economic background of the students their psychological interaction with the Japanese case studies of student protest movements and the nature of students intellectual and political concerns In developing a new political outlook the students grappled with many of the issues confronting China nearly a century later how far to open the door to Western influence how to relate to an economically strong Japan how much political reform should accompany technological and economic change and above all how to become modern and remain distinctively Chinese

Christiane Reinhold, 2018-10-24 Unlike the majority of contemporary scholarly works that examine Sino Japanese relations between 1925 and 1945 this study de-emphasizes the story of conflict and war in favor of one that revolves around the way in which the Chinese intellectually encountered the enemy the Japanese      **Gender and Education in China** Paul J. The Routledge Handbook of Chinese Citizenship Zhonghua Guo, 2021-11-29 Two assumptions prevail in the study of Chinese citizenship one holds that citizenship is unique to the Western political culture and China has historically lacked the necessary conditions for its development the other implies that China is an authoritarian regime that has always been subject to autocratic power in which citizens and citizenship play a limited role This volume negates both assumptions On the one hand it shows that China has its own unique and rich experiences of the emergence development rights obligations acts culture education and sites of citizenship indicating the need to widen the scope of citizenship studies to include non Western

societies On the other hand it aims to show that citizenship has been a core issue running through China's political development since the modern period urging scholars to bring citizenship into consideration in the study of Chinese politics This Handbook sets a new agenda for citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies The Sinosphere and Beyond Joan Judge, Joachim Kurtz, Ori Sela, Dan Shao, Hugh Shapiro, 2024-07-22 The history of East Asia can be most productively studied through a transnational translingual and transcultural approach to the region In The Sinosphere and Beyond twenty six leading and emerging scholars use such approaches in rich clusters of essays on Historiography Sino Japanese Encounters Law and Justice Politics Art Literature and Translation Each essay builds on the legacy of Joshua Fogel whose scholarship defined the contours of the Sinosphere in the Western world and beyond The collection will be of interest to scholars and students with specific research concerns within these broader rubrics from the towering progenitors of Japanese Sinology to gendered diplomatic and cultural dimensions of Sino Japanese encounters from Sinitic poetry to legal culture and revolutionary life from art commerce and levels of literary expression to the quandaries of translation In addition to offering a broad range of case studies the volume is testimony to the methodological importance of a dynamic intra and transregional approach for an understanding of the layered history of East Asia China and the Philippines Phillip B. Guingona, 2023-11-08 Foregrounding the entangled history of China and the Philippines Guingona brings to life an array of understudied but influential characters such as Filipino jazz musicians magnetic Chinese swimmers expert Filipino marksmen leading Chinese educators Philippine Chinese bankers Filipina Carnival Queens and many others Through archival research in multiple languages this innovative study advances a more nuanced reading of world history reframing our understanding of the first half of the twentieth century by bringing interactions between Asian people to the fore and minimizing the role of those who historically dominated global history narratives Through methodologically distinct case studies Guingona presents a critique of Eurocentric approaches to world global history shedding light on the interconnected history of China and the Philippines in a transformative period This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details **Japan's Total Empire** Louise Young, 1998-01-01 In this first social and cultural history of Japan's construction of Manchuria Louise Young offers an incisive examination of the nature of Japanese imperialism Focusing on the domestic impact of Japan's activities in Northeast China between 1931 and 1945 Young considers metropolitan effects of empire building how people at home imagined and experienced the empire they called Manchukuo Contrary to the conventional assumption that a few army officers and bureaucrats were responsible for Japan's overseas expansion Young finds that a variety of organizations helped to mobilize popular support for Manchukuo the mass media the academy chambers of commerce women's organizations youth groups and agricultural cooperatives leading to broad based support among diverse groups of Japanese As the empire was being built in China Young shows an

imagined Manchukuo was emerging at home constructed of visions of a defensive lifeline a developing economy and a settler's paradise

**Globalizing Chinese Migration** Pál Nyíri, Igor Saveliev, 2020-08-26 This title was first published in 2003 Globalizing Chinese Migration is the first volume to deal comprehensively with the most recent wave of the migration from the People's Republic of China to Europe and Asia By analyzing the Chinese state's role in this migration the authors dismiss as fiction the theory sometimes advanced by hostile and racist foreign observers that Chinese authorities are intent on using mass emigration as an expansionist tool They go on to explain that migrants who might in earlier times have been reviled as traitors and absconders are today more likely to be viewed by sections of the Chinese state bureaucracy as patriots who remain part of China's polity and economy and contribute to its standing overseas Some senior officials however particularly diplomats stress the harm done by new migrants both to China's economy which loses assets as a result of the migrants' entrepreneurial activities and to its reputation in the world An essential resource for academics and students alike the volume presents important new data on aspects of Chinese migration largely neglected in the existing English language literature These include new forms of emigration from China by students and by workers from the country's north eastern provinces and emigration to destinations including Russia Southeast Asia and Japan normally unremarked by students of population movements

**International Student Activism and the Politics of Higher Education** CindyAnn

Rose-Redwood, Reuben Rose-Redwood, 2024-03-19 From international tuition hikes and discriminatory immigration policies to racially motivated violence and geopolitical tensions international students encounter numerous political issues while studying abroad Yet it is often assumed that international students are politically passive and disengaged rather than actively contributing to the political life of higher education institutions and the host country more generally The present book challenges this assumption by bringing together the work of scholars from various fields of study to examine international student activism advocacy and political engagement in higher education settings Drawing upon different research approaches this book showcases scholarship exploring the multifaceted ways in which international students engage with the political as well how the policy environments and socio political atmospheres in both host and home countries shape these experiences Far from being passive bystanders international students have exercised their political agency through diverse forms of collective action over the past century and this edited collection calls for a renewed focus on the political dimensions of the international student experience
