Daniel Defoe s intrepid character In her study of the novels poems short stories and films that adapt the Crusoe myth Ann Marie Fallon argues that the twentieth century Crusoe is not a lone struggling survivor but a cosmopolitan figure who serves as a warning against the dangers of individual isolation and colonial oppression Fallon uses feminist and postcolonial theory to reexamine Defoe s original novel and several contemporary texts showing how writers take up the traumatic narratives of Crusoe in response to the intensifying transnational and postcolonial experiences of the second half of the twentieth century Reading texts by authors such as Nadine Gordimer Bessie Head Derek Walcott Elizabeth Bishop and J M Coetzee within their social historical and political contexts Fallon shows how contemporary revisions of the novel reveal the tensions inherent in the transnational project as people and ideas move across borders with frequency if not necessarily with ease In the novel Robinson Crusoe Crusoe s discovery of Friday s footprint fills him with such anxiety that he feels the print like an animal and burrows into his shelter Likewise modern readers and writers continue to experience a deep anxiety when confronting the narrative issues at the center of Crusoe s story Primary ICT: Extending Knowledge in Practice John Duffy,2006-08-15

Still the biggest concern for many on initial teacher training courses is the acquisition of subject knowledge and the ability to translate that into effective teaching This book addresses this building on the core subject knowledge covered in the Achieving QTS series and relating it to classroom practice It supports trainees in extending and deepening their knowledge of ICT and demonstrating how to apply it to planning and implementing lessons Practical and up to date teaching examples are used to clearly contextualize subject knowledge A clear focus on classroom practice helps trainees to build confidence and develop their own teaching strategies **Language and Literacy 3-7** Jeni Riley,2006-10-02 This practical guide considers the research evidence that is needed to inform enlightened practice and offers concrete suggestions and teaching approaches for early years settings and classrooms This comprehensive book shows the what the how and the why of

Sue Kossew, Melinda Harvey, 2019-07-24 This is the first book to focus entirely on the under researched but crucial topic of women in the work of J M Coetzee generally regarded as one of the world's most significant living writers The fourteen essays in this collection raise the central issue of how Coetzee's texts address the woman question There is a focus on Coetzee's representation of women engagement with women writers and the ethics of what has been termed his ventriloquism of women's voices in his fiction and autobiographical writings right up to his most recent novel *The Schooldays of Jesus* As such this collection makes important links between the disciplines of literary and gender studies It includes essays by well known Coetzee scholars as well as by emerging scholars from around the world providing fascinating and timely global insights into how his works are read from differing cultural and scholarly perspectives

### **Beyond**

**Technology** David Buckingham, 2013-04-17 *Beyond Technology* offers a challenging new analysis of learning young people and digital media Disputing both utopian fantasies about the transformation of education and exaggerated fears about the corruption of childhood innocence it offers a level headed analysis of the impact of these new media on learning drawing on a wide range of critical research Buckingham argues that there is now a growing divide between the media rich world of children's lives outside school and their experiences of technology in the classroom Bridging this divide he suggests will require more than superficial attempts to import technology into schools or to combine education with digital entertainment

While debunking such fantasies of technological change Buckingham also provides a constructive alternative arguing that young people need to be equipped with a new form of digital literacy that is both critical and creative Beyond Technology will be essential reading for all students of the media or education as well as for teachers and other education professionals
